Claude Welch, 2019-04-11 In many contemporary nations particularly in Africa Asia and Latin America the armed forces play a major role in governing Historical economic and sociological factors have contributed to the political prominence of the military in developing countries Nevertheless in the 1980s several states in Latin America restored civilian rule followi U. S. Intervention and Regime Change in Nicaragua Mauricio Solaun, 2021-08-05 As President Carter's ambassador to Nicaragua from 1977 1979 Mauricio Sola n witnessed a critical moment in Central American history In U S Intervention and Regime Change in Nicaragua Sola n outlines the role of U S foreign policy during the Carter administration and explains how this policy with respect to the Nicaraguan Revolution of 1979 not only failed but helped impede the institutionalization of democracy there Late in the 1970s the United States took issue with the Nicaraguan dictator Anastasio Somoza Moral suasion economic sanctions and other peaceful instruments from Washington led to violent revolution in Nicaragua and bolstered a new dictatorial government A U S supported counterrevolution formed and Sola n argues that the United States attempts to this day to determine who rules Nicaragua Sola n explores the mechanisms that kept Somoza's poorly legitimized regime in power for decades making it the most enduring Latin American authoritarian regime of the twentieth century Sola n argues that continual shifts in U S international policy have been made in response to previous policies that failed to produce U S friendly international environments His historical survey of these policy shifts provides a window on the working of U S diplomacy and lessons for future policy making State Formation and the Structure of Politics in Mamluk Syro-Egypt, 648-741 A.H./1250-1340 C.E. Winslow Williams Clifford, 2013 Winslow Williams Clifford is one of the few historians so far who have addressed the history and culture of the so called Mamluk Sultanate 1250 1517 on the basis of theoretical models This volume is a posthumous publication of his doctoral thesis submitted in 1995 at the University of Chicago Through his skillful application of social theory Clifford succeeded in providing highly convincing evidence that the Mamluk rulers did not as was maintained for a long time constitute a static form of oriental despotism but was rather a highly differentiated society It was primarily based on compliance with a complex system of order that had established itself during the rule of the first sultans **The Cambridge History of Latin America** Leslie Bethell, 1984 This is an authoritative large scale history of the whole of Latin America from the first contacts between native American peoples and Europeans in the late fifteenth and early sixteenth centuries to the present day **Military Foundations of Panamanian Politics** Robert Harding II, 2019-01-22 This is a comprehensive examination of the evolution of the politicization of the Panamanian military and the legacy of this

transformation in modern Panamanian politics It addresses the fundamental role that the Panamanian military played in influencing and molding the modern day Panamanian political system structurally legally and constitutionally and chronicles the corporate and political growth of the Panamanian military filtering its analysis through civil military theory to achieve its two primary goals *A Selected Bibliography on the United States Army in Latin America* US Army Military History Institute, Claude C. Sturgill, 1986

The Politics of Clientelism John Martz, 2017-12-02 In Latin America the state is the prime regulator coordinator and pace setter of the entire national system the apex of the pyramid from which patronage wealth power and programs flow The state bears responsibility for the realization of civic needs providing goods and services to each citizen Doing so requires the exercise and maintenance of social and political control It is John Martz's contention that clientelism underlines the fundamental character of Latin American social and political life As the modernizing bureaucratic state has developed in Latin America there has been a concurrent shifting away from clientelistic relationships Yet in one form or another political clientelism still remains central Clientelism occurs when large numbers of low status individuals such as those in the slums of rural and underdeveloped areas are protected by a powerful patron who defends their interests in return for deference or material reward In Colombia the rural patron has become a member of the higher clientelistic system as well he is dependent on a patron who operates at the national level This enables urban elites to mobilize low status clients for such acts as mass demonstrations of political loyalty to the regime Thus traditional clientelism has been modified through the process of modernization Part One of *The Politics of Clientelism* examines Colombian politics focusing on the incarnation and traditional forms of clientelism Part Two explores the policies of Colombian governance from the administrations of Lleras Camargo through Julio Cesar Turbay Ayala Part Three discusses the modernization and restructuring of Colombia in recent decades under Belisario Betancur Virgilio Barco and Cesar Gaviria As the modernizing bureaucratic state has unfolded there has been a similar shift in many clientelistic relationships Martz argues that whether corporate clientelism remains or more democratic organization develops

accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions Robert Michels, Political Sociology and the Future of Democracy Juan Linz, 2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels his major book Political Parties and the dimensions of democracy as a functioning system Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence Instead Michels offers a view of politics that is bottom up and untidy what he calls a reciprocal deference structure Michels is not simply the father of the iron law of oligarchy but the idea of politics as a less than orderly network of responsiveness responsibility and accountability Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology The remaining three segments of the volume cover areas with which Linz has also long been identified Each in its own way illumines aspects of Michels as well Time and Regime Change articulates differences between change within a regime and change of a regime sometimes hard to identify because of the elongated time frames involved The next essay explains why Spain is neither a traditional society nor a successful modern nation The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions The final section Freedom and Autonomy of Intellectuals and Artists is a topic that gripped Michels and Linz alike Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values This segment provides a bridge between Michels and Weber not to mention both of these major figures with Linz himself The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century The work is graced by a full length bibliography o

The Transition to Democracy in Latin America Bruce W. Farcau, 1996-09-24 This book examines the role of the military in the wave of democratization that has swept through Latin America in the past decade Although much of the leading literature on the transition to democracy recognizes the importance of hardline and softline factions within the military in this process the author takes this study one step further to investigate the motivations of the military officers themselves Using the cases of Brazil and Bolivia and relying on dozens of interviews with military officers politicians jurists and other observers throughout Latin America he determines that the factions attitudes do not depend primarily on ideological commitment but on the leaders calculation as to the career benefits to their followers of either supporting or opposing democratization In terms of policy making it is important to recognize this distinction in order to help preserve the fragile democracies which

are already under threat from the military once again
