Ballard, 2012-12-06 As this collection of essays demonstrates over a long career Edward Goodwin Ballard has written on a wide range of topics of philosophical interest Although the present volume can be enjoy ably browsed it is not simply a sampling of his writings Rather herein Professor Ballard has chosen and organized essays which pertain to the major concerns of his philosophic life He has long held that the function of philosophy particularly in a time such as ours is the discernment and analysis of basic principles archai and their consequences Indeed in Philosophy at the Crossroads he recommended focusing upon the history of philosophy understood as the movement of recognizing and interpreting the shifts in first principles as they reflect and determine human change For Ballard the study of the history of philosophy like philosophy itself is not so much a body of knowledge as an exercise an art whiQh moves the practitioner towards social and individual maturity He holds along with Plato and Husserl that philosophy is a process of conversion to the love of wisdom as well as a grasp of the means for its attainment Throughout his writings Ballard has maintained that the difficulties of this journey have to do with the limitations of the pilgrim Human being is perspectival finite and inevitably ignorant Philosophic command and self recognition reside in the just assessment of the limits of human knowledge      Art, Artists and Pedagogy Christopher Naughton, Gert Biesta, David R. Public Library, 1896 *The Theoretic Life - A Classical Ideal and its Modern Fate* Alexander S. Rosenthal-Pubul, 2019-01-01

In this work Alexander Rosenthal Pubul presents a broad examination of the ancient philosophical question What is the good life while addressing how the liberal arts can help us to answer this question Greek philosophy distinguished between the noble what is good in itself from the merely useful good for something else From thence follows the distinction between the liberal arts which pursue such noble goods and the mechanical arts which are only instrumental For Aristotle the most noble and excellent good is wisdom itself Hence the theoretic life devoted to the love of wisdom for its own sake philosophy is the highest and the most excellent This work theorizes the origins of modernity in a rebellion against this Greek conception resulting in a complete inversion of the classical hierarchy Sir Francis Bacon reconceiving the purpose of knowledge as power enthroned technology over philosophy and the liberal arts The unfolding of the modern Baconian revolution progressively sidelines the liberal arts as practical economic and technical utility become the standard of value In assessing this problem the book engages in a capacious journey across disciplines like philosophy history art politics and science It is also a veritable tour across the Western intellectual tradition including Socrates Plato Aristotle Cicero Seneca Thomas Aquinas Bacon Descartes Hume Kant Nietzsche Dewey Berdyaev Einstein and Heidegger It pleads the urgent need to preserve the humanizing cultural ideals of the ancient classics against the modern tyranny of utility and the dangers of a new barbarism

The Poster Ruth E. Iskin, 2014-10-07 *The Poster Art Advertising Design and Collecting 1860s 1900s* is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin's insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising
