**Seeing Nature Through Gender** Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters' own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred bunnies Others are dead serious as in a chilling portrait of how endocrine disruptors are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet

**New York Magazine**, 1974-02-18 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while

celebrating New York as both a place and an idea      Skiing ,1971-02      Boondoggles G.E. Bentley, Jr,2018-07-12 One of Jerry's greatest talents was creating research pretexts to travel to the far corners of the globe. He explored England and continental Europe first as a student and later when he returned regularly for research. Once he had settled into his career at the University of Toronto, Jerry sought adventure with his young family while teaching for a year in places which did not at the time attract many Western academics: Algeria in the 1960s, India in the 1970s, China in the early 1980s. In each of these places he found expectations about teaching, university administration and social interactions vastly different, often baffling and always entertaining. The volume concludes with three essays in which Jerry chronicles his academic endeavours as a scholar of William Blake forms the basis of the most important collection of Blake works in Canada. With eloquence and humour, Jerry brings to life in *Boondoggles* the people he met and the grandeur of the places he visited as both a restless professor and an endlessly curious observer of human nature long before the era of mass tourism made such travels commonplace.      *New York Magazine* ,1976-11-15 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. Much more than a history of the sport, her work explains how the recreation industry sold the experience of skiing and created mythic mountain landscapes with real problems and a ski culture that exalts celebrity and status over the physical act of skiing. Jacket.      *Locked, Loaded, & Lying* Sarah Andre, 2015-06-16 He might be innocent. Or he might be very, very guilty. Olympic skier Lock Roane was on top of the world, smashing world records, collecting medals and basking in the love of a nation and his beautiful heiress girlfriend. It all comes crashing down after Lock discovers his girlfriend had an affair, then wakes from a drunken bender to find himself covered in her blood. Disgraced and dethroned, Lock awaits his murder trial with dread, not knowing if his girlfriend died at his own hands. Journalist Jordan Sinclair is out of options. To satisfy her blackmailer, she must get the inside scoop and its cash reward on Lock Roane. An attraction to the arrogant athlete was not part of the plan. Neither is trying to find out what really happened that night. Now Jordan risks everything, including her life, to help the man she's falling for. A man who just might be a cold-blooded killer.      **A Companion to American Environmental History** Douglas Cazaux Sackman, 2010-02-12 *A Companion to American Environmental History* gathers together a comprehensive collection of over 30 essays that examine the evolving and diverse field of American environmental history.
