Australian Republicanism Mark McKenna, Wayne Hudson, 2013-05-09 We Love the Queen We honour the Queen We serve the Queen R G Menzies We must be ourselves Patrick White This collection of readings is designed to transform the way Australians understand republicanism The editors Mark McKenna and Wayne Hudson have harvested a wealth of previously neglected historical sources to produce a fascinating collection of original documents that grapple with the issue of Australian republicanism In the vein of Manning Clark s *Select Documents in Australian History* this collection offers an inspiring and salient sample of Australian viewpoints from the famous to the obscure the official to the flagrantly informal the rhetorical to the ridiculous McKenna and Hudson argue with wit and conviction that the republic has a place in Australia s future but only if it is a republic founded on a vision of inclusion This is the first principle of creating a sense of ownership and belonging a republic about which people might begin to care *The Centennial Supplement to the Sydney Morning Herald* Sydney Morning Herald, 1888 **The Republican Noise Machine** David Brock, 2004-05-25 In *The Republican Noise Machine* David Brock skillfully documents perhaps the most important but least understood political development of the last thirty years how the Republican Right has won political power and hijacked public discourse in the United States Brock a former right wing insider and the author of the New York Times bestseller *Blinded by the Right* uses his keen understanding of the strategies tactics financing and personalities of the American right wing to demonstrate how the once fringe phenomenon of right wing media has all but subsumed the regular media conversation shaped the national consciousness and turned American politics sharply to the right Brock documents how in the last several decades the GOP built a powerful media machine newspapers and magazines think tanks talk radio networks op ed columnists the FOX News Channel Christian Right broadcasting book publishers and high traffic internet sites to sell conservatism to the public and discredit its opponents This unabashedly biased multibillion dollar communications empire disregards journalistic ethics and universal standards of fairness and accuracy manufacturing news that is often bought and paid for by a tight network of corporate backed foundations and old family fortunes By dissecting the appeal techniques and reach of the booming right wing media market Brock demonstrates that it is largely based on bigotry ignorance and emotional manipulation closely tied to America s longstanding cultural divisions and the buying power of anti intellectual traditionalists From the disputed 2000 presidential election to the war with Iraq to the political battles of 2004 Brock s penetrating analysis of right wing media theories and methodology reveals that the Republican Right views the media as an extension of a broader struggle for political power By tracing the political impact of right wing media Brock shows how disproportionate conservative influence in the media is integrally linked to the Republican Right s current domination of all three branches of government to the propping up of the

Bush administration and to the inability of Democrats to voice their opposition to this political sea change or to compete on an even playing field As only an ex conservative intimately familiar with the imperatives of the American right wing could David Brock suggests ways in which concerned Americans can begin to redress the conservative ascendancy and cut through the propagandistic fog Writing with verve and deep insight he reaches far beyond typical bromides about media bias to produce an invaluable account of the rise of right wing media and its political consequences Promising to be the political book of the year *The Republican Noise Machine* will transform the raging yet heretofore unsatisfying debate over the politics of the media for years to come

Education Policy and the Political Right Grant Rodwell, 2021-12-28 This work attempts a comparative description and analysis focusing on the US the UK and Australia on the topic of the Right educational policy and schooling It adopts as its underlying theme the burning fuse in tracing the topic back to Joseph de Maistre a Rightist who fled revolutionary France to seek safety in the company of Tsar Alexander I s Russian Empire Here he had much to say about school education not for all but rather the deserving social elite During the past three or four decades in the US the UK and Australia the Right has been remarkably successful in amassing political power And in doing so the right of politics in these countries has reshaped school educational policy and practice a necessary step in securing the future of the Right as a political force Moreover even during the years the Right has been on the opposition benches in these countries such has been the strength of their political force that governments of the Left have acquiesced to much of their school educational policy A pioneering effort this book asserts that to understand school educational policy in the third decade of the 21st century we need to comprehend the politics of the Right This book will be of interest to researchers and postgraduate students interested in Education Studies Theory and Policy and International and Comparative Education

