Skaldic Verse And The Poetics Of Saga Narrative:

Skaldic Verse and the Poetics of Saga Narrative Heather O'Donoghue, 2005-08-11 Skaldic Verse and the Poetics of Saga Narrative is a study of the varying relationships between verse and prose in a series of Old Norse Icelandic saga narratives. It shows how the interplay of skaldic verse with its metrical intricacy and cryptic diction and saga prose with its habitual spare clarity can be used to achieve a wide variety of sophisticated stylistic and psychological effects. In sagas there is a fundamental distinction between verses which are ostensibly quoted to corroborate what is stated in the narrative and verses which are presented as the speech of characters in the saga. Corroborative verses are typical of but not confined to historical writings; the verses acting as a footnote to the narrative. Dialogue verses with their illusion that saga characters break into verse at crucial points in the story belong to the realm of fiction. This study, which focuses on historical writings such as *Grip and Heimskringla* and three of the major family sagas *Eyrbyggja*, *Gisla* and *Grettis*, shows that a close reading of the prosimetrum in the narrative can be used to chart the complex and delicate boundaries between history and fiction in the sagas. When skaldic stanzas are presented as the dialogue of saga characters, the characteristic naturalism of these narratives is breached. But some saga authors, as this book shows, extend still further the expressiveness of saga narrative, presenting skaldic stanzas as the soliloquies of saga characters. This technique enables the direct articulation of emotion and hence dramatic focalization of the narrative and the creation of psychological climaxes. As an epilogue, Heather O'Donoghue considers the absence of such effects in *Hrafnkels* saga, a highly literary narrative without verses.

Poetry in Sagas of Icelanders Margaret Clunies Ross, 2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders, considering why and how it is deployed. Sagas of Icelanders, also called family sagas, are the best known of the many literary genres that flourished in medieval Iceland, most of them achieving written form during the thirteenth and early fourteenth centuries. Modern readers and critics often praise their apparently realistic descriptions of the lives, loves, and feuds of settler families of the first century and a half of Iceland's commonwealth period (c. AD 970-1030), but this ascription of realism fails to account for one of the most important components of these sagas: the abundance of skaldic poetry, mostly in *dróttkvætt* court metre, which comes to saga heroes' lips at moments of crisis. These presumed voices from the past and their integration into the narrative present of the written sagas are the subject of this book. It investigates what motivated Icelandic writers to develop this particular mode and what particular literary effects they achieved by it. It also looks at the various paths saga writers took within the evolving prosimetrum, a mixed verse and prose form, and explores their likely reasons for using poetry in diverse ways. Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas. A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives, what particular literary effects they achieved by it. Discourse in Old Norse Literature Eric Shane Bryan, 2021 The vast and diverse corpus of Old Norse literature preserves the language spoken not only by the Vikings kings and heroes of medieval Scandinavia but also by outlaws missionaries and farmers Scholars have long recognized that the wealth of verbal exchanges in Old Norse sagas presents the modern reader with the opportunity to speak face to face as it were with these great voices of the past However despite the importance of verbal exchanges in the sagas there has been no book length study of discourse in Old Norse literature since 1935 This book meets the need for such a study by offering a literary analysis based on the adjacent field of pragmatic linguistics which recognizes that speakers often rely upon cultural situational and interpersonal context to communicate their meaning The resulting context dependent meaning often deviates from the base semantic and syntactical components of an utterance speakers hedge imply deflect to save face or obscure meaning to damage an opponent's self worth Saga writers this book argues were masters of this type of indirectness in speech It aims therefore to unlock the depth and subtlety of discourse in Old Norse literature and to leave readers with an understanding of how principles of pragmatics were employed throughout the sagas A wide body of Old Norse materials is examined including some of the best examples of slendingas gur sagas of Icelanders such as Brennu Nj ls saga Laxdoela saga and G sla saga S rssonar while also giving due attention to Konungas gur kings sagas fornaldars gur legendary sagas and other literature from the medieval North ERIC SHANE BRYAN is Associate Professor of English at Missouri University of Science and Technology
