Research in Education, 1974 *Swahili Muslim Publics and Postcolonial Experience* Kai Kresse, 2018-12-17 *Swahili Muslim Publics and Postcolonial Experience* is an exploration of the ideas and public discussions that have shaped and defined the experience of Kenyan coastal Muslims. Focusing on Kenyan postcolonial history, Kai Kresse isolates the ideas that coastal Muslims have used to separate themselves from their upcountry Christian countrymen. Kresse looks back to key moments and key texts: pamphlets, newspapers, lectures, speeches, radio discussions as a way to map out the postcolonial experience and how it is negotiated in the coastal Muslim community. On one level, this is a historical ethnography of how and why the content of public discussion matters so much to communities at particular points in time. Kresse shows how intellectual practices can lead to a regional understanding of the world and society. On another level, this ethnography of the postcolonial experience also reveals dimensions of intellectual practice in religious communities and thus provides an alternative model that offers a non-Western way to understand regional conceptual frameworks and intellectual practice.

Resources in Education, 1995 [Why we need a revolution in the Social sciences: A post-colonial perspective](#) Sujay Rao Mandavilli, 2024-05-11 We began our work in earnest in the year 2005, November 14th, 2005, to be precise, when children's day is celebrated all over India in commemoration of the birthday of Pandit Jawaharlal Nehru, the first Prime Minister of India. The underlying philosophy of our work, however, stretches back to the early 1990s, even the mid-1980s, when we faced a great deal of cognitive dissonance in many of our endeavours and daily walks of life due to a constant exposure to and a bombardment by a large number of philosophies and ideas from different sources, both human and non-human. In the year 2005, particularly after the aforesaid date, we had reached out to several leading lights and luminaries in the fields of science, religion, philosophy and spirituality with a great deal of hope to meaningfully engage with them and elicit their own pet theories, proposals and viewpoints on various issues and topics. We had hoped that this would also help us in our own voyage and journey of discovery. The results were indeed startling; there was a wide variation in viewpoints based on the scholar in question's own religious, linguistic and nationalistic affiliation and loyalties. Therefore, the age of ideology has

still not formally or conceptually ended ending this can change many fundamental equations at a grassroots level and can make life better for all of us living in different parts of the world As a matter of fact Eurocentric biases in various fields of the social sciences has only served to throw up counter reactions and exacerbate ideological differences Intellectualism is also still weak in general particularly in developing countries particularly owing to the following factors **Diversity, Oppression, & Change** Flavio Francisco Marsiglia, Stephen S. O'Doherty, Darrin Hodgetts, 2019-01-14 In the present epoch of global change movement interconnection and the intensification of social issues within and across many societies applied social psychology is more relevant than ever The SAGE Handbook of Applied Social Psychology offers an overview of the field and the disparate and evolving approaches Through an international team of contributors the handbook brings prominent research literature together and organises it around ten key areas Part 01 Culture race indigeneity Part 02 Gender Sexuality Part 03 Politics Part 04 Health and mental health Part 05 Work Part 06 Ageing Part 07 Communication Part 08 Education Part 09 Environment Part 10 Criminal Justice Law Crime This handbook is a uniting and invigorating resource for the field of Applied Social Psychology **Highlights in sports management, marketing and business: 2021/22** Hans Westerbeek, Rochelle Eime, 2023-03-27
