Sir William Jones 1746-94 A Commemoration:

Sir William Jones, 1746-94 William Jones, 2006 This volume publishes the results of the Jones Day conference a meeting of scholars at his alma mater University College Oxford on the bicentennial of his death Contents Sir William Jones as Comparative Lawyer David Ibbetson Sir William Jones and the Classical Tradition Richard Fynes Sir William Jones as an Arabist Alan Jones Lives of Sir William Jones Thomas R Trautmann Sanskrit Manuscripts of Sir William Jones in the Bodleian Library Gillian Evison Sir William Jones University College and Its Portraits Peter Bayley *The Law of Contract 1670-1870* Warren Swain, 2015-02-12 The foundations for modern contract law were laid between 1670 and 1870 Rather than advancing a purely chronological account this examination of the development of contract law doctrine in England during that time explores key themes in order to better understand the drivers of legal change These themes include the relationship between lawyers and merchants the role of equity the place of statute and the part played by legal literature Developments are considered in the context of the legal system of the time and through those who were involved in litigation as lawyers judges jurors or litigants It concludes that the way in which contract law developed was complex Legal change was often uneven and slow and some of the apparent changes had deep roots in the past Clashes between conservative and more reformist tendencies were not uncommon *The Greek Experience of India* Richard Stoneman, 2021-06-08 An exploration of how the Greeks reacted to and interacted with India from the third to first centuries BCE When the Greeks and Macedonians in Alexander's army reached India in 326 BCE they entered a new and strange world They knew a few legends and travelers tales but their categories of thought were inadequate to encompass what they witnessed The plants were unrecognizable their properties unknown The customs of the people were various and puzzling While Alexander's conquest was brief ending with his death in 323 BCE the Greeks would settle in the Indian region for the next two centuries forging an era of productive interactions between the two cultures The Greek Experience of India explores the various ways that the Greeks reacted to and constructed life in India during this fruitful period From observations about botany and mythology to social customs Richard Stoneman examines the surviving evidence of those who traveled to India Most particularly he offers a full and valuable look at Megasthenes ambassador of the Seleucid king Seleucus to Chandragupta Maurya and provides a detailed discussion of Megasthenes's now fragmentary book Indica Stoneman considers the art literature and philosophy of the Indo Greek kingdom and how cultural influences crossed in both directions with the Greeks introducing their writing coinage and sculptural and architectural forms while Greek craftsmen learned to work with new materials such as ivory and stucco and to probe the ideas of Buddhists and other ascetics **Making Legal History** Anthony Musson, Chantal Stebbings, 2012-01-26 The first book to address the way that the broad and inclusive subject of legal history is researched and written *Marshall, Marshallians and Industrial Economics* Tiziano Raffaelli, Tamotsu Nishizawa, Simon Cook, 2011-03-28 The four sections of the book deal in succession with Marshall's key ideas on the subject the wider context of his thought in which they are to be read

their later development by some of his pupils and their revival in contemporary economics The first and last sections work together to illustrate the evolutionary focus of Marshall s research program and to identify its affinity with modern industrial economics the second explicates the social assumptions within which the Marshallian paradigm was embedded in particular those relating to the various relationships that exist between individuals and wider groups while the third traces the development of Marshall s views by some of his pupils

John Clare Simon Kövesi, 2017-08-02 This book investigates what it is that makes John Clare s poetic vision so unique and asks how we use Clare for contemporary ends It explores much of the criticism that has appeared in response to his life and work and asks hard questions about the modes and motivations of

critics and editors Clare is increasingly regarded as having been an environmentalist long before the word appeared this book investigates whether this green rush to place him as a radical proto ecologist does any disservice to his complex positions in relation to social class work agriculture poverty and women This book attempts to unlock Clare s own theorisations and practices of what we might now call an ecological consciousness and works out how his ecocentric mode might relate to that of other Romantic poets Finally this book asks how we might treat Clare as our contemporary while still being attentive to the peculiarities of his unique historical circumstances

The Last Man Who Knew Everything Andrew Robinson,2023-05-09 No one has given the polymath Thomas Young 1773 1829 the all round examination he so richly deserves until now Celebrated biographer Andrew Robinson portrays a man who solved mystery after mystery in the face of ridicule and rejection and never sought fame As a physicist Young challenged the theories of Isaac Newton and proved that light is a wave As a physician he showed how the eye focuses and proposed the three colour theory of vision only confirmed a century and a half later As an Egyptologist he made crucial contributions to deciphering the Rosetta Stone It is hard to grasp how much Young knew This biography is the fascinating story of a driven yet modest hero who cared less about what others thought of him than for the joys of an unbridled pursuit of knowledge with a new foreword by Martin Rees and a new postscript discussing polymathy in the two centuries since the time of Young It returns this neglected genius to his proper position in the pantheon of great scientific thinkers
