**The Hidden Terror** Michael Reyes, 2004-12-01 Joe thought he could get away with it but someone was watching Justice from beyond is it possible Does what goes around really come back around Andrea forgot how to be honest Now her dirty deeds from the past are coming back to unveil her for what she really is Can looking in the mirror truly reveal us for who we really are If so is that something you'd really want to know And Laura well she obviously played with powers which were far beyond her control Can curiosity actually kill you To answer these great questions of life consider this In the end their stories all have one thing in common the past never truly dies      *The Hidden Structure of Violence* Marc Pilisuk, Jennifer Achord Rountree, 2015-07-17 Acts of violence assume many forms they may travel by the arc of a guided missile or in the language of an economic policy and they may leave behind a smoldering village or a starved child The all pervasiveness of violence makes it seem like an unavoidable and ultimately incomprehensible aspect of the modern world But in this detailed and expansive book Marc Pilisuk and Jen Rountree demonstrate otherwise Widespread violence they argue is in fact an expression of the underlying social order and whether it is carried out by military forces or by patterns of investment the aim is to strengthen that order for the benefit of the powerful The Hidden Structure of Violence marshals vast amounts of evidence to examine the costs of direct violence including military preparedness and the social reverberations of war alongside the costs of structural violence expressed as poverty and chronic illness It also documents

the relatively small number of people and corporations responsible for facilitating the violent status quo whether by setting the range of permissible discussion or benefiting directly as financiers and manufacturers The result is a stunning indictment of our violent world and a powerful critique of the ways through which violence is reproduced on a daily basis whether at the highest levels of the state or in the deepest recesses of the mind      The Hidden Survivor Connor Mccoy,2018-05-24 Glen Carter had it all a wife a family a thriving medical practice until tragedy struck and the life he once adored was nothing more than a heartbreaking memory With few resources and little knowledge of how to survive without the conveniences of modern life he dissolves into the woods where he finds forgiveness and embraces life off the grid Then once again his life is upended An impending solar storm threatens the earth but governing bodies have opted to keep that information close to the vest But their attempts fail The storm devastates the electrical grids and leaves the world in chaos That is everyone except Glen for now Keywords EMP emp survival Post Apocalyptic EMP Fiction survival books free dystopian EMP Apocalyptic Survival Fiction End of the World Survival Fiction SHTF Fiction Post Apocalyptic Survival Fiction No Zombies End of the World Survival Fiction Prepper Survival Fiction EMP Apocalyptic Survival Fiction prepper fiction post survival fiction      **The Hidden Conflict** Pasquale De Marco,2025-07-24 The Afghan conflict is one of the longest and most complex wars in modern history spanning over four decades and involving multiple domestic and international players This book aims to provide a comprehensive overview of the conflict from its origins to its ongoing impact on Afghanistan and the wider region The conflict began in 1979 with the Soviet invasion of Afghanistan which sought to prop up the communist Afghan government against a growing insurgency The Soviet occupation lasted for ten years and resulted in a bloody and protracted war with the Soviet Union ultimately withdrawing in defeat The post Soviet era saw the rise of the Taliban a fundamentalist Islamic group that took control of much of the country in the 1990s The US led invasion of Afghanistan in 2001 overthrew the Taliban but the conflict continued as the Taliban launched an insurgency against the US backed Afghan government The Afghan conflict has had a devastating impact on the country and its people Millions of Afghans have been killed injured or displaced and the country's infrastructure and economy have been severely damaged The conflict has also had a significant regional impact contributing to instability and violence in neighboring countries This book examines the various aspects of the Afghan conflict including the historical background the military operations the role of the Mujahideen resistance the impact on the Afghan people and the international involvement It also explores the post Soviet era the War on Terror and the ongoing challenges of peace and stability in Afghanistan Through a comprehensive analysis of the conflict this book aims to provide a better understanding of its causes consequences and challenges It also highlights the need for a just and lasting peace in Afghanistan and the importance of international cooperation in achieving this goal This book is intended for a general audience including readers interested in international relations history and current affairs It will also be of interest to policymakers researchers and students of the Afghan conflict If you like this book write a review      *Nature's Hidden Terror*

**The Hidden Wealth of Nations** David Halpern, 2013-04-25 Richer nations are happier yet economic growth doesn't increase happiness This paradox is explained by the Hidden Wealth of Nations the extent to which citizens get along with other independently drives both economic growth and well being Much of this hidden wealth is expressed in everyday ways such as our common values the way we look after our children and elderly or whether we trust

and help strangers It is a hidden dimension of inequality and helps to explain why governments have found it so hard to reduce gaps in society There are also deep cracks in this hidden wealth in the form of our rising fears of crime immigration and terror Using a rich variety of international comparisons and new analysis the book explores what is happening in contemporary societies from value change to the changing role of governments and offers suggestions about what policymakers and citizens can do about it

The War Hotel Arlene Audergon,2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author s work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror
