The Haunting Image:

Haunting Images Tine Gammeltoft, 2014-02-22 Based on years of careful ethnographic fieldwork in Hanoi *Haunting Images* offers a frank and compassionate account of the moral quandaries that accompany innovations in biomedical technology At the center of the book are case studies of thirty pregnant women whose fetuses were labeled abnormal after an ultrasound examination By following these women and their relatives through painful processes of reproductive decision making Tine M Gammeltoft offers intimate ethnographic insights into everyday life in contemporary Vietnam and a sophisticated theoretical exploration of how subjectivities are forged in the face of moral assessments and demands Across the globe ultrasonography and other technologies for prenatal screening offer prospective parents new information and present them with agonizing decisions never faced in the past For anthropologists this diagnostic capability raises important questions about individuality and collectivity responsibility and choice Arguing for more sustained anthropological attention to human quests for belonging *Haunting Images* addresses existential questions of love and loss that concern us all **The King's Living Image** Alejandro Canaque, 2013-04-15 To rule their vast new American territories the Spanish monarchs appointed viceroys in an attempt to reproduce the monarchical system of government prevailing at the time in Europe But despite the political significance of the figure of the viceroy little is known about the mechanisms of viceregal power and its relation to ideas of kingship Examining this figure *The King's Living Image* challenges long held perspectives on the political nature of Spanish colonialism recovering at the same time the complexity of the political discourses and practices of Spanish rule It does so by studying the viceregal political culture that developed in New Spain in the sixteenth and seventeenth centuries and the mechanisms both formal and informal of viceregal rule In so doing *The King's Living Image* questions the very existence of a colonial state and contends that imperial power was constituted in ritual ceremonies It also emphasizes the viceroys significance in carrying out the civilizing mission of the Spanish monarchy with regard to the indigenous population *The King's Living Image* will redefine the ways in which scholars have traditionally looked at the viceregal administration in colonial Mexico *The Haunting Image* Suzanne Clausse, 1978 *Terrorizing Images* Charles Ivan Armstrong, Unni Langas, 2020-09-07 It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests This volume proposes that paying attention to how images of trauma and conflict are described in literary texts i e to the rhetorical practice known as ekphrasis is crucial to our understanding of how such images work The volume's contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different functions of ekphrasis in literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described

interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies

Holocaust Images and Picturing Catastrophe Angi

The Spectral Body Dragon Zoltan, 2009-05-27 The Spectral Body Aspects of the Cinematic

Oeuvre of Istv n Szab analyses some of the films made by Academy Award winner Hungarian filmmaker Istv n Szab to establish an interpretative matrix disclosing the root of haunting effects in the visual and the narrative levels of the diegeses By combining two distinct and often incongruous lines of psychoanalytic thought by Nicolas Abraham and Jacques Lacan Zolt n Dragon argues that these films are fuelled by the work of a phantom on all levels hiding the secrets of the family history of the characters and producing uncanny visual scenarios to make the act of hiding even more effective The book brings the reader into the realm of the phantom text generating the film texts and crypt screens of the oeuvre and investigates the causes of undiscussible and painful secrets that propel some pivotal characters to reappear in subsequent films apparently driven by a compulsion to continue their narration failing to finish their stories even when they appear to be successful The Spectral Body Aspects of the Cinematic Oeuvre of Istv n Szab introduces a visual reinterpretation of Abraham s phantom theory that opens up possibilities for an alternative way of studying film I first saw this work in the form of a full and detailed draft I was impressed by the boldness of the ideas the attempt to integrate and work with different theoretical positions and the quite extraordinary reading of the films of Istv n Szab There was clearly a powerful and creative and original intelligence at work A further draft accomplished one important thing that had been missing from the first one the direct analysis of the visual material and its contribution to the overall narrative and theoretical framework The work employs a psychoanalytic framework with some key concepts such as the phantom drawn from the work of Torok and Abraham This theory is fairly well known but it has not to my knowledge been used in any extensive way in the analysis of film texts before Zoltan also makes reference to Freud and uses some Lacanian ideas in his analysis at the level of the visual These multiple theoretical

references are not inconsistent they are finely judged and are most productive Theory is never used as a grid to be imposed on the material There is a fine balance between theory and textual analysis that is hard to achieve but it is successful here I think that the position that Zoltan Dragon has forged for himself and from which he writes is a highly original and interesting one He has been most successful in developing his framework in relation to Szab s oeuvre which he knows in the greatest detail His readings of that oeuvre are rich and powerful and will provoke considerable debate in the world of film studies and also of psychoanalytical studies Parveen Adams Core Teaching Faculty London Consortium *Critical Theory and Film*
 Fabio Vighi,2012-05-03 Critical Theory and Film brings together critical theory and film to enhance the critical potential of both The book focuses on the Frankfurt School most notably the works of Adorno and Horkheimer as well as associated thinkers It seeks to demonstrate that cinema can help critical theory repoliticize culture and society and affirm the theoretical and political impact of cinematic knowledge After discussing how the Frankfurt School saw cinema as an instrument of capitalism use to promote the cultural and political regimentation of the masses Vighi then proceeds to demonstrate that critical theory can in fact suggest a different verdict on the progressive potential of cinema Each chapter focuses on a key critical theory concept that is explained and redefined through film analysis to unravel the hidden presuppositions and most radical consequences of critical theory A unique contribution to the literature this volume in the Critical Theory and Contemporary Society series offer an innovative reading of film as a critical tool drawing on the latest developments in Lacanian theory **Picturing the Family** Silke Arnold-de Simine,Joanne Leal,2020-08-04 Whether pasted into an album framed or shared on social media the family photograph simultaneously offers a private and public insight into the identity and past of its subject Long considered a model for understanding individual identity the idea of the family has increasingly formed the basis for exploring collective pasts and cultural memory Picturing the Family investigates how visual representations of the family reveal both personal and shared histories evaluating the testimonial and social value of photography and film Combining academic and creative practice based approaches this collection of essays introduces a dialogue between scholars and artists working at the intersection between family memory and visual media Many of the authors are both researchers and practitioners whose chapters engage with their own work and that of others informed by critical frameworks From the act of revisiting old personal photographs to the sale of family albums through internet auction the twelve chapters each present a different collection of photographs or artwork as case studies for understanding how these visual representations of the family perform memory and identity Building on extensive research into family photographs and memory the book considers the implications of new cultural forms for how the family is perceived and how we relate to the past While focusing on the forms of visual representation above all photographs the authors also reflect on the contextualization and remediation of photography in albums films museums and online *Suffering and Sentiment in Romantic Military Art* Philip Shaw,2017-07-05 In a moving intervention into Romantic era depictions of the dead and

wounded Philip Shaw's timely study directs our gaze to the neglected figure of the common soldier. How suffering and sentiment were portrayed in a variety of visual and verbal media is Shaw's particular concern as he examines a wide range of print and visual media from paintings to sketches to political prose and anti-war poetry and from writings on culture and aesthetics to graphic satires and early photographs. Whilst classical portraiture and history painting certainly conspired with official ideologies to deflect attention from the true costs of war, other works of art literary as well as visual proffered representations that countered the view that suffering on and off the battlefield is noble or heroic. Shaw uncovers a history of changing attitudes towards suffering from mid-eighteenth-century ambivalence to late-eighteenth and early-nineteenth-century concepts of moral sentiment. Thus Shaw's story is one of how images of death and wounding facilitated and queried these shifts in the perception of war, qualifying as well as consolidating ideas of individual and national unanimity. Informed by readings of the letters and journals of serving soldiers, surgeons' notebooks and sketches and the writings of peace and war agitators, Shaw's study shows how an attention to the depiction of suffering and the development of liberal sentiment enables a reconfiguring of historical and theoretical notions of the body as a site of pain and as a locus of violent national imaginings.
