The Colonial Office and Nigeria, 1898-1914 John M. Carland,1985-04-01 A study in the relationship between one department of the Colonial Office and the colonies in which it had responsibility **Political Culture, Change, and**

Security Policy in Nigeria Kalu Kalu,2018-03-15 Demonstrating how political culture facilitates or distorts political preferences and political outcomes this book explores how the historical development of social conditions and the current social structures shape understandings and constrain individual and collective actions within the Nigerian political system Political Culture Change and Security Policy examines the extent to which specific norms and socialization processes within the political and civic culture abet corruption or the proclivity to engage in corrupt practices and how they help reinforce political attitudes and civic norms that have the potential to undermine the effectiveness of government It also delineates specific doctrinal models and strategic framework essential to the development and implementation of Nigeria s national security policy as well as innovative approaches to national development planning Professor Kalu N Kalu offers an exhaustive study that integrates several quantitative models in addressing a series of theoretical and empirical questions that inform historical and contemporary issues of the Nigerian project The general premise is that it is not enough to simply highlight the problems of the state and address the what question we must also address the why and how questions that drive political change policy preferences and competing political outcomes **Missions, States, and European Expansion in Africa**

Chima Jacob Korieh,Raphael Chijioke Njoku,2007 Missions States and European Expansion in Africa aims to explore the ways Christianity and colonialism acted as hegemonic or counter hegemonic forces in the making of African societies As Western interventionist forces Christianity and colonialism were crucial in establishing and maintaining political cultural and economic domination Indeed both elements of Africa s encounter with the West played pivotal roles in shaping African societies during the nineteenth and twentieth centuries This volume uses a wide range of perspectives to address the intersection between missions evangelism and colonial expansion across Africa The contributors address several issues including missionary collaboration with the colonizing effort of European powers disagreements between missionaries and colonizing agents the ways in which missionaries and colonial officials used language imagery and European epistemology to legitimize relations of inequality with Africans and the ways in which both groups collaborated to transform African societies Thus Missions States and European Expansion in Africa transcends the narrow boundaries that often separate the role of these two elements of European encounter to argue that missionary endeavours and official colonial actions could all be conceptualized as hegemonic institutions in which both pursued the same civilizing mission even if they adopted different strategies in their encounter with African societies **Perspectives on Nation-State Formation in Contemporary Africa**

Godknows Boladei Igali,2014-04-15 The challenge of state formation and national integration is evident and the need for a

solution is even more demanding in places like Africa where nation states were formed under very special historical circumstances In *Perspectives on Nation State Formation in Contemporary Africa* author Godknows Boladei Igali presents a digest that examines the challenges of state formation and national integration in Africa and offers preferred solutions within the context of the symbolic diversities In this study Igali outlines the immediate context and challenges of national integration in Africa in its human dimension He reviews the political formations of ancient Africa which varied in size philosophical premise and organisational structures and discusses partition military invasions conquest and colonisation He then addresses colonial rule or administration African nationalism and decolonisation and analyses the process of nation state formation in post independent Africa from the perspective of the political systems and ideologies Reviewing a wide range of time from ancient times through the colonial period and since independence this survey discusses the processes of national integration and nation state formation in Africa providing perspectives that deepen the understanding of these nation building processes

Representative Bureaucracy, Meritocracy, and Nation Building in Nigeria Bola Dauda, Toyin Falola, 2015-12-18 This book is a comprehensive theoretical and empirical investigation of the practical application of representative bureaucracy in Nigeria Part I consists of four chapters beginning with a theoretical and an historical overview of representative bureaucracy and policy making in Nigeria This includes a discussion of the myths contradictions and the resultant dilemmas of administration It highlights the complexities and intricacies of public policy making and examines the concept of representative bureaucracy including its meaning forms criticisms prospects limitations and history It also examines the need for administrative reforms what reforms have taken place and the country's search for appropriate bureaucracy for nation building Part II details the objective and empirical facts regarding the representativeness of bureaucracy in Nigeria and its implications Unlike past approaches this book provides solid evidence of what difference representative bureaucracy actually makes on the ground Using a novel and rigorous methodological approach the actual impact of the civil service on policy making is assessed and insights are provided into how a more representative bureaucracy affects policy The approach is enhanced by the authors' advantage as Nigerian scholars who had both worked in the Nigerian political system as civil servant and university professors This landmark study will be of value to scholars and students of Nigerian and African political economic and social development

Augustine's Teaching on the Two Cities (Civitates) and Nigerian Society Leonard Oshiokhamele Anetekhai, 2020-09-28 Augustine's creative and allegorical thought in his City of God on social life is

one that provides citizens of the earthly cities especially Christians an opportunity to understand why and how they should contribute positively to public life through faith and social responsibility Believing that human life is social our human social existence must transcend and go beyond social religious and political affiliations This requires that individuals be good and upright in their social engagements as religious and political citizens It also entails individual rights duties and obligations without excluding the fight against injustice social vice exploitation and power abuse within human society These sets of values and the positive outcome thereof can only be achieved through love This love is the driving force to social peace a love which must promote order and justice within societal life Irrespective of its heavenly orientation these teachings are significantly context bound like every theological and philosophical endeavour that concerns and connects the human person to its earthly realities Contextualising these concepts within human existence flows from a social religious and political assessment It tends primarily towards moral benefits and social norms that must not lose sight of the spiritual reality which enlightens and build good moral conscience that impacts virtues and values in society

