Six Victorian and Edwardian Board Games Olivia Bristol,1995-01-01 *Playing Games in Nineteenth-Century Britain and America* Ann R. Hawkins,Erin N. Bistline,Catherine S. Blackwell,Maura Ives,2021-11-01 A vital part of daily life in the nineteenth century games and play were so familiar and so ubiquitous that their presence over time became almost invisible Technological advances during the century allowed for easier manufacturing and distribution of board games and books about games and the changing economic conditions created a larger market for them as well as more time in which to play them These changing conditions not only made games more profitable but they also increased the influence of games on many facets of culture *Playing Games in Nineteenth Century Britain and America* focuses on the material and visual culture of both American and British games examining how cultures of play intersect with evolving gender norms economic structures scientific discourses social movements and nationalist sentiments *Board Games in 100 Moves* Ian Livingstone,James Wallis,2019-09-17 Surprising stories behind the games you know and love to play Journey through 8 000 years of history from Ancient Egyptian Senet and Indian Snakes and Ladders right up to role play fantasy and hybrid games of the present day More than 100 games are explored chronologically from the most ancient to the most modern Every chapter is full of insightful anecdotes exploring everything from design and acquisition to game play and legacy *Victorian Board Games* Olivia Bristol,1995-09-01 **Whitaker's Books in Print** ,1998 **Depictions and Images of War in Edwardian Newspapers, 1899-1914** G. Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid,2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes
