Harvard's Classics Collection Complete 71 Volumes is a monumental anthology that serves as a comprehensive survey of the foundational texts and figures that have shaped Western literature and thought. This collection spans millennia encompassing works from ancient Greece to the Enlightenment and up through the 19th century showcasing a diverse range of literary styles including poetry, philosophy, fiction, and scientific discourse. The inclusion of seminal works by figures such as Dante Alighieri, William Shakespeare, Plato, and Charles Darwin amongst others highlights the anthology's breadth and depth, offering readers an unparalleled insight into the various currents that have influenced Western cultural and intellectual history. The contributing authors and editors of this collection are each luminary in their own right, having left indelible marks on their respective fields. This anthology not only collates works by philosophers, scientists, and literary giants but also orchestrates a dialogue among them, offering a unique multidisciplinary perspective. The collection navigates through Renaissance humanism, the Enlightenment's valorization of reason, and the Romantic eras' emphasis on individual emotion and natural beauty, painting a rich historical and cultural panorama. Through their collective works, this anthology encapsulates the essence of human thought and its evolution over the centuries. Harvard's Classics Collection Complete 71 Volumes is an essential resource for those looking to immerse themselves in the rich tapestry of human knowledge and creativity. Whether for scholarly research, educational pursuits, or personal enrichment, this collection offers an unmatched opportunity to engage with the texts that have served as cornerstones of Western culture. Readers are invited to explore this treasure trove of human experience, thought, and expression, which continues to enlighten, instruct, and inspire generations.

Economists and Higher Learning in the Nineteenth Century William J. Barber, 1993-01-01. Many economists who struggled to establish a secure place for their discipline in American universities in the nineteenth century made significant contributions to reshaping American academic life in general. Yet they were often at war among themselves as they sought to define the mission and methods of economics in an era of social and intellectual ferment. This volume represents the contribution of American scholars to a multinational research project on the institutionalization of political economy in European, Japanese, and North American universities. It includes case studies of divergent experiences of fourteen institutions that figured prominently in the molding of American culture: William Mary, The University of Virginia, South Carolina College, Brown, Harvard, Yale, Columbia, Johns Hopkins, The University of Pennsylvania, The University of Chicago, The University of California, Stanford, The University of Wisconsin, and the Massachusetts Institute of Technology. These are

supplemented in an essay by A W Coats on the turbulent early decades of the American Economic Association In this new introduction Barber takes note of the fact that in a somewhat different context and with a modified rhetoric the same issues present themselves today as they did one hundred years earlier And this in turn introduces some troubling concerns about just what sort of science economics is and was The volume as a whole can be read as reflections on the troubled status of the discipline of economics as it now exists in American university and research contexts It provides fresh perspectives on the development of social science and economic thought and on the history of higher education in the United States As such it will be of very great interest to professional economists students of higher education and those for whom the life of American ideas holds a central place Wesleyan University, 1910-1970 David B. Potts, 2015-05-11 Winner of the Homer D Babbidge Jr 2016 In Wesleyan University 1910 1970 David B Potts presents an engaging story that includes a measured departure from denominational identity an enterprising acquisition of fabulous wealth and a burst of enthusiastic aspirations that initiated an era of financial stress Threaded through these episodes is a commitment to social service that is rooted in Methodism and clothed in more humanistic garb after World War II Potts gives an unprecedented level of attention to the board of trustees and finances These closely related components are now clearly introduced as major shaping forces in the development of American higher education Extensive examination is also given to student and faculty roles in building and altering institutional identity Threaded throughout these probes within in the analytical narrative is a close look at the waxing and waning of presidential leadership All these developments as is particularly evident in the areas of student demography and faculty compensation travel on a pathway through middle class America Within this broad context Wesleyan becomes a window on how the nation s liberal arts colleges survived and thrived during the last century This book concludes the author s analysis of changes in institutional identities that shaped the narrative for his widely praised first volume Wesleyan University 1831 1910 Collegiate Enterprise in New England His current fully evidenced sequel supplies helpful insights and reference points as we encounter the present fiscal strain in higher education and the related debates on institutional mission **Catalog of Copyright Entries.
