Edward Thomas: Prose Writings: A Selected Edition Edna Longley, 2023-10-12 Edward Thomas can be seen as the most important poetry critic in the early twentieth century Thomas was a prose writer before he was a poet The Selected Edition of his prose and especially this volume shows that he was also a critic before he was a poet His unusual literary career opens up key questions about the relation between poetry and criticism as well as between poetry and prose Thomas wrote books about poetry but his criticism mainly took the form of reviews He reviewed collections editions and studies of poetry most regularly for the Daily Chronicle and the Morning Post These reviews amount to a unique commentary on the state of poetry and of poetry criticism after 1900 Since reviewing provided Thomas's main income he also reviewed other kinds of book Hence the sheer mass of his reviews the stress he suffered as a literary journalist Yet his criticism maintains an astonishingly high standard Thomas's response to contemporary poetry intersects with his readings of older poetry No critic or poet of the time was so deeply acquainted with the traditions of English language poetry or so alert to new poetic movements in Ireland and America Edward Thomas's writings on poetry have a double importance Besides suggesting the hidden evolution of his own aesthetic they constitute a lost history and critique of poetry before the Great War They change our assumptions about that period Thomas's perspectives on poets such as Yeats Hardy Frost Lawrence and Pound illuminate the making of modern poetry

Sherry,1985 Essays on British and Irish poets published in the years between 1960 and 1985 whose methods and outlooks as reflected in their works display the diversity and vitality of poetry during a twenty five year period that ranged from experimental modernism to traditional forms renewed by the shifts of attitude in the 1960s Making of the English Literary Canon Trevor Ross,1998-05-20 An indigenous canon of letters Ross argues had been both the hope and aim of English authors since the Middle Ages Early authors believed that promoting the idea of a national literature would help publicize their work and favour literary production in the vernacular Ross places these early gestures toward canon making in the context of the highly rhetorical habits of thought that dominated medieval and Renaissance culture habits that were gradually displaced by an emergent rationalist understanding of literary value He shows that beginning in the late seventeenth century canon makers became less concerned with how English literature was produced than with how it was read and received
