A. Larivé, 2016-05-13 Dr Lariv questions whether there is such a thing as a European defense and security policy This book analyzes the integration process by clearly illustrating to the reader the two sides of the argument in order to understand the complexity of the problems in the different stages of the creation and implementation of the European defense policy In doing so this study asks the question of why has the process been so halting and of such limited scope Structured in three parts Theories analyzing the theoretical debates raised by the positivist paradigms of neorealism liberalism and constructivism on European security History reflecting on the impacts of the Cold War American foreign policy the 2008 economic crisis and the evolution of European strategy and Actors by looking at the role of European institutions Member States and the CSDP on the transformation of the European defense policy since 1998 Each chapter is composed of sub questions allowing the reader to grasp the different forces explaining the deepening or lack of the deepening process of the CSDP Ultimately this book offers a unique base for fostering discussion understanding and critical thinking on the CSDP      *Europe's World* Knud Erik Jørgensen, Tonny Brems Knudsen, Laura Landorff, 2025-05-27 The EU s international environment is increasingly characterized by power politics great power rivalry ideological contestation and war This has challenged the liberal internationalist identity that has been at the heart of the EU since its birth This book examines how the

EU has responded to these new realities. It analyses the introduction of a flurry of concepts including European sovereignty, strategic autonomy, civilization responsibility and strategic compass and asks whether these signal a reconsideration of foreign policy objectives, a new strategic orientation or possibly a paradigm shift. The book develops a theoretical framework on policy paradigms, worldviews, grand strategy, strategic narratives and the drivers of institutional change followed by chapters on the anti-liberal challenge, the evolution of the EU framework of ideas, the search for grand strategy and strategic autonomy, the response to Russian aggression and imperial thinking and continuity and change in EU unity, working groups, green leadership and strategic communication.

**The SAGE Handbook of European Foreign Policy** Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30. During the last two decades the study of European foreign policy has experienced remarkable growth, presumably reflecting a more significant international role of the European Union. The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists, the Union's international relations have become more substantial and its foreign policy more focused. European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring, new emerging economies, powers, the crisis of multilateralism and much more. The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world. The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences. Both volumes are structured to address areas of critical concern to scholars at the cutting edge of all major dimensions of foreign policy. The volumes are composed of original chapters written specifically to the following themes: Research traditions and historical experience; Theoretical perspectives; EU actors; State actors; Societal actors; The politics of European foreign policy; Bilateral relations; Relations with multilateral institutions; Individual policies; Transnational challenges. The Handbook will be an essential reference for both advanced students and scholars.

**EU External Relations Law and the European Neighbourhood Policy** Bart Van Vooren, 2012. The European Neighbourhood Policy (ENP) is a recent example of an external EU policy drawn up explicitly with the objective of achieving coherence in the external policies of the EU and its Member States. Positioning the ENP in the legal historical context of political union, this book explains why coherence has become a substantive issue in EU external relations and why law is integral to attaining the ever enigmatic single voice of the European Union. The text examines the role of EU external relations law in attaining a coherent neighbourhood policy and goes on to undertake an in-depth analysis of the ENP, arguing that the innovative nature of the ENP in regard to coherence lies beyond the narrowly defined legal sphere and stems primarily from its hybrid composition of hard legal, soft legal and non-legal policy instruments. Adopting an interdisciplinary approach by integrating elements of law, history and political science, EU External Relations Law and the European Neighbourhood Policy is unique in its approach to the subject. This book will be of particular interest to academics and students of EU Law, Political Science, History and

