that goes beyond what Virginia Woolf did years before. The spite the young man feels toward his mother-in-law for offering him and his wife cheap chairs for their apartment, the terror inspired during a confrontation between the same young man and his aunt, and the need for approval he feels when he's around his Gertrude Stein-like literary icon are some of the many internal conflicts that move the narrative forward through the minds of the conflicted and clashing characters. Always deeply engaging, *The Planetarium* uses a simple plot to reveal the disparity between the way we see ourselves and the way others see us.
