Smoking Guns

Charles Perreault

Smoking Guns:

The Ultimate Sales Machine Chet Holmes, 2007 A no nonsense book of business advice from acclaimed corporate trainer and motivational expert Chet Holmes His advice starts with one simple concept pigheaded focus His book helps readers focus on 12 critical areas for improvement one at a time and get great results by spending just one hour a week on an area to be improved Holmes offers proven strategies for management marketing and sales One of the top 20 change experts in the USA Industry Week magazine

The Quality of the Archaeological Record Charles Perreault, 2019-09-16 Paleobiology struggled for decades to influence our understanding of evolution and the history of life because it was stymied by a focus on microevolution and an incredibly patchy fossil record But in the 1970s the field took a radical turn as paleobiologists began to investigate processes that could only be recognized in the fossil record across larger scales of time and space That turn led to a new wave of macroevolutionary investigations novel insights into the evolution of species and a growing prominence for the field among the biological sciences In *The Quality of the Archaeological Record* Charles Perreault shows that archaeology not only faces a parallel problem but may also find a model in the rise of paleobiology for a shift in the science and theory of the field To get there he proposes a more macroscale approach to making sense of the archaeological record an approach that reveals patterns and processes not visible within the span of a human lifetime but rather across an observation window thousands of years long and thousands of kilometers wide Just as with the fossil record the archaeological record has the scope necessary to detect macroscale cultural phenomena because it can provide samples that are large enough to cancel out the noise generated by micro scale events By recalibrating their research to the quality of the archaeological record and developing a true macroarchaeology program Perreault argues archaeologists can finally unleash the full contributive value of their discipline

Discourse Analysis Barbara Johnstone, 2018-01-04 Revised and updated this third edition of Barbara Johnstone's *Discourse Analysis* encourages students to think about discourse analysis as an open ended set of techniques Exploring a variety of approaches including critical discourse analysis conversation analysis interactional and variationist sociolinguistics ethnography corpus linguistics social semiotics and other qualitative and quantitative methods the book balances its comprehensive coverage with extensive practical examples making it the ideal introductory text for students new to the subject This new edition reflects the increased importance within the field of new media discourse multi modal discourse and the analysis of large corpora of discourse data Updated material expands the discussion of stancetaking whilst new material addresses recontextualization precontextualization and language and the body Pedagogical features have been refreshed including discussion questions exercises and ideas for small research projects with suggested supplementary readings at the end of each chapter to encourage further discovery Chapters in this book are self contained so they can be handled in any order Suggested supplementary readings are featured at the end of every chapter Book is written specifically for a non specialist interdisciplinary audience Examples of computer aided corpus analysis reflecting the improvements made

to theories and tools supplement every chapter Discussion questions and ideas for small research projects are interspersed throughout The combination of breadth of coverage practical examples and student friendly pedagogical features ensures Discourse Analysis remains the ideal textbook for students taking their first course in linguistic approaches to discourse

End Times Alexander Cockburn, Jeffrey St. Clair, 2007 Muckrakers pronounce corporate journalism dead Read all about it *Rock, Bone, and Ruin* Adrian Currie, 2024-05-21 An argument that we should be optimistic about the capacity of methodologically omnivorous geologists paleontologists and archaeologists to uncover truths about the deep past The historical sciences geology paleontology and archaeology have made extraordinary progress in advancing our understanding of the deep past How has this been possible given that the evidence they have to work with offers mere traces of the past In *Rock Bone and Ruin* Adrian Currie explains that these scientists are methodological omnivores with a variety of strategies and techniques at their disposal and that this gives us every reason to be optimistic about their capacity to uncover truths about prehistory Creative and opportunistic paleontologists for example discovered and described a new species of prehistoric duck billed platypus from a single fossilized tooth Examining the complex reasoning processes of historical science Currie also considers philosophical and scientific reflection on the relationship between past and present the nature of evidence contingency and scientific progress Currie draws on varied examples from across the historical sciences from Mayan ritual sacrifice to giant Mesozoic fleas to Mars's mysterious watery past to develop an account of the nature of and resources available to historical science He presents two major case studies the emerging explanation of sauropod size and the snowball earth hypothesis that accounts for signs of glaciation in Neoproterozoic tropics He develops the Ripple Model of Evidence to analyze unlucky circumstances in scientific investigation examines and refutes arguments for pessimism about the capacity of the historical sciences defending the role of analogy and arguing that simulations have an experiment like function Currie argues for a creative open ended approach empirically grounded speculation

Obesity, Eating Disorders and the Media Karin Eli, Stanley Ulijaszek, 2016-05-23 How do the media represent obesity and eating disorders How are these representations related to one another And how do the news media select which scientific findings and policy decisions to report Multi disciplinary in approach *Obesity Eating Disorders and the Media* presents critical new perspectives on media representations of obesity and eating disorders with analyses of print online and televisual media framings Exploring abjection and alarm as the common themes linking media framings of obesity and eating disorders *Obesity Eating Disorders and the Media* shows how the media similarly position these conditions as dangerous extremes of body size and food practice The volume then investigates how news media selectively cover and represent science and policy concerning obesity and eating disorders with close attention to the influence of pre existing framings alongside institutional and moral agendas A rich comprehensive analysis of media framings of obesity and eating disorders as embodied conditions complex disorders public health concerns and culturally significant phenomena this volume will be of interest to scholars and students across
