The Enterprise Of England The Spanish Armada:

The Enterprise of England John Roger Scott Whiting,1988 *The enterprise of England* ,1986 **Armada** Colin Martin,Geoffrey Parker,2022-01-01 The definitive history of the Spanish Armada lavishly illustrated and fully revised Will surely become the definitive account Stephen Brumwell Wall Street Journal In July 1588 the Spanish Armada sailed from Corunna to conquer England Three weeks later an English fireship attack in the Channel and then a fierce naval battle foiled the planned invasion Many myths still surround these events The genius of Sir Francis Drake is exalted while Spain s efforts are belittled But what really happened during that fateful encounter Drawing on archives from around the world Colin Martin and Geoffrey Parker also deploy vital new evidence from Armada shipwrecks off the coasts of Ireland and Scotland Their gripping beautifully illustrated account provides a fresh understanding of how the rival fleets came into being how they looked sounded and smelled and what happened when they finally clashed Looking beyond the events of 1588 to the complex politics which made war between England and Spain inevitable and at the political and dynastic aftermath Armada deconstructs the many legends to reveal why ultimately the bold Spanish mission failed **The Great Enterprise** Stephen Usherwood,1978 England and the Spanish Armada James McDermott,2005-01-01 The Armada campaign pitted Europe s mightiest military power against Christendom s most powerful navy in a battle for different ideals of civilisation Both protagonists expected the clash to be decisive neither as it soon became apparent knew how to fight a battle whose scale and character were beyond the experience of anyone in the two fleets What ensued was not the heroic encounter of legend but an inconclusive affair redeemed for England by atrocious weather and poor Spanish understanding of the coastlines of western Scotland and Ireland **BOOK JACKET** **The Spanish Armada** Angus Konstam,2009-07-21 With the launch of the Spanish Armada in 1588 England suffered its greatest threat since the Norman invasion some 500 years before This book details the background to the campaign the opposing fleets and the whole campaign including the Armada s disastrous return voyage around Scotland and Ireland **The Confident Hope of a Miracle** Neil Hanson,2007-12-18 The real story of the Spanish Armada In the winter of 1587 the Spanish Armada the largest force of warships ever assembled set sail to crush the English navy This breathtaking overview of one of the most fascinating campaigns in European history begins with the execution of Mary Queen of Scots the event that precipitated the launching of the Armada From the first whispers of the threat against England and the English crown to the return of the battered remnants of the fleet to Spain eighteen months later it is a story rich in incident and intrigue In this controversial study Neil Hanson claims that Francis Drake s intention was not to sink the Armada ships but to disable and plunder them He further claims that Queen Elizabeth was a monarch who left many of the survivors of the battle to die of disease or starvation and whose parsimony prevarication and cynicism left her unable to make crucial decisions Drawing on previously undiscovered personal papers Neil Hanson conveys in vivid detail how the highest and the lowest in the land fared in those turbulent months when the destiny of all Europe hung in the balance From the

The Spanish Armada Jay Williams, 2015-10-28 In the summer of 1588 a great body of ships sailed from Spain on a Crusade to restore England to Catholicism The ensuing events brought a Spanish word armada into the English language and created a host of legends Intrepid English sea dogs in tiny ships it was said had bravely faced down towering Spanish galleons Finally a storm sent by a vengeful God wrecked most of that proud fleet on its way home Award winning author Jay Williams sheds new light on the traditional picture Although the English were superior sailors the two fleets were evenly matched Moreover the battle emerges as the high point of a four year cold war between England and Spain Only when set in the context of a Europe bitterly divided between Catholics and Protestants can the contest be fully understood The personalities of Queen Elizabeth I of England and King Philip II of Spain and their commanders especially Francis Drake are also key to this dramatic story
