Surviving the Asylum Michael McLenaghan,2024-10-11 In this raw and poignant memoir Michael recounts his harrowing journey through the psychiatric system and his struggle to find purpose after losing custody of his beloved autistic grandson After a suicide attempt lands him in a geriatric psychiatric ward for the third time in recent years Michael finds himself cut off from the outside world and the grandson he raised for three decades Facing abuse

and isolation he contemplates ending it all But a lifeline appears in the form of his vocal coach and support worker who encourage him to channel his pain into art As Michael discovers new passions in singing painting and poetry he forges an unexpected friendship with a fellow patient that reignites his will to live This powerful story of resilience and reinvention shows how creativity and human connection can offer hope even in the darkest of times Michael s journey reminds us that it s never too late to find a new voice and a reason to keep singing *Tomorrow the World* John Biggins,2007-09-01 Laced with smart humor this naval tale follows the early career of Lieutenant Otto Prohaska a cadet in the Austro Hungarian Navy at the turn of the century Bad luck continues to shadow Otto and when a fellow cadet breaks his leg Otto must take his place on a scientific expedition bound for disaster But even sinister quack scientists a misguided attempt to establish a colony in Africa and angry South Sea cannibals bent on destruction cannot keep Otto from fulfilling his patriotic duty **A Mayfly Assassinated...** Eluthur Kamalakkannan Ramasamy,2013-05-23 It is about the crisis in moral authenticity as follows The judgment is deep rooted in ethics The ethics has multi faceted nature They are individual ethics biological ethics social ethics cosmic ethics universal ethics and so on When a sentence is made the judge should carefully find out the context in which the culmination has been done Otherwise the sentence would be an immoral legality Finding out the exact context is impossible As a human mind based communication is the medium Above all in times a biological ethics may harm an individual ethics An individual ethics may harm a social ethics A social ethics may harm a cosmic ethics A cosmic ethics may harm a universal ethic Based on this finding a harmless sentence is an impossible process for a human mind May be a software can do this as it is the combination of several minds So I too dislike the so called human race when it dislikes TO ERR IS HUMAN as for me sentencing is nothing but building CROSS and judges are Cross Builders **Demystifying Bigotry** Paul R. Lehman,2017-09-14 The one constant in our world has always been change We recognize many of the changes from global climate to the size of soda cans accept them as part of the process One change that has become more apparent now than in the past is the area of demography One of the results in conjunction with these demographic changes is the deconstruction of the concept of race Although they will not admit it some people do not like to talk about race and racism primarily because they know little about it So rather than show their ignorance on the topic they avoid the subject as much as possible Unfortunately change continues to occur and whether we want to or not America will have to deal with the changing demographic atmosphere the browning effect This book developed over a number of years helps the reader to understand race and racism in America Hospitality, Volume I Jacques Derrida,2023-11-09 Jacques Derrida explores the ramifications of what we owe to others Hospitality reproduces a two year seminar series delivered by Jacques Derrida at the cole des hautes tudes en sciences sociales in Paris between 1995 and 1997 In these lectures Derrida asks a series of related questions about responsibility and the foreigner How do we welcome or turn away the foreigner What does the idea of the foreigner reveal about kinship and the state particularly in relation to friendship citizenship migration asylum assimilation and

xenophobia Derrida approaches these questions through readings of several classical texts as well as modern texts by Heidegger Arendt Camus and others Central to his project is a rigorous distinction between conventional finite hospitality with its many conditions and the aspirational idea of hospitality as something offered unconditionally to the stranger This volume collects the first year of the seminar Caesar's Calendar Denis Feeney, 2007-06-04 The ancient Romans changed more than the map of the world when they conquered so much of it they altered the way historical time itself is marked and understood In this brilliant erudite and exhilarating book Denis Feeney investigates time and its contours as described by the ancient Romans first as Rome positioned itself in relation to Greece and then as it exerted its influence as a major world power Feeney welcomes the reader into a world where time was movable and changeable and where simply ascertaining a date required a complex and often contentious cultural narrative In a style that is lucid fluent and graceful he investigates the pertinent systems including the Roman calendar which is still our calendar and its near perfect method of capturing the progress of natural time the annual rhythm of consular government the plotting of sacred time onto sacred space the forging of chronological links to the past and above all the experience of empire by which the Romans meshed the city state s concept of time with those of the foreigners they encountered to establish a new worldwide web of time Because this web of time was Greek before the Romans transformed it the book is also a remarkable study in the cross cultural interaction between the Greek and Roman worlds Feeney s skillful deployment of specialist material is engaging and accessible and ranges from details of the time schemes used by Greeks and Romans to accommodate the Romans unprecedented rise to world dominance to an edifying discussion of the fixed axis of B C A D or B C E C E and the supposedly objective dates implied He closely examines the most important of the ancient world s time divisions that between myth and history and concludes by demonstrating the impact of the reformed calendar on the way the Romans conceived of time s recurrence Feeney s achievement is nothing less than the reconstruction of the Roman conception of time which has the additional effect of transforming the way the way the reader inhabits and experiences time Principles of Catholic Theology, Book 3

Thomas Joseph White, 2024-08 What if anything can human beings know about God either by way of philosophical reasoning or by divine revelation How does the mystery of the Incarnation illuminate our understanding of the nature and mystery of God and the nature and destiny of the human person The essays in this book explore topics pertaining to the nature of God apophatic theology divine simplicity and the holy Trinity divine beauty and the beauty of creation The book also contains a series of speculative considerations of Christology Why did God become human How ought we understand the two natures of Christ and the topic of the communication of idioms attribution of both divine and human properties to one person There is also a sustained treatment of Jesus human knowledge and voluntary freedom Did Jesus understand his own lordship and his unity with the Father and the Holy Spirit and if so how Did Christ s human will always accord with the divine will and what significance does this idea have for our understanding of the redemption affected by Christ for the whole human race

Through these explorations principles drawn from Thomas Aquinas and from Thomistic tradition are taken into account as key resources for the adjudication of contemporary theological challenges Principles of Catholic Theology Book 3 is a continuation of Fr Thomas Joseph White s collection of essays extending over a range of fundamental topics in Catholic dogmatic theology
