Owen Ward PhD, 2015-11-18 Christianity is one of the most popular subjects of debate in the world today In this book Dr Ward directs the debate to the Bible itself He contends that the core of the biblical revelation of Christ has been overlooked ignored and even dismissed throughout thousands of years of Church history He challenges us to look deeper into the Scripture and discover what it means that Jesus is Christ As many precious gifts come in a small package Christ is identified in the Bible with one small five letter word used in its metaphysical context only four times in only one chapter of the New Testament In the beginning was the Logos and the Logos was with God and the Logos was God and the Logos became flesh and dwelt among us Jn 1 1 14 As Dr Ward demonstrates once we have a grasp of the meaning of this single Word it acts like a secret code unlocking the vision of the Big Picture Grand Design God intended when he inspired John to write his Gospel Unfortunately few Christians today know anything about the Great Conversation of philosophical thought that John adopted at the core of his God Story Dr Ward invites us into our own personal psychological encounter with a here and now renaissance Return to Antiquity joining the Church Fathers who dedicated their lives to the depth of this expansive vision Open your mind to revision and redefine your faith Let the big T Truth transform your mind heal your wounds and open your

Notes on Brahman Jan Gonda, 1950 *The Congregationalist*, 1928 *The Cosmic Spirit* Roland Faber, 2021-03-04 Are we more than stardust Is the appearance of the fragile Earth in the vast universe more than an accident Are we not children of a Spirit that pervades the dust rejuvenates life and embraces the ever evolving universe Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning sacred purpose and mutual friendship with all beings This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening Not bound by any religion but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of the cosmos Use says this Spirit the stardust that you are to become a spirit faring species in an eternal journey of the cosmos to realize its ultimate motive of existence the attraction of love

Religions of India Thomas Berry, 1996 Religions of India is Thomas Berry's interpretation of India mainly through spiritual and religious literature *The Garden of Reality* Roland Faber, 2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bahá'í religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality

Esoteric Cosmology and Modern Physics Bodo Balsys,2020-03-04 This book endeavours to integrate the concepts gleaned through modern physics with those of the esotericist hence with the lore derived from meditative penetration of high dimensions of perception This incorporates the n and chakra system via which all phenomena is derived and of the nature of the projection of thought forms from the subjective domains to the phenomenal world This book consequently endeavours to show how the laws discovered by physicists derive from those of the subjective universe Many abstruse ideas therefore need to be discussed which the scientifically minded are unaware as well as unfamiliar concepts for most religionists and philosophers Hopefully this syncretic approach will evoke many revelations in all these schools of thought Readers should not dismiss the ideas presented out of hand but rather should rationalise what is logically correct as a valid basis for further research and enquiry into the origin and nature of things
