## **Small Screens Television For Children:**

**Small Screens** David Buckingham, 2002 Has childrens television been dumbed down Is contemporary programming really as trivial vacuous and repetitive or indeed as subversive and anarchic as some critics suggest How does childrens television reflect broader changes both in broadcasting and in conceptions of childhood itself Amid all the recent controversies surrounding childrens television commentators have been too ready to condemn the anti educational influence of Teletubbies the dangerous sensuality of Live and Kicking or the violence and vulgarity of American cartoons without ever taking a serious look at what they have to offer Small Screens offers detailed coverage of childrens programming in the United States and Britain considering the changing ways in which children have been defined addressed and entertained by television The authors explore the key genres including cartoons costume drama and advertising they discuss significant and controversial programs including South Park Teletubbies and Grange Hill and they look at the experience of dedicated childrens channels and of TV related websites

Children, Media and Culture Kirsten Drotner, Sonia Livingstone, 2008-02-19 This essential volume brings together the work of internationally renowned researchers each experts in their field in order to capture the diversity of children and young people's media cultures around the world Why are the media such a crucial part of children's daily lives Are they becoming more important more influential and in what ways Or does a historical perspective reveal how past media have long framed children's cultural horizons or perhaps how families however constituted have long shaped the ways children relate to media In addressing such questions the contributors present detailed empirical cases to uncover how children weave together diverse forms and technologies to create a rich symbolic tapestry which in turn shapes their social relationships At the same time many concerns even public panics arise regarding children's engagement with media leading the contributors also to inquire into the risky or problematic aspects of today's highly mediated world Deliberately selected to represent as many parts of the globe as possible and with a commitment to recognizing both the similarities and differences in children and young people's lives from China to Denmark from Canada to India from Japan to Iceland from the authors offer a rich contextualization of children's engagement with their particular media and communication environment while also pursuing cross cutting themes in terms of comparative and global trends Each chapter provides a clear orientation for new readers to the main debates and core issues addressed combined with a depth of analysis and argumentation to stimulate the thinking of advanced students and established scholars Since children and young people are a focus of study across different disciplines the volume is thoroughly multi disciplinary Yet since children and young people are all too easily neglected by these same disciplines this volume hopes to accord their interests and concerns they surely merit

**Children and Screen Media in Changing Arab Contexts** Tarik Sabry, Nisrine Mansour, 2019-03-20 Using a phenomenological and multi sited ethnographic approach this book focuses on children's uses of digital media in three sites London Casablanca and Beirut and situates the study of Arab children and screen media within a wider frame making connections between local regional and global media content The study moves away from a conventional definition of media towards a pluralistic interpretation and provides key ethnographic findings that reveal how the notion of home is extended across everyday spaces that children occupy Exploring the relationship between children and media outside of the subject object hierarchy it re connects them in a horizontal mapping of affectivity and intimacy This book will appeal to scholars specializing in children and the media digital media media and cultural studies media anthropology philosophy and Middle Eastern studies

**The Material Child** David Buckingham, 2013-04-26 Children today are growing up in an increasingly commercialised world But should we see them as victims of manipulative marketing or as competent participants in consumer culture The Material Child provides a comprehensive critical overview of debates about children's changing engagement with the commercial market It moves from broad overviews of the theory and history of children's consumption to insightful case studies of key areas such as obesity sexualisation children's broadcasting and education In the process it challenges much of the received wisdom about

the effects of advertising and marketing arguing for a more balanced account that locates children's consumption within a broader analysis of social relationships for example within the family and the peer group While refuting the popular view of children as incompetent and vulnerable consumers that is adopted by many campaigners it also rejects the easy celebration of consumption as an expression of children's power and autonomy Written by one of the leading international scholars in the field *The Material Child* will be of interest to students researchers and policy makers as well as parents teachers and others who work directly with children

*From Small Screen to Vinyl* Bob Leszczak, 2015-06-25 From its infancy television networks and studios explore others avenues to increase their revenues Conveniently enough several film studios and production companies MGM MTM Columbia Screen Gems Talent Associates Warner Brothers had their own record label divisions The obvious benefit was cross promotion a television series could be plugged on the record and the record could be promoted on the TV show Though few and far between several television performers went on to become major recording stars Ricky Nelson started as a child actor on *The Adventures of Ozzie and Harriet* before dominating rock and pop charts Johnny Crawford of *The Rifleman* Walter Brennan of *The Real McCoys* and even Bruce Willis of *Moonlighting* all scored Top Ten hit singles But these were just the standouts from the hundreds of TV actors who recorded songs and the stories behind their records are simply fascinating In *From Small Screen to Vinyl A Guide to TV Stars Who Made Records 1950-2000* author Bob Leszczak offers a look at hundreds of stars who performed double duty as a television performer as well as a recording artist He looks not only at the show and the performer but the behind the scenes dramas that unfolded as each attempted to tackle the two different mediums Through his interviews with many of these multitaskers the author has uncovered new and mostly never before known facts about those who sought to conquer the world of vinyl As Leszczak stresses most eagerly embraced the opportunity to record while others saw it as a necessary evil the result of contractual obligations or industry pressures Entries are listed alphabetically from Nick Adams of *The Rebel* to Efreem Zimbalist Jr of *77 Sunset Strip* Also included are over 80 photos of these rare releases taken from the author's private collection For a new look at your old favorites *From Small Screen to Vinyl* will let you see that just because one is a TV star does not mean that he or she does not have the ability to expand beyond their acting prowess Baby boomers fans of classic hits radio and devotees of classic TV programs will find *From Small Screen to Vinyl* a treasure trove of TV and record trivia and no TV or music library can be considered complete without it

**Children, Media and Culture** Máire Messenger Davies, 2010-04-16 Childhood and children's culture are regularly in the forefront of debates about how society is changing often it is argued for the worse Some of the most visible changes are new media technology digital television the internet portable entertainment systems such as games mobile phones iPods and so on Television the most popular medium with children for the last thirty years is becoming less so This book is intended to broaden the public debate about the role of popular media in children's lives Its definition of media is wide ranging not just television and the internet but also still popular forms such as fairy tales children

s literature including the triumphantly successful Harry Potter series and playground games It sets these discussions within a framework of historical sociological and psychological approaches to the study of children and childhood At times of rapid technological change public anxieties always arise about how children can be protected from new harmful influences The book addresses the perennial controversies around media effects from a range of academic perspectives It examines critically the view that technology has dramatically changed modern children s lives and looks at how technology has both changed and sustained children s cultural experiences in different times and places Does new interactive technology give children a voice It can permit children to be their own authors and to engage in civil society as well as to explore taboo and potentially dangerous areas The book discusses how children can use technology to enhance their role as citizens in the making as well its utilizing more playful applications The book includes interviews with both producers and consumers media workers and children and their families and has historical and contemporary illustrations From Inquiry to Academic Writing Stuart Greene, April Lidinsky, 2011-07-06 Academic writing is a conversation a collaborative exchange of ideas to pursue new knowledge From Inquiry to Academic Writing A Text and Reader demystifies cross curricular thinking and writing by breaking it down into a series of comprehensible habits and skills that students can learn in order to join in The extensive thematic reader opens up thought provoking conversations being held throughout the academy and in the culture at large Read the preface