The African Colonial State in Comparative Perspective Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent

Sovereignty Julie Evans, Ann Genovese, Alexander Reilly, Patrick Wolfe, 2012-11-30 Unparalleled in its breadth and scope Sovereignty Frontiers of Possibility brings together some of the freshest and most original writing on sovereignty being done today Sovereignty's many dimensions are approached from multiple perspectives and experiences It is viewed globally as an international question locally as an issue contested between Natives and settlers and individually as survival in everyday life Through all this diversity and across the many different national contexts from which the contributors write the chapters in this collection address each other staging a running conversation that truly internationalizes this most fundamental of political issues In the contemporary world the age old question of sovereignty remains a key terrain of political and intellectual contestation for those whose freedom it promotes as well as for those whose freedom it limits or denies The law is by no means the only language in which to think through imagine and enact other ways of living justly together Working both within and beyond the confines of the law at once recognizes and challenges its thrall opening up pathways to alternative possibilities to other ways of determining and self determining our collective futures The contributors Indigenous and non Indigenous alike converse across disciplinary boundaries responding to critical developments within history politics anthropology philosophy and law The ability of disciplines to connect with each other and with experiences lived outside the halls of scholarship is essential to understanding the past and how it enables and fetters the pursuit of justice in the present Sovereignty Frontiers of Possibility offers a reinvigorated politics that understands the power of sovereignty explores strategies for resisting its lived effects and imagines other ways of governing our inescapably coexistent communities Contributors Antony Anghie Larissa Behrendt John Docker Peter Fitzpatrick Kent McNeil Richard Pennell Alexander Reilly Ben Silverstein Nin Tomas Davina B Woods

Colonial Origins of Democracy and Dictatorship Alexander Lee, Jack Paine, 2024-05-30 Why are some countries more democratic than others For most non European countries elections began under Western colonial rule However existing research largely overlooks these democratic origins Analyzing a global sample of colonies across four centuries this book explains the emergence of colonial electoral institutions and their lasting impact The degree of democracy in the metropole the size of the white settler population and pressure from non Europeans all shaped the timing and form of colonial elections White settlers and non

white middle classes educated in the colonizer's language usually gained early elections but settler minorities resisted subsequent franchise expansion. Authoritarian metropolises blocked elections entirely. Countries with lengthy exposure to competitive colonial institutions tended to consolidate democracies after independence. By contrast, countries with shorter electoral episodes usually shed democratic institutions, and countries that were denied colonial elections consolidated stable dictatorships. Regime trajectories shaped by colonial rule persist to the present day.

Managing the British Empire David Sunderland, 2013-08-15. First in depth account of the role played by the Crown Agents in the growth of the colonies. The Crown Agents Office played a crucial role in colonial development. Acting in the United Kingdom as the commercial and financial agent for the crown colonies, the Agency supplied all non locally manufactured stores required by colonial governments, issued their London loans, managed their UK investments and supervised the construction of their railways, harbours and other public works. In addition, the Office supervised the award of colonial land and mineral concessions, monitored the colonial banking and currency system and performed a personnel role, paying colonial service salaries and pensions, recruiting technical officers and arranging the transport of officers, troops and Indian indentured labour. In this important book, the first in depth investigation of the Agency, David Sunderland examines each of these services in turn, determining in each case whether the Crown Agents' performance benefited their clients, the UK economy or themselves. His book is thus both an account of a remarkable and unique organisation and a fascinating examination of the nuts and bolts of nineteenth century development. David Sunderland is Reader in Business History, Greenwich University.

Imperialism and Human Rights Bonny Ibhawoh, 2008-01-03. 2007 CHOICE Outstanding Academic Title. In this seminal study, Bonny Ibhawoh investigates the links between European imperialism and human rights discourses in African history. Using British colonized Nigeria as a case study, he examines how diverse interest groups within colonial society deployed the language of rights and liberties to serve varied socioeconomic and political ends. Ibhawoh challenges the linear progressivism that dominates human rights scholarship by arguing that in the colonial African context, rights discourses were not simple monolithic or progressive narratives. They served both to insulate and legitimize power just as much as they facilitated transformative processes. Drawing extensively on archival material, this book shows how the language of rights like that of civilization and modernity became an important part of the discourses deployed to rationalize and legitimize empire.

Entrepreneurship in Africa Moses E. Ochonu, 2018-02-05. A tapestry of innovation ideas and commerce. Africa and its entrepreneurial hubs are deeply connected to those of the past. Moses E. Ochonu and an international group of contributors explore the lived experiences of African innovators who have created value for themselves and their communities. Profiles of

vendors farmers craftspeople healers spiritual consultants warriors musicians technological innovators political mobilizers and laborers featured in this volume show African models of entrepreneurship in action As a whole the essays consider the history of entrepreneurship in Africa illustrating its multiple origins and showing how it differs from the Western capitalist experience As they establish historical patterns of business creativity these explorations open new avenues for understanding indigenous enterprise and homegrown commerce and their relationship to social economic and political debates in Africa today
