Toje, 2010-06-30 The post Cold War period is coming to an end After a decade of foreign policy integration Europe faces multipolarity internally divided and externally weak Toje argues that due to the lack of a workable decision making mechanism the EU is destined to play the limited but distinct role of a small power in global politics      **The Foreign Policies of Arab States** 'Alī al-Dīn Hilāl, 2010 This is an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East Not only are the elements of foreign policy discussed and presented as a whole region but the editors provide the established analytical framework by which each contributor in their individual chapters has analyzed and evaluated the foreign policies of nine Arab countries Their framework perceives foreign policy in the context of its environment domestic regional and global This edition has new material reflecting the earth shaking events at the end of the Cold War and the continuation of violence and terrorism      **U.S. Foreign Policy in Perspective** David Sylvan, Stephen Majeski, 2009-02-05 What is the long term nature of American foreign policy This new book refutes the claim that it has varied considerably across time and space arguing that key policies have been remarkably stable over the last hundred years not in terms of ends but of means Closely examining US foreign policy past and present David Sylvan and Stephen Majeski draw on a wealth of historical and contemporary cases to show how the US has had a client state empire for at least a century They clearly illustrate how much of American policy revolves around acquiring clients maintaining clients and engaging in hostile policies against enemies deemed to threaten them representing a peculiarly American form of imperialism They also reveal how clientilism informs apparently disparate activities in different geographical regions and operates via a specific range of policy instruments showing predictable variation in the use of these instruments With a broad range of cases from US policy in the Caribbean and Central America after the Spanish American War to the origins of the Marshall Plan and NATO to economic bailouts and covert operations and to military interventions in South Vietnam Kosovo and Iraq this important book will be of great interest to students and researchers of US foreign policy security studies history and international relations This book has a dedicated website at [www.usforeignpolicyinperspective.org](http://www.usforeignpolicyinperspective.org) featuring additional case studies and data sets      *Understanding China and India* Rollie Lal, 2006-04-30 Key to developing national security strategy is figuring out what other countries want What are their national interests How do they perceive them How do they project them onto the world stage Understanding all of this helps us to predict their behavior In developing a national security strategy for Asia the United States must take into account the desires of two emerging giants of the 21st century China and India We would be mistaken Lal argues if we lumped China and India together in one Asian policy because these two countries differ greatly from one another Based on over 120 in depth interviews with government officials and scholars in Beijing and New Delhi the author's research yields some surprising news about the differences between China and India Chinese leaders define their national interest as preservation of the state and territorial unity whereas Indian decision makers define their national interests in relation to forces beyond India

such as the forces of globalization and their geopolitical status One factor that accounts for these differences among the many explored in this book is the influence of one party rule in China and parliamentary democracy in India Another important finding is that China and India are unlikely to pursue hostility with each other The U S approach to Asia will need to take these differences into account **The Modern Defense Industry** Richard A. **Relations** Roland Dannreuther, John Peterson, 2006-09-27 In this much needed study of current strategic thinking on both sides of the Atlantic a diverse collection of leading European and American analysts are assembled to tackle key questions that remain unanswered in the existing literature how much do new security strategies signal convergence or divergence in US and EU foreign and security policy doctrine what tangible political and policy impacts can be attributed to new security strategies what are the implications for US and EU policies towards specific regions what are the prospects for collective transatlantic action The legacy of 9 11 is scrutinized against the backdrop of the strategic thinking that preceded it In the 1990s the US struggled to develop a new doctrine for American foreign policy seeking at various times to promote a New World Order or democratic enlargement For its part the EU had tried to underpin its new Common Foreign and Security Policy with a coherent set of European values multilateralism human rights environmental protection and poverty reduction that were best defended via collective European action Key continuities and changes in these transatlantic efforts since 9 11 are clearly identified and closely examined Capitalism, Democracy and the Prevention of War and Poverty Peter

Graeff, Guido Mehlkop, 2008-11-20 This book seeks to explore and understand the causes of war and poverty drawing on the theory of democratic peace and the theory of capitalistic peace It discusses democracy conflict resolution economic development and industrial modernization **Asia-Pacific Geopolitics** Joseph A. Camilleri, 2007-01-01 Despite significant cultural exchange mutual trust and understanding remains fragile between Asia Pacific countries The community faces complex and seemingly intractable problems violent civil conflicts geopolitical tensions and economic uncertainties proliferation of nuclear weapons and flashpoints that may lead to war The authors of this book argue that common reflection and dialogue is imperative Their achieved aim is to bring together distinguished scholars and experts on public policy social ethics defence human security and sustainability to consider the future of the Asia Pacific region and appropriate responses by both states and civil society **Combating Weapons of Mass Destruction** Nathan E. Busch, Daniel Joyner, 2009-01-01

The spread of weapons of mass destruction poses one of the greatest threats to international peace and security in modern times the specter of nuclear chemical and biological weapons looms over relations among many countries The September 11 tragedy and other terrorist attacks have been painful warnings about gaps in nonproliferation policies and regimes specifically with regard to nonstate actors In this volume experts in nonproliferation studies examine challenges faced by the international community and propose directions for national and international policy making and lawmaking The first group of essays outlines the primary threats posed by WMD proliferation and terrorism Essays in the second section analyze

existing treaties and other normative regimes including the Nuclear Non Proliferation Treaty and the Chemical Weapons and Biological Weapons Conventions and recommend ways to address the challenges to their effectiveness Essays in part three examine the shift some states have made away from nonproliferation treaties and regimes toward more forceful and proactive policies of counterproliferation such as the Proliferation Security Initiative which coordinates efforts to search and seize suspect shipments of WMD related materials

practical guide designed to preserve a peaceful and demilitarized world by preventing an international system dominated by imperial and militarist states and its disruption by anarchy When American leaders have followed this path they have led our nation from success to success and when they have deviated from it the results have been disastrous Framed in an engaging historical narrative the book makes an important contribution to contemporary debates The American Way of Strategy is certain to change the way that Americans understand U S foreign policy
