Social Consequences Of Religious Belief:

Social Consequences of Religious Belief William Garrett, 1989 **Social Consequences of Religious Belief** William Garrett, 1989 **Social consequences of religious belief** William R. Garrett (ed), 1989 **The Psychology of Religious Behaviour, Belief and Experience** Benjamin Beit-Hallahmi, Michael Argyle, 2014-03-18

Because society is increasingly secular it may seem irrelevant to consider the psychology of religion. But the diversity of our multi ethnic and multi cultural society in fact makes religion more important to the social sciences than it has ever been before. What are the social consequences of religion? Every day the news is full of events that can be blamed on religion perpetrated by a range of groups from whole societies to individuals. Beit Hallami and Argyle are renowned for their clear analytical approach to topics and this new state of the art study of psychology and religion is no exception. It will be welcomed as an update to their previous work in the area by social psychologists, sociologists and theologians worldwide.

The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04. The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world. The role and impact of religion and spirituality on the politics, culture, education and health in the modern world is rigorously discussed and debated. The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion. Using a combination of theoretical, methodological and content led approaches, the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law, ecology to art, music to cognitive science, crime to institutional health care and more. The developing character of religion, irreligion and atheism and the impact of religious diversity on social cohesion are explored. An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship. The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline.

Atheism and Theism J. J. C. Smart, J. J. Haldane, 2008-04-15. In this book two philosophers each committed to unambiguous versions of belief and disbelief debate the central issues of atheism and theism. Considers one of the oldest and most widely disputed philosophical questions: is there a God? Presents the atheism/theism issue in the form of philosophical debate between two highly regarded scholars widely praised for the clarity and verve of their work. This second edition contains new essays by each philosopher responding to criticisms and building on their previous work.

Religion and Politics Jan-Erik Lane, Hamadi Redissi, 2020-07-24. Offering a timely new appraisal of the political and social impact of Islam, Religion and Politics will be welcomed by political scientists and historians alike. In this work Jan Erik Lane and Hamadi Redissi employ a Weberian approach underlining the social consequences of religious beliefs to account for the political differences between the major civilizations of the world against

the background of the rise of modern capitalism in the Occidental sphere Compared with Weber and his emphasis upon economic modernization the perspective on religion is broadened to encompass post modernity particular attention is paid to human rights and the rule of law This thought provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post modernity *Handbook of the Sociology of Religion* Michele Dillon,2003-08-18

Table of contents Faith and Reason Nigel Zimmermann,Sandra Lynch,2021-10-12 What is the fruit of a searching dialogue between faith and reason This book collects theological and philosophical perspectives on the richness of the faith reason dialogue including examples from literature continental and analytic philosophy worship and liturgy and radical approaches to issues of racism and prejudice The authors strongly resist the temptations to either disregard the faith reason dialogue or take it for granted Through their explorations and reflections they open up new vistas and horizons on a topic more necessary than ever **Rebuilding the Matrix** Denis Alexander,2003 Fresh thinking and new insights on the nature of science in relation to faith showing particularly that 1 true science does not need to be and in fact is not hostile to religious faith and 2 evangelical Christians in general need not be either fearful of nor hostile toward scientific endeavor *Religious Beliefs and Knowledge Systems in Africa* Toyin Falola,Nicole Griffin,2021-09-21 Key to African studies is understanding the knowledge systems of the continent and her diaspora The representation and understanding of Africa are dependent on the observer s definition of knowledge Afrocentric knowledge is comprised of a collection of political religious and indigenous belief systems Religious Beliefs and Knowledge Systems in Africa begins with deconstructing the Western philosophy of knowledge before defining and exploring the epistemic disciplines of Africa It transcends postcolonial critique through an Afrocentric approach to knowledge divided into three key themes The first of these is the African worldview exploring knowledge through eldership witchcraft and divination This is followed up by kingship ideology and epistemologies exploring discussing how politics religion and belief shape African society Finally the world religion chapter examines Christianity Islam and Pentecostalism in their impact on African ways of knowing This book calls to action new fields of study in universities encouraging a greater understanding of African ways of knowing through more nuanced disciplines

Rediscovering the Religious Factor in American Politics David C. Leege,Lyman A. Kellstedt,1993 This volume addresses whether and how religion and religious institutions affect American politics and is addressed to readers not only among social scientists and political journalists but also among theologians seminarians and religious leaders The volume is divided into six parts why study religion in the context of politics religion as an orientation toward group religion as a set of public and private practices doctrinal experiential and world view measures leadership stimuli and reference groups and does religion matter in studies of voting behavior and attitudes Annotation copyright by Book News Inc Portland OR

