So Long To Learn:

So Long to Learn , [Free to Learn](#) Peter Gray,2013-03-05 A leading expert in childhood development makes the case for why self directed learning unschooling is the best way to get kids to learn All kids love learning Most don t love school That s a disconnect we ve avoided discussing until this lightning bolt of a book If you ve ever wondered why your curious kid is turning into a sullen slug at school Peter Gray s Free to Learn has the answer He also has the antidote Lenore Skenazy author of Free Range Kids In Free to Learn developmental psychologist Peter Gray argues that in order to foster children who will thrive in today s constantly changing world we must entrust them to steer their own learning and development Drawing on evidence from anthropology psychology and history he demonstrates that free play is the primary means by which children learn to control their lives solve problems get along with peers and become emotionally resilient A brave counterintuitive proposal for freeing our children from the shackles of the curiosity killing institution we call school Free to Learn suggests that it s time to stop asking what s wrong with our children and start asking what s wrong with the system It shows how we can act both as parents and as members of society to improve children s lives and to promote their happiness and learning [Live and Learn](#) ,1853 *To Want to Learn* Jackson Kytle,2012-07-17 Lack of learner motivation is the single greatest challenge before American schools and colleges When students are self motivated they invest more and work harder at learning even if resources are inadequate Jackson Kytle s provocative book argues that students and teachers waste time and human energy because the conventional curriculum rests on flawed mental models Hope for change requires a searching critique of modernity as well as expanded theories of human motivation and learning based on advances in neurobiology and cognitive studies After consideration of existentialism and choice of life purposes and the dynamics of psychological involvement Kytle closes his ambitious interdisciplinary book with ten considerations for better learning
