The Evidence For Heaven:

The Evidence for Heaven David W. Balsiger, Charles E. Sellier, Charles E. Sellier, Jr., 2005-06 This book answers questions about immortality and includes the testimony of highly respected physicians physicists biblical scholars and scientists from the late 17th century to the present **The Case for Heaven** Lee Strobel, 2021-09-14 Bestselling and award winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die near death experiences heaven and hell We all want to know what awaits us on the other side of death but is there any reliable evidence that there is life after death Investigative author Lee Strobel offers a lively and compelling study into one of the most provocative topics of our day Through fascinating conversations with respected scholars and experts a neuroscientist from Cambridge University a researcher who analyzed a thousand accounts of near death experiences and an atheist turned Christian philosopher Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come Looking at biblical accounts Strobel unfolds what awaits us after we take our last breath and answers questions like Is there an afterlife What is heaven like How will we spend our time there And what does it mean to see God face to face With a balanced approach Strobel examines the alternative of Hell and the logic of damnation and gives a careful look at reincarnation universalism the exclusivity claims of Christ and other issues related to the topic of life after death With vulnerability Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith Follow Strobel on this journey of discovery of the entirely credible believable and exhilarating life to come **Evidence for Heaven** Michael Zigarelli, 2026-04-07 If one person told you the story about how they died experienced the afterlife and then came back to life would you believe them What if thousands of people had similar stories Research over the past fifty years is finally settling centuries of debate There s an increasingly credible case that death is a doorway a case established by the thousands who walked through that door and returned to tell of it In this captivating investigation Professor Michael Zigarelli takes you on a step by step journey into these breathtaking eyewitness accounts uncovering seven lines of evidence for life after death including consistent near death experience NDE reports of the afterlife corroborated reports where the NDE stories check out as true the radically transformed lives of those who experienced an NDE what healthcare workers have observed at the deathbed NDE reports from young children and the blind If you have lost a loved one and wonder whether you might see them again if you seek assurance that this life is not all there is or if you re simply curious about the scientific case for the afterlife Evidence for Heaven offers a compelling intellectually satisfying answer to one of life s greatest mysteries What happens after we die **The Trial of Theism** George Jacob Holyoake, 1858 *The Works of ... Ezekiel Hopkins, Late Lord Bishop of London-Derry in Ireland Ezekiel Hopkins, 1701 *The Myth of an Afterlife* Michael Martin, Keith Augustine, 2015-03-12 Because every single one of us will die most of us would like to know what if anything awaits us afterward not to mention the fate of lost loved ones Given the nearly universal vested interest in deciding this question in favor of an afterlife it is no surprise that the vast majority of books on the topic affirm the reality of life after death without a backward glance But the evidence of our senses and the ever gaining strength of scientific evidence strongly suggest otherwise In *The Myth of an Afterlife The Case against Life after Death* Michael Martin and Keith Augustine collect a series of contributions that redress this imbalance in the literature by providing a strong comprehensive and up to date casebook of the chief arguments against an afterlife Divided into four separate sections this collection opens with a broad overview of the issues as contributors consider the strongest evidence of whether or not we survive death in particular the biological basis of all mental states and their grounding in brain activity that ceases to function at death Next contributors consider a host of conceptual and empirical difficulties that confront the various ways of surviving death from bodiless minds to bodily resurrection to any form of posthumous survival Then essayists turn to internal inconsistencies between traditional theological conceptions of an afterlife heaven hell karmic rebirth and widely held ethical principles central to the belief systems supporting those notions In the final section authors offer critical evaluations of the main types of evidence for an afterlife Fully interdisciplinary *The Myth of an Afterlife The Case against Life after Death* brings together a variety of fields of research to make that case including cognitive neuroscience philosophy of mind personal identity philosophy of religion moral philosophy psychical research and anomalistic psychology As the definitive casebook of arguments against life after death this collection is required reading for any instructor researcher and student of philosophy religious studies or theology It is sure to raise provocative issues new to readers regardless of background from those who believe fervently in the reality of an afterlife to those who do not or are undecided on the matter *The Evidence of Things Not Seen; Or, the Immortality of the Human Soul ...
