**Contemporary Masculinities in Fiction, Film and Television** Brian Baker, 2016-07-28 While masculinity has been an increasingly visible field of study within several disciplines sociology literary studies cultural studies film and tv over the last two decades it is surprising that analysis of contemporary representations of the first part of the century has yet to emerge Professor Brian Baker evolving from his previous work *Masculinities in Fiction and Film Representing Men in Popular Genres 1945-2000* intervenes to rectify the scholarship in the field to produce a wide ranging readable text that deals with films and other texts produced since the year 2000 Focusing on representations of masculinity in cinema popular fiction and television from the period 2000-2010 he argues that dominant forms of masculinity in Britain and the United States have become increasingly informed by anxiety trauma and loss and this has resulted in both narratives that reflect that trauma and others which attempt to return to a more complete and heroic form of masculinity While focusing on a range of popular genres such as Bond films war movies science fiction and the Gothic the work places close analyses of individual films and texts in their cultural and historical contexts arguing for the importance of these popular fictions in diagnosing how contemporary Britain and the United States understand themselves and their changing role in the world through the representation of men fully recognising the issues of race ethnicity class sexuality and age Baker draws upon current work in mobility studies and in the study of masculinities to produce the first book length comparative study of masculinity in popular culture of the first decade of the twenty first century

**Thomas Harris and William Blake** Michelle Leigh Gompf, 2013-11-13 This work examines the allusions to Blake throughout Harris's four Hannibal Lecter novels and provides a Blakean reading of the works as a whole particularly in regard to the character of Lecter and the nature of evil in the world and to what extent humanity should accept evil The novels and their film versions reveal that Harris uses Blake to suggest that good and evil are intertwined and coexist and that it is foolish to try to see them simply as opposing binaries Refusing to recognize their intertwined relationship leads to imbalance and a negative outcome as revealed in the fate of Graham in *Red Dragon*

*The Psychopath Factory* Tristram Adams, 2016-12-20 *The Psychopath Factory* How Capitalism Organizes Empathy examines how the requirements stimuli affects and environments of work condition our empathy In some cases work calls for no empathy characters who don't blink or flinch in the face of danger nor crack under pressure In other cases capitalism requires empathy in spades charming friendly sensitive and listening managers customer service agents and careers When workers are required to either ignore their empathy to do a job or dial it up to increase productivity they are entering a psychopathic modality The affective blitz of work flickering screens emotive content vibrating alerts and sounding alarms erode our sensitivities whilst we are modulated with attention stimulants social lubricants and so called anti anxiety drugs This is amidst a virulent and exacerbating climate of competition and frenzied

quantification Capitalism pressures us to feign empathy and leverage social relationships on one hand whilst being cold and pragmatic on the other We are passionate and enthusiastic whilst keeping a professional distance Sympathy care compassion and altruism are important The Psychopath Factory How Capitalism Organizes Empathy argues that it is a mistake to presuppose that empathy can achieve these Rather than being subject to the late capitalist organization of our empathy psychopathy could be a means of escape
