The Hermit King Plus Five New Stories:

Joyce in the Belly of the Big Truck; Workbook Joyce A. Cascio, 2005-05 *Spies, Lies, and Algorithms* Amy B. Zegart, 2023-02-28 A riveting account of espionage for the digital age from one of America's leading intelligence experts. Spying has never been more ubiquitous or less understood. The world is drowning in spy movies, TV shows, and novels, but universities offer more courses on rock and roll than on the CIA, and there are more congressional experts on powdered milk than espionage. This crisis in intelligence education is distorting public opinion, fueling conspiracy theories, and hurting intelligence policy. In *Spies, Lies, and Algorithms*, Amy Zegart separates fact from fiction as she offers an engaging and enlightening account of the past, present, and future of American espionage as it faces a revolution driven by digital technology. Drawing on decades of research and hundreds of interviews with intelligence officials, Zegart provides a history of U.S. espionage from George Washington's Revolutionary War spies to today's spy satellites, examines how fictional spies are influencing real officials, gives an overview of intelligence basics, and life inside America's intelligence agencies, explains the deadly cognitive biases that can mislead analysts, and explores the vexed issues of traitors, covert action, and congressional oversight. Most of all, Zegart describes how technology is empowering new enemies and opportunities and creating powerful new players, such as private citizens who are successfully tracking nuclear threats using little more than Google Earth. And she shows why cyberspace is in many ways the ultimate cloak and dagger battleground where nefarious actors employ deception, subterfuge, and advanced technology for theft, espionage, and information warfare. A fascinating and revealing account of espionage for the digital age, *Spies, Lies, and Algorithms* is essential reading for anyone who wants to understand the reality of spying today.

EASTERN EUROPEAN FOLKLORE, FAIRY TALES, MYTHS and LEGENDS 5 book set at WHOLESALE RATES 60% OFF! Anon E Mouse, 2016-11-17 Herein you will find 5 books containing 84 old Eastern European folk and fairy tales, plus tales of dragons, both magnanimous and evil, tales of princes on their white chargers dashing in to rescue princesses in distress, and tales of the little people, the fairy folk who stitch together each and every fairy tale. These books were bestsellers when they were first published, some over 120 years ago, at a time when people REALLY DID BELIEVE in fairies. These are tales from the forests and lane-side hedgerows, as well as tales of fairy dances which only ever occur at midnight under a full moon. And then there are tales of how lowly laborers applied their brains to a situation to win the hand of princesses and become kings of kingdoms. Plus there are other tales of how kings, forever protective of their precious princesses, set ever more difficult challenges to those wanting to win the hand of their daughters, who of course are the fairest and most beautiful in all the land. Ideal for parents, grandparents, and lovers of fairy tales and of all things magic. In addition, this is a unique collection for primary/elementary school libraries. TEACHERS read a page or two from each story at the end of the school day and have your students queuing up to hear the next part of the story day after day.