McCawley and Trethowan - The Chaos of Politics and the Integrity of Law - Volume 1 Ian Loveland, 2021-07-01 In this two volume work Ian Loveland offers a detailed exploration and analysis of 2 Australian entrenchment cases which have long been a source of fascination and inspiration to lawyers This first volume focusing on the McCawley case introduces non Australian readers to the remarkably rich legal and political history of constitutional formation and development in New South Wales and Queensland in the 19th and early 20th centuries It culminates with a deeply contextualised analysis of the emergence of the bizarre Two Act entrenchment principle which emerged in Queensland s constitutional law in 1908 and the subsequent and celebrated McCawley judgments of the Australian High Court and Privy Council The judgments are placed in both their deep and immediate historical and political contexts from the legal formation of New South Wales in the late 1700s through the creation of New South Wales and Queensland as distinct colonies in the 1850s and the subsequent passage of the Colonial Laws Validity Act 1865 on to the fiercely contested reformism espoused by Labour governments in Queensland in the early part of the twentieth century

US Diplomats and Their Spouses during the Cold War Anthony J. Barker, 2019-11-29 This study examines 324 oral history transcripts and explains the recruitment training and deployment of

US diplomats Amid growing feminist hostility to Foreign Service treatment of spouses some couples resented postings to distant Australasia but most enjoyed a welcoming English speaking environment While New Zealand assignments involved complex negotiations with Pacific islanders diplomats in Australia were powerless to control the geopolitics of the Indian Ocean including the fortification of Diego Garcia and peace negotiations threatening US Navy access to the port of Fremantle When the Australian Labor Party won power in 1972 the vulnerability of vital military and intelligence facilities alarmed the US more than opposition to nuclear ship visits that removed New Zealand from the ANZUS alliance in the 1980s Notable exceptions to a principal focus on diplomats below the highest ranks are Marshall and Lisa Green After meeting John Stewart Service in post 1945 New Zealand they remained for years his loyal defenders against the assaults of McCarthyism Lisa s interview implicitly but decisively refutes allegations that as US ambassador to Australia Marshall plotted the dismissal of the Whitlam government in 1975 Despite persistent rumors of a CIA coup declassified cables reveal resident US diplomats hostility to the governor general s unprecedented action

The Global Dimensions of Irish Identity Cian T. McMahon,2015-04-13 Though Ireland is a relatively small island on the northeastern fringe of the Atlantic 70 million people worldwide including

some 45 million in the United States claim it as their ancestral home In this wide ranging ambitious book Cian T McMahon explores the nineteenth century roots of this transnational identity Between 1840 and 1880 4 5 million people left Ireland to start new lives abroad Using primary sources from Ireland Australia and the United States McMahon demonstrates how this exodus shaped a distinctive sense of nationalism By doggedly remaining loyal to both their old and new homes he argues the Irish helped broaden the modern parameters of citizenship and identity From insurrection in Ireland to exile in Australia to military service during the American Civil War McMahon's narrative revolves around a group of rebels known as Young Ireland They and their fellow Irish used weekly newspapers to construct and express an international identity tailored to the fluctuating world in which they found themselves Understanding their experience sheds light on our contemporary debates over immigration race and globalization

Talking Politics A. W. Sparkes,2006-06-19 Talking Politics is a philosophical examination of some of the basic concepts of political discourse Its primary focus is on the ordinary on what is said by politicians in newspapers and by people in pubs rather than on the works of political theorists This is a work of but not on political theory Talking Politics is Invaluable as a source of reference for students and contains a detailed index Arranged thematically around topics such as Nation Each entry has copious cross references and suggestions for further reading A W Sparkes is uniquely qualified to write such a book combining some thirty years teaching as a philosopher with wide experience of and a life long fascination with politics His attitude is that of a critical but uncynical observer

Beyond Borders Heather Goodall, 2025-10-01 Beyond Borders Indians Australians and the Indonesian Revolution 1939 to 1950 rediscovers an intense internationalism and charts its loss in the Indonesian Revolution Momentous far beyond Indonesia itself and not just for elites generals or diplomats the Indonesian anti colonial struggle from 1945 to 1949 also became a powerful symbol of hope at the most grassroots levels in India and Australia As the news flashed across crumbling colonial borders by cable radio and photograph ordinary men and women became caught up in the struggle Whether seamen soldiers journalists activists and merchants Indonesian independence inspired all of them to challenge colonialism and racism And the outcomes were made into myths in each country through films memoirs and civic commemorations But as heroes were remembered or invented this 1940s internationalism was buried behind the hardening borders of new nations and hostile Cold War blocs only to reemerge as the basis for the globalisation of later years
