Common Sense, Science and Scepticism Alan Musgrave, 1993-02-11 Can we know anything for certain Dogmatists think we can sceptics think we cannot and epistemology is the great debate between them Some dogmatists seek certainty in the deliverances of the senses Sceptics object that the senses are not an adequate basis for certain knowledge Other dogmatists seek certainty in the deliverances of pure reason Sceptics object that rational self evidence is no guarantee

of truth This book is an introductory and historically based survey of the debate siding for the most part with scepticism to show that the desire to vanquish it has often led to doctrines of idealism or anti realism Scepticism science and common sense produce another view fallibilism or critical rationalism although we can have little or no certain knowledge as the sceptics maintain we can and do have plenty of conjectural knowledge Fallibilism incorporates an uncompromising realism about perception science and the nature of truth The Great Dictionary English - Dutch Benjamin Maximilian Eisenhauer, This dictionary contains around 60 000 English terms with their Dutch translations making it one of the most comprehensive books of its kind It offers a wide vocabulary from all areas as well as numerous idioms The terms are translated from English to Dutch If you need translations from Dutch to English then the companion volume The Great Dictionary Dutch English is recommended

Authority of Expression in Early Modern England Nely Keinänen, Maria Saleniu, 2009-03-26 Authority of Expression in Early Modern England brings together an international group of scholars writing on the relationships between authority and the self in early modern English literature discussing writers such as Edmund Spenser William Shakespeare John Donne Ben Jonson Thomas Middleton and Andrew Marvell The early modern period was a time of momentous religious political and cultural change with scientific and geographical exploration opening new horizons challenging established truths and unsettling the concepts and practices of authority In this book scholars approach the texts from a literary historical and or linguistic point of view thus providing multiple perspectives on the topic Themes explored include the links between sense perception and cognition in the establishment of authority the ways that sexuality gender relations and language are implicated in expressing and responding to authority and conceptions of the self and the strategies that individuals adopt to cope with changes in their frameworks of authority and power This wide ranging collection offers new perspectives on how authority was negotiated in the English Renaissance
