**The Fourth Estate at the Fourth Wall** Cary Hollinshead-Strick,2019-07-15 New media are often greeted with suspicion by older media The Fourth Estate at the Fourth Wall explores how when the commercial press arrived in France in 1836 popular theater critiqued its corruption its diluted politics and its tendency to orient its content toward the lowest common denominator July Monarchy plays which provided affordable entertainment to a broad section of the public constitute a large nearly untapped reservoir of commentary on the arrival of the forty franc press Vaudevilles and comedies ask whether journalism that benefits from advertisement can be unbiased Dramas explore whether threatening to spread false news is an acceptable way for journalists to exercise their influence Hollinshead Strick uses both plays and novels to show that despite their claims to enlighten their readers newspapers were often accused of obscuring public access to information Balzac s interventions in this media sphere reveal his utopian views on print technology Nerval s and Pyat s demonstrate the nefarious impact that corrupt theater critics could have on authors and on the public alike Scholars of press and media studies French literature theater and nineteenth century literature more generally will find this book a valuable introduction to a cross genre debate about press publicity that remains surprisingly resonant today

**Acts of Modernity** David Buchanan,2017-09-01 In Acts of Modernity David Buchanan reads nineteenth century historical novels from Scotland America France and Canada as instances of modern discourse reflective of community concerns and methods that were transatlantic in scope Following on revolutionary

events at home and abroad the unique combination of history and romance initiated by Walter Scott's Waverley 1814 furthered interest in the transition to and depiction of the nation state. Established and lesser known novelists reinterpreted the genre to describe the impact of modernization and to propose coping mechanisms according to interests and circumstances. Besides analysis of the chronotopic representation of modernity within and between national contexts Buchanan considers how remediation enabled diverse communities to encounter popular historical novels in upmarket and downmarket forms over the course of the century. He pays attention to the way communication practices are embedded within and constitutive of the social lives of readers and more specifically to how cultural producers adapted the historical novel to dynamic communication situations. In these ways *Acts of Modernity* investigates how the historical novel was repeatedly reinvented to effectively communicate the consequences of modernity as problem solutions of relevance to people on both sides of the Atlantic.

Modernity explores the ways in which feminine fashion accessories such as cashmere shawls parasols fans and handbags became essential instruments in the bourgeois idealization of womanhood in nineteenth century France Considering how these fashionable objects were portrayed in fashion journals and illustrations as well as fiction the book explores the histories and cultural weight of the objects themselves and offers fresh readings of works by Balzac Flaubert and Zola some of the most widely read novels of the period As social boundaries were becoming more and more fluid in the nineteenth century one effort to impose order over the looming confusion came in the case of women through fashion and the fashion accessory thus became an ever more crucial tool through which social distinction could be created projected and maintained Looking through the lens of fashion Susan Hiner explores the interplay of imperialist expansion and domestic rituals the assertion of privilege in the face of increasing social mobility gendering practices and their relation to social hierarchies and the rise of commodity culture and woman's paradoxical status as both consumer and object within it Through her close focus on these luxury objects Hiner reframes the feminine fashion accessory as a key symbol of modernity that bridges the erotic and proper the domestic and exotic and mass production and the work of art while making a larger claim about the accessory status in terms of both complicity and subordination of bourgeois women in nineteenth century France Women were not simply passive bystanders but rather were themselves accessories to the work of modernity from which they were ostensibly excluded
