Performing Authorship in Eighteenth-Century English Periodicals Manushag N. Powell, 2012-06-29 Performing Authorship in Eighteenth Century Periodicals discusses the English periodical and how it shapes and expresses early conceptions of authorship in the eighteenth century Unique to the British eighteenth century the periodical is of great value to scholars of English cultural studies because it offers a venue where authors hash out often in extremely dramatic terms what they think it should take to be a writer what their relationship with their new mass media audience ought to be and what qualifications should act as gatekeepers to the profession Exploring these questions in *The Female Spectator* *The Drury Lane Journal* *The Midwife* *The World* *The Covent Garden Journal* and other periodicals of the early and mid eighteenth century Manushag Powell examines several paper wars waged between authors At the height of their popularity essay periodicals allowed professional writers to fashion and make saleable a new kind of narrative and performative literary personality the eidolon and arguably birthed a new cult of authorial personality In *Performing Authorship in Eighteenth Century Periodicals* Powell argues that the coupling of persona and genre imposes a lifespan on the periodical text the periodicals don't only rise and fall but are born and in good time they die

Yadav, 2004-07-22 Before the Empire of English offers a broad re examination of Eighteenth century British literary culture centred around issues of language nationalism and provinciality It revises our tendency to take for granted the metropolitan centrality of English language writers of this period and shows instead how deeply these writers were conscious of the traditional marginality of their literary tradition in the European world of culture The book focuses attention on crucial but largely overlooked aspects of Eighteenth century English literary culture the progress of English topos since the death of Cowley and the cultural aspirations and anxieties it condenses the concept of the republic of letters and its implications for issues of cultural centrality and provinciality and the importance of cultural nationalist emphases in Augustan poetics in the context of these concerns about provinciality The book examines imperial aspirations and imaginings in the English literary culture of the period but it shows how such aspirations are responses to provincial anxieties more so than they are marks of imperial self assurance

Annotation in Eighteenth-Century Poetry Michael Edson, 2017-10-18 Recent years have witnessed a growing fascination with the printed annotations accompanying eighteenth century texts Previous studies of annotation have revealed the margins as dynamic textual spaces both shaping and shaped by diverse aesthetic historical and political sensibilities Yet previous studies have also been restricted to notes by or for canonical figures they have neglected annotation's relation to developments in reading audiences and the book trade and they have overlooked the interaction even tension between prose notes and poetry a tension reflecting eighteenth century views of poetry as aesthetically superior to prose Annotation in Eighteenth Century Poetry addresses these oversights through a substantial introduction and eleven essays analyzing the printed endnotes and footnotes accompanying poems written or annotated between 1700 and 1830 Drawing on methods and critical developments in book history and print culture studies this collection explores the functions that annotation performed on and through the printed page By analyzing the annotation specific to poetry these essays clarify the functions of notes among the other paratexts including illustrations by which scholars have mapped poetry's relation to the expanding book trade and the class specific production of different formats Because the reading and writing of poetry boasted social and pedagogical functions that predate the rise of the note as a print technology studying the relation of notes to poetry also reveals how the evolving layout of the eighteenth century book wrought significant changes not only on reading practices and reception but on the techniques that booksellers used to make new poems steady sellers and antiquarian discoveries legible to new readers Above all analyzing notes in poetry volumes contributes to larger inquiries into canon formation and the rise of literary studies as a discipline in the eighteenth century
