on the one hand the Austen family's continued management censorship and sentimental marketing of the sweet lady novelist of the Hampshire countryside and on the other by R W Chapman's 1923 Clarendon Press edition of the Novels of Jane Austen which subjected her texts to the kind of scholarly probing reserved till then for classical Greek and Roman authors obscured by centuries of attrition. It was to be almost fifty years before the Clarendon Press considered it necessary to recalibrate the reputation of another popular English novelist in this way. Beginning with specific encounters with three kinds of textual work and the problems, clues or challenges to interpretation they continue to present, Kathryn Sutherland goes on to consider the absence of a satisfactory critical theory of biography that can help us address the partial life and ends with a discussion of the screen adaptations through which the texts continue to live on. Throughout Jane Austen's textual identities provide a means to explore the wider issue of what text is and to argue the importance of understanding textual space as itself a powerful agent established only by recourse to further interpretations and fictions.