Complementary Views of Western and Islamic Psychology of Religion Sevde Düzgüner,2022-12-19 Since psychology and religion share the same ground in terms of providing explanations about the human being many religious teachings also

contain psychological descriptions Islamic civilization which has existed in vast geographies for centuries offers unique sources to explain human feelings thoughts and behaviors Scientific Western psychology has asserted important theories and researches in understanding human beings Today Western psychology needs to be enriched with new perspectives to make more comprehensive explanations about people with different cultural backgrounds Written by Sevde D zg ner this book is the product of an effort to discuss the human model of Islam and the human theories of psychology with a complementary approach This book recommends methodological points that must be considered while studying both fields It also attempts to draw a a road map for further studies by determining the areas where Islamic psychology could contribute to Western psychology

White Lies Christopher M. Driscoll,2015-10-23 White Lies considers African American bodies as the site of cultural debates over a contested white religion in the United States Rooting his analysis in the work of W E B DuBois and James Baldwin Christopher Driscoll traces the shifting definitions of white religion from the nineteenth century up to the death of Michael Brown and other racial controversies of the present day He engages both modern philosophers and popular imagery to isolate the instabilities central to a white religion including the inadequacy of this framing concept as a way of describing and processing death The book will be of interest to students and scholars interested in African American Religion philosophy and race and Whiteness Studies

Evolutionary Perspectives on Death Todd K. Shackelford, Virgil Zeigler-Hill,2019-10-21 The latest volume in this multidisciplinary series on key topics in evolutionary studies Evolutionary Perspectives on Death provides an evolutionary analysis of mortality and the consideration of death Bringing together noted experts from a variety of fields the books emanate from conferences held at Oakland University and are dedicated to providing wide ranging and occasionally provocative views of human evolution The volume on death covers topics from biology anthropology psychology sociology and philosophy with contributors addressing how evolution informs the process of comprehending grieving depicting celebrating and accepting death Among the topics covered Evolutionary perspectives on the loss of a twin Nonhuman primate responses to death Death in literature Witnessing and representing the death of pets The role of human decomposition facilities in shaping American perspectives on death This insightful volume showcases groundbreaking empirical and theoretical research addressing death and mortality from an evolutionary perspective demonstrating the intellectual value of an interdisciplinary approach to understanding psychological processes and behavior Chapter 6 of this book is available open access under a CC BY 4 0 license at link [springer.com](https://www.springer.com)

Dogma's Primrose Path John L. Martinez,2015-02-03 Dogma s Primrose Path addresses how the perpetual presence of ignorance poverty and war throughout the world is accepted by most people as an inevitable consequence of human life given man s incurably evil greedy and violent nature John L Martinez argues that this almost universal acceptance is itself a dogmatically learned and programmed condition This book suggests that human beings need to discard their dogmatic straightjackets and begin to thrive upon reason logic perception and experience in order to live together fruitfully and peaceably

The Cognitive

Science of Belief Julien Musolino, Joseph Sommer, Pernille Hemmer, 2022-11-17 Beliefs play a central role in our lives They lie at the heart of what makes us human they shape the organization and functioning of our minds they define the boundaries of our culture and they guide our motivation and behavior Given their central importance researchers across a number of disciplines have studied beliefs leading to results and literatures that do not always interact The Cognitive Science of Belief aims to integrate these disconnected lines of research to start a broader dialogue on the nature role and consequences of beliefs It tackles timeless questions as well as applications of beliefs that speak to current social issues This multidisciplinary approach to beliefs will benefit graduate students and researchers in cognitive science psychology philosophy political science economics and religious studies *The Routledge Companion to the Study of Religion* John R. Hinnells, 2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues Written entirely by renowned international specialists and using clear and accessible language throughout it is the perfect guide to the problems and questions found in courses and exams *The Routledge Companion to the Study of Religion* John Hinnells, 2005-06-21 Providing a genuinely full guide to the theory and methods related to religious studies this text written entirely by world renowned specialists is the ideal resource for those studying the discipline **The Concept of God: A Construct of Human Thought** KHRITISH SWARGIARY, 2024-09-01 In *The Concept of God A Construct of Human Thought* I Khritish Swargiary argue that the belief in God is not an inherent truth of the universe but a man made construct born out of fear uncertainty and the need for control This book challenges the assumption that belief in a higher power is necessary for ethical living and instead posits that human beings are capable of constructing moral systems without the need for divine oversight
