into the ways leaders can support high level innovation in schools. Importantly, their focus is on technology that enhances learning and teaching rather than technology as an expensive school ornament. A must read for those who study and practice educational leadership. Jeffrey S. Brooks, Associate Professor and Educational Leadership Program Coordinator, School of Education, Iowa State University, author of *Black School White School: Racism and Educational Misleadership*. This book is a precious gift for the vast majority of administrators who desperately need concrete examples of how to create, facilitate, and sustain technology-infused learning environments. Scott McLeod, Associate Professor and Founding Director, CASTLE, University of Kentucky. These rich illustrations of technology leadership in secondary schools show how a number of complex variables must come together to produce the key outcome of positioning educational technology as a support to teaching and learning. Examples of leadership practices that coordinate team members for interdependent work and invite teachers' involvement should prove to be a valuable resource to practitioners and also provide insight to policymakers for how they can create supportive conditions for such work. Sara Dexter, Associate Professor, Department of Leadership, Foundations, and Policy, Curry School of Education, University of Virginia. *Leading Technology-Rich Schools* is a key advance in understanding how technology can best be integrated in today's schools. These case studies of effective practice are sure to become required reading for those in leadership positions who are using technology for school improvement. Glen L. Bull, Samuel Braley Gray Professor of Education, Curry School of Education, University of Virginia. The rubber meets the road in this well-researched book with detailed stories of exemplary schools and school leaders that have leveraged technology as a key tool to make significant reforms stick. Through these vivid case studies, Levin and Schrum illuminate a dynamic and complex set of lessons learned to help all school leaders undertake transformations of their schools. L. Michael Golden, CEO, Educurious. The Platoon School - National Association for the Study of the Platoon Or Work-study-play School Organization. Julia A. Spooner, Roscoe David Case, 1927.
