Martin Krampen, Klaus Oehler, Roland Posner, Thomas A. Sebeok, Thure von Uexküll, 2013-06-29 This book is designed to usher the reader into the realm of semiotic studies. It analyzes the most important approaches to semiotics as they have developed over the last hundred years out of philosophy, linguistics, psychology and biology. As a science of sign processes, semiotics investigates all types of communication and information exchange among human beings, animals, plants, internal systems of organisms and machines. Thus it encompasses most of the subject areas of the arts and the social sciences as well as those of biology and medicine. Semiotic inquiry into the conditions, functions and structures of sign processes is older than any scientific discipline. As a result, it is able to make the underlying unity of these disciplines apparent once again without impairing their function as specializations. Semiotics is above all research into the theoretical foundations of sign-oriented disciplines; that is, it is General Semiotics. Under the name of *Zeichenlehre* it has been pursued in the German-speaking countries since the age of the Enlightenment. During the nineteenth century, the systematic inquiry into the functioning of signs was superseded by historical investigations into the origins of signs. This opposition was overcome in the first half of the twentieth century by American Semiotics as well as by various directions of European structuralism working in the tradition of Semiology. Present-day General Semiotics builds on all these developments. Remembering the Cold War David Lowe, Tony Joel, 2014-01-21

Remembering the Cold War examines how more than two decades since the collapse of the Soviet Union, Cold War legacies continue to play crucial roles in defining national identities and shaping international relations around the globe. Given the Cold War's blurred definition, it has neither a widely accepted commencement date nor unanimous conclusion as to what is to be remembered. This book illustrates that there is in fact a huge body of remembrance and that it is more pertinent to ask what should be included and what can be overlooked. Over five sections, this richly illustrated volume considers case studies of Cold War remembering from different parts of the world and engages with growing theorisation in the field of memory studies, specifically in relation to war. David Lowe and Tony Joel afford careful consideration to agencies that identify with being victims of the Cold War. In addition, the concept of arenas of articulation, which envelops the myriad spaces in which the remembering, commemorating, memorialising and even revising of Cold War history takes place, is given prominence.

Lorado Taft Allen Stuart Weller, 2014-10-15 Sculptor Lorado Taft helped build Chicago's worldwide reputation as the epicenter of the City Beautiful Movement. In this new biography, art historian Allen Stuart Weller picks up where his earlier book *Lorado in Paris* left off, drawing on the sculptor's papers to generate a fascinating account of the most productive and influential years of Taft's long career. Returning to Chicago from France, Taft established a bustling studio and began a twenty-one year career as an instructor at the Art Institute, succeeded by three decades as head of the Midway Studios at the University of Chicago. This triumphant era included ephemeral sculpture for the 1893 World's Columbian Exposition, a prolific turn of the century period marked by the gold medal-winning *The Solitude of the Soul*, the 1913 Fountain of the Great Lakes, the 1929 Alma Mater at the University of Illinois, and large-scale projects such as his ambitious program

for Chicago's Midway with the monumental Fountain of Time In addition the book charts Taft's mentoring of women artists including the so called White Rabbits at the World's Fair many of whom went on to achieve artistic success Lavishly illustrated with color images of Taft's most celebrated works Lorado Taft The Chicago Years completes the first major study of a great American artist *British Painting and Sculpture 1960-1970* Tate Gallery, National Gallery of Art (U.S.), 1970