International Relations as well as to practitioners engaged in the process of drafting coherent external policy      *European Security since the Fall of the Berlin Wall* Frederic Merand, Martial Foucault, Bastien Irondele, 2011-02-05 There have been dramatic changes to the landscape of European security in the twenty years since the fall of the Berlin Wall The essays in *European Security Since the Fall of the Berlin Wall* collectively take stock of how approaches to security in Europe have changed both in practice and in theory since the end of the Cold War Organized into three sections this collection begins with an exploration of the broad changes in Europe's security environment relating to issues such as terrorism and the rising importance of energy security The second section describes the adaptations of Europe's institutional framework including the transformation of NATO and the evolution of European armed forces while the closing essays examine regional security issues with the Middle East the Balkans and Russia Covering a broad spectrum of theoretical approaches and written in a clear engaging style *European Security Since the Fall of the Berlin Wall* will illuminate European security debates for years to come      *An EU Innovative External Action?* Ludovica Marchi Balossi-Restelli, 2011-07-12 *An EU Innovative External Action* discusses both the EU's growing challenges from its near and far neighbourhood and the developments within the EU that seek to meet them The *European Security Strategy 2003* and its updating 2008 have pointed out some of the growing external problems These documents have outlined the goals for the EU's future activity in terms of general principles and policy rather than of specific actions adopting a holistic approach covering a wide range of civilian responses as well as the military dimension of security This book is an empirical investigation which reflects these different aspects and pressures exploring the interaction between resources and capacities policies and processes and influences from within and outside the EU Its main argument is the need for the EU to work towards meeting its external challenges by developing innovative action The crucial challenges that this volume explores include the EU's approach to the European External Action Service the EU's handling of Russia China and Iran the legal aspects of the Common Security and Defence Policy's CSDP military operations legal issues regarding the EU's combating of piracy and armed robbery in the CSDP Operation Atalanta the influences and issues inherent in the EU's coordination of the above military marine operation the political control and strategic direction on decision making by the Political Security Committee the establishment of the EU's rapid reaction force within the CSDP framework and its present in action and the CSDP's experimentation in the promotion of peace and security on the African continent This volume examines EU behaviour in the above policy areas and issues and how the Union is dealing with the risks it faces today This book aims to promote an interdisciplinary debate The contributions to this volume originated from a workshop concerned with the European Union Facing External Challenges held at Pembroke College Cambridge in October 2009 organised with the support of Geoffrey Edwards POLIS University of Cambridge These reflect the views of experts from various nations and institutions operating in diverse cultural realities and fields The rationale for employing interdisciplinary resources is in line with the way in which the European Union and the European Commission are encouraging a dialogue

about EU policies The authors are academics political analysts from think tanks and officials from the European Commission and the European Council all involved at various levels in European affairs They are Laure Delcour G rard Dejou Andrea deGuttry Elina Dzalbe Roxane Farmanfarmaian Ludovica Marchi Balossi Restelli Jing Men Antonio Missiroli Frederik Naert and Alex Vines Jolyon Howorth Yale University contributed to the workshop as a discussant and this is noticeable in the building up of the book s argument An EU Innovative External Action will be of interest to students and scholars of European studies focused on EU s external challenges policy makers involved in European affairs and the wider public

**The European Union** Elizabeth E. Bomberg, John Peterson, Alexander C-G. Stubb, 2008 The book also features exhibits comparing the EU with other international bodies and systems of government This will help students to better understand the EU by underlining how it is like other systems of governance and in what ways it is unique The book s overall aim is to provide an accessible lively introduction to how the EU works and why it matters

**Europe's Global Role** Jan Orbie, 2016-12-05 First published in 2008 and based on an innovative framework for analysing the EU s external politics this paperback edition provides a historical overview of and theoretical conclusions about the EU s global role Taking an original approach the volume highlights the expanding political science literature on Europe s international role in a range of external policy domains It focuses in particular on the soft dimension of Europe s international action which has previously been much neglected Carefully structured to make this ideal supplementary reading for students and scholars of European politics and foreign policy the book will equally appeal to a wider audience in political economy security policy and international relations more generally

**The EU and Effective Multilateralism** Edith Drieskens, Louise G. van Schaik, 2014-04-24 This book investigates the extent to which the EU has defined and operationalised the notion of effective multilateralism Reform has dominated the agenda of the EU in recent years with the adoption and implementation of the Lisbon Treaty However various international organisations have also been in reform mode in an attempt to adjust their structure to the changing polarity and counter criticisms about a lack of legitimacy accountability and effectiveness The EU and Effective Multilateralism examines the EU s intention to make multilateral settings more effective as formulated by the European Security Strategy in December 2003 Firmly grounded in new empirical research it provides a balanced account of the fit between internal reform the institutional reform within the EU notably following the entry into force of the Lisbon Treaty and external reform the institutional reform of the international reform in which the EU operates This book will be of much interest to students of EU politics European security international organisations foreign policy and IR in general

