Educational Research and Policy-Making Lesley Saunders, 2007-09-12 Looking into the troubled relationship between research and policy making in education with contributions from leading UK educationalists this book will be invaluable to academics wanting to learn from the experience of senior researchers Information Literacy: Lifelong Learning and Digital Citizenship in the 21st Century Serap Kurbanoglu, Sonja Spiranec, Esther Grassian, Diane Mizrahi, Ralph Catts, 2014-12-13 This book constitutes the refereed proceedings of the European Conference on Information Literacy ECIL 2014 held in Dubrovnik Croatia in October 2014 The 93 revised full papers presented together with two keynote and one invited paper were carefully reviewed and selected from 283 submissions The papers are organized in topical sections on theoretical framework related concepts research rights and ethics children higher education education and instruction assessment and evaluation libraries different aspects Research Collaboration, 2007-01-01 Even though collaboration is entrenched in research practices few studies have considered how the practice is enacted among whom and to what effect Reviewing the accounts of successful or productive collaborative research teams in which collaborators report either concord or conflict in their relational dynamics featured in this volume leads to a deeper understanding of what it means to collaborate The contributing authors explore their relationships and praxis in particular research collaborations that range from large interdisciplinary teams to intimate teams between university based researchers who collaborate with teachers or students Successes experienced by the contributors are discussed in terms of solidarity emotional energy trust agency power and ethical praxis It is clear from the studies reported here that despite recognized differences between researchers in teams if they work with each other for each other it is likely that they will build solidarity and experience positive emotional energy and trust The edited volume is relevant to both experienced and early career researchers **Handbook of Research on Transnational Higher Education** Mukerji, Siran, 2013-08-31 The integration of new technology and global collaboration has undoubtedly transformed learning in higher education from the traditional classroom setting into a domain of support services academic programs and educational products which are made available to learners The Handbook of Research on Transnational Higher Education is a unique compilation of the most recent research done by higher education professionals in the areas of policy governance technology marketing and leadership development This publication succeeds in highlighting the most important strategies and policies for professionals policymakers administrators and researchers interested in higher education management Sm Research Writing Information Age I/M Arnold & Poston, 1998-07-01

The (Im)possible Multicultural Teacher Charise Pimentel, 2017-09-12 The Im possible Multicultural Teacher A Critical Approach to Understanding White Teachers Multicultural Work provides a nuanced examination of what committed and critical minded White teachers can do to transform educational inequities in their racially and linguistically diverse classrooms Drawing from an ethnographic research study with three White teachers working at elementary middle and high

school levels this book provides a theoretical frame for understanding teachers multicultural practices as well as three detailed case study chapters that document the teachers attempts at implementing multicultural practices Within each case study chapter the author defines the sociopolitical context in which the teachers work and that ultimately shapes the im possibilities of their multicultural practices The ethnographic research data show that the teachers processes of implementing multicultural education are characterized by not only transformative pedagogies but also pedagogical practices that take up and re produce the racial ideologies that make their multicultural endeavors difficult if not impossible to actualize As the title of this book suggests the author seeks to examine both the possibilities and impossibilities the im possibilities of White teachers implementing multicultural education
