Social Change And Cultural Transformation In Australia:

Social Change and Cultural Transformation in Australia Adam Jamrozik, Cathy Boland, Robert Urquhart, 1995-04-28 The face of Australian society has been transformed since World War II with the arrival of more than one hundred different ethnic groups During the 1980s multicultural became the term used to describe this new society While hundreds of reports surveys and books have been devoted to analysing multiculturalism few studies have looked systematically at the impact of ethnic diversity on Australian culture and institutions This book looks beyond the rhetoric of multiculturalism It examines social and cultural change since the 1940s arguing that while the population has become ethnically and culturally diverse Australia's power structures have remained monocultural drawing mainly from the British inheritance An intelligently written polemic this book gives a picture of Australia in the 1990s quite different to that presented by many other writers and commentators Much of its theoretical argument as well as its empirical findings will be relevant to readers interested in other societies of cultural diversity

Media and Cultural Transformation in China Haiqing Yu, 2009-02-24 This book examines the role played by the media in China's ongoing cultural transformation It demonstrates that the media is integral to China's changing culture in the age of globalization whilst also being part and parcel of the State and its project of re-imagining national identity

Developing A Cross Cultural Curriculum Therese O'Donnell, 2012-07-23 This work makes the case that cross cultural issues are central to the purposes of legal education The authors argue for a critical multiculturalism that is attuned to questions of gender class sexuality and social justice and that must inform the whole law school curriculum

Origins Of Multiculturalism In Australian Politics 1945-1975 Mark Lopez, 2013-06-18 This book answers such fundamental questions as what is multiculturalism how did it originate and how did it become a basis for the Australian government's ethnic affairs policy Researched from primary evidence much of it made available to the author exclusively— it is an essential and solid foundation for future research and policy work in this field Multiculturalism continues to stir emotions and excite passionate public debate This work presents new accurate ideologically neutral historically based definitions of multiculturalism It also provides accurate and analytically useful definitions and explanations of assimilationism and integrationism thus establishing a valuable framework for analysis and debate

Asianisation Of Australia? Kee Pookong, Laksiri Jayasuriya, 2013-04-04 we must combat blind ignorance with fact and unreason with reason and that is what this book is about Don Dunstan Pauline Hanson was not the first person to sensationalise the effects of Australia's open immigration policy on the racial make up of this country Nor was she the first politician to see advantage in building on the fear and prejudice beneath the surface of Australia's multicultural society For the end of the White Australia policy in 1973 did not spell the end of fear of a peaceful Asian invasion through immigration The Asianisation of Australia contributes the dispassionate independent and objective comment that has been missing from media debate on the effects of our immigration policies It provides a wealth of data on the make up of Australia's immigrant intake and the ability of

immigrants to establish a place in their new country Recent political rhetoric and forecasts are exposed for the myths prejudices and over simplifications that they are By comparing such indicators as rates of employment income childbirth intermarriage and fluency in English between Asian and other immigrants Professors Jayasuriya and Kee convincingly demonstrate the valuable contribution made by Asian immigrants to our culture and our economy **The Political**

Economy of Migration and Post-industrialising Australia Patrick Brownlee,2020-08-31 During the 1980s and 1990s Australia s migration intake turned rapidly towards recruiting business professionals managers and entrepreneurs to support the country s entry into an economic system marked by global value chains This book analyses the policy idea termed Productive Diversity introduced by the Australian government as a way of conceptualising the belief that migrants would bring business acumen and a global outlook to help Australia compete as a trading nation The book examines this germinal period of Australia s economic reorientation through a close inspection of policy documents parliamentary hearings economic and migration statistics and interviews with the architects of the policy It provides a comprehensive account of how the policy framework emerged how it was implemented and studies the rationale in recruiting self starters and managers to connect with global trade flows This work will be of interest to students and researchers of migration studies especially Australian migration diversity policies sociology multiculturalism economics development studies and Asia Pacific studies The methods and data will also be of value to political economists and policy makers **Building Stronger Communities**

Philip Hughes,2007 Examines in a lucid and practical way means by which communities can be strengthened

Multiculturalism and Immigration in Canada Elspeth Cameron,2004 Multiculturalism in Canada offers a solid introduction to the history and development of the ideology of multiculturalism in Canada This ideology which has become the primary designator of Canadian society began in the early 1970s when vocal elements in the population who were neither English nor French strongly responded to the investigations of the Committee on Bilingualism and Biculturalism Given Canada s early racist tendencies the establishment of multiculturalism was a remarkable shift in public thinking Many issues associated with immigration have arisen in the public debates around multiculturalism Some people are convinced that it is a pernicious ideology that enforces the ghettoisation of those different from the mainstream Others see dangers in the way some aspects of multiculturalism are merely tokens of an all inclusive society Still others contend that the voices of ethnicities aside from those of the two charter groups English and French are scarcely heard and that worse those marginalised voices are appropriated by mainstream writers On the whole however Canadians especially younger Canadians welcome a liberal outlook that is inclusive of a wide variety of ethnicities For them and for many immigrants Canada is a society that is multiple and layered one rich in meaning They tend to see Canada as a microcosm of the larger world one that presents a useful model of tolerance for the world at large Increasingly marginalised new Canadians are excelling in the arts communities telling all Canadians what various aspects of the culture shock of transplantation feels like This book includes a

representative sample of their works **Bridging Imaginations** Dr Amit Sarwal, 2012-02-11 Migration of the South Asian peoples to Australia has resulted in a continually growing and flourishing diaspora one of the most prosperous communities with an ever increasing role and responsibility in all areas of society One of the challenges in writing about the South Asian diaspora in Australia is the nature of the multifarious migration and entry points into Australia range from colonial indentured workers to political asylum seekers to transnational marriages to students and high end professionals How did their journeys and experiences generate bridges that have influenced the historical cultural social and academic perceptions of the ever changing continents It is hoped that this critical anthology will help present a dynamic community in transit and showcase the achievements of the South Asian diaspora during the last decade which have not only made a significant impact on Australia's multicultural landscape but also furthered South Asian Australian engagement **The Australian People**

James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation **The Sociology of Social Problems**

Adam Jamrozik, Luisa Nocella, 1998-07-13 Social problems such as unemployment poverty and drug addiction are a fact of life in industrialised societies This book examines the sociology of social problems from interesting and challenging perspectives It analyses how social problems emerge and are defined as such who takes responsibility for them who is threatened by them and how they are managed solved or ignored The authors examine and critique existing theories of social problems before developing their own theoretical framework Their theory of residualist conversion of social problems explains how certain social problems threaten legitimate power structures so that problems of a social or political nature are transformed into personal problems and the helping professions are left to intervene This book will become a key reference on class inequality and social intervention and an important text for students in sociology and social work courses Shipbuilding and Ship

Repair Workers around the World Raquel Varela, Hugh Murphy, Marcel Linden, 2025-10-01 Maritime trade is the backbone of the world's economy Around ninety percent of all goods are transported by ship and since World War II shipbuilding has undergone major changes in response to new commercial pressures and opportunities Early British dominance for example was later undermined in the 1950s by competition from the Japanese who have since been overtaken by South Korea and most recently China The case studies in this volume trace these and other important developments in the shipbuilding and