*European Foreign Policy in an Evolving International System* N. Casarini, C. Musu, 2007-08-09 European Foreign Policy in an Evolving International System provides the reader with an updated assessment of European Foreign Policy fifteen years after Maastricht The contributions analyze the level of policy convergence achieved by EU member states in crucial areas and regions of the world

**The European Union at the United Nations** K. Laatikainen, K. Smith, 2006-04-13 This is the first book to examine in depth the

EU's relationship with the UN and to analyze critically the EU's contribution to effective multilateralism. The contributors show that the EU most often fails to make the UN as effective as it should be in addressing global challenges. The EU, Strategy and Security Policy Laura Chappell, Jocelyn Mawdsley, Petar Petrov, 2016-05-26. This edited collection is a timely and in depth analysis of the EU's efforts to bring coherency and strategy to its security policy actions. Despite a special European Council summit in December 2013 on defence it is generally acknowledged that fifteen years since its inception the EU's Common Security and Defence Policy (CSDP) has yet to acquire a clear sense of purpose. This book investigates those areas where the EU has established actorness in the security and defence field and asks whether they might constitute the elements of an emergent more coherent EU strategy on security. Taking a critical view the contributors map the EU's strategic vision's across particular key regions where the EU has been active as a security actor, the strategic challenges that it has pinpointed alongside the opportunities and barriers posed by a multiplicity of actors' interests and priorities identified by both member states and EU actors. By doing this we demonstrate where gaps in strategic thinking lie where the EU has been unable to achieve its aims and offer recommendations concerning the EU's future strategic direction. This book will be of much interest to students of European security, EU policy, strategic studies and IR in general. Multilateralism in the 21st Century Caroline Bouchard, John Peterson, Nathalie Tocci, 2013-08-15. This volume focuses on multilateralism in the 21st century and examines how and how effectively the EU delivers on its commitment to effective multilateralism. Presenting results generated by MERCURY, an EU research programme into multilateralism, this book addresses a central research question: does the EU deliver on its commitment to effective multilateralism? Globalisation has created powerful new incentives for states to cooperate and has generated renewed interest in multilateralism. While a large body of work exists on multilateralism as a concept, it continues to be ill defined and poorly understood. This book sheds new light on 21st century multilateralism by exploring conceptual approaches as well as generating innovative empirical knowledge on its practice. Research on EU external relations has increasingly focused on the concept of effective multilateralism. Yet the application of this concept as a guiding principle of EU foreign policy in non security policy areas has rarely been examined. This book explores whether the EU is pursuing effective multilateralism in specific policy areas including trade, climate change and conflict resolution and distinct geographical and institutional settings both internal to the EU and in specified regions: international organisations (IOs) and bilateral partnerships. This book offers evidence based, actionable policy lessons from Europe's experience in promoting multilateralism. The European Union and Multilateralism in the 21st Century will be of interest to students and scholars of international relations, international organizations and European Union politics and foreign policy. **Regional Organizations and Peacemaking** Peter Wallensteen, Anders Björner, 2014-08-21. This book analyses the new and difficult roles of regional organizations in peacemaking after the end of the Cold War and how they relate to the United Nations. UN Regional organizations have taken an increasingly prominent role in international efforts to

deal with international security The book highlights the complex interaction between the regional and sub regional organizations on the one hand and their relations with the United Nations on the other Thus the general issues of UN and its authority are scrutinized from legal practical and geopolitical perspectives Taking on a broad geographical focus on Africa the Arab world and Europe the book also provides an extensive range of case studies with detailed analysis of particular situations organizations and armed conflicts The authors scrutinise the heterogeneous relationship between the different organizations as well as the challenges to them political resources legal standing financial assets capabilities and organizational set up Moreover they investigate whether regional organizations as compared to the UN are better suited to deal with today s intra state conflicts The book also aims to dissect the evolution of these institutions historically in relation to Chapter VIII of the UN Charter which mentions the resort to regional arrangements for conflict management as well as more generally in relation to the principles of international law and UN principles of peacemaking This book written by a mixture of established scholars diplomats and high level policymakers will be of great interest to students as well as practitioners in the field of peace and conflict studies regional security international organisations conflict management and IR in general
