Quran on 29th October 2020 with 84 books I believe there is a great need in the whole world for the correct interpretation of the Holy Quran to be written in English Currently there is a great misunderstanding about Islam among Muslims and non Muslims globally The misunderstanding of the meaning of the Holy Quran among Muslims will lead to the wrong practice of Islam which leads to the wrong actions of Muslims The wrong actions of Muslims will lead to misunderstandings about Islam among Muslims and non Muslims The wrong actions of the Muslims have led to many miseries and wars among Muslims The wrong actions of Muslims have also led to many wars and clashes between Muslims and non Muslims In order to avoid miseries wars and clashes from taking place between the whole mankind in the whole world the whole mankind in the whole world need to understand the true teaching of Islam There is no other way for the whole mankind to understand the true teaching of Islam unless the whole mankind is able to read and understand the correct interpretation of the Holy Quran The whole mankind is only able to read and understand the correct interpretation of the Holy Quran when it is written in the universal language of the world English For this very reason I have written the interpretation of the Holy Quran in English

Prof Nasoha Bin Saabin American Stepfamilies William R. Beer, While statistics indicate that nearly half of all first marriages in America today terminate in divorce more than three quarters of these divorces also result in remarriage producing stepfamilies Although they have become increasingly common stepfamilies are still poorly understood by stepfamily and non stepfamily members alike This book looks at the internal and external dynamics of this new family form taking the reader through a series of case studies and examining characteristic pitfalls and opportunities The author begins by comparing the basic building block of the stepfamily the remarried couple to the first married couple In successive chapters the structure of the stepfamily is considered in terms of increasing complexity from the simplest in which one of the partners has never married before and has no children to the most complex yours and ours stepfamilies in which there are children from both previous marriages and the present one The author probes the conflicts that arise between parents and children and among stepsiblings and explores the different strategies that stepfamilies devise for resolving these tensions In the later chapters the sociohistorical origins of today s stepfamilies are traced in terms of changing values and new technologies Professor Beer argues that stepfamilies are proliferating as a result of attitudes and patterns of behavior that more than ever encourage divorce and remarriage He demonstrates on the basis of large scale evidence that stepfamilies produce children who are just as well adjusted as children brought up by both biological parents and that they will turn out to be adults who are almost as socially well adapted as those from conventional families The author concludes that stepfamilies are types of families in their own right with foreseeable difficulties and rich rewards *Break-ins at the Electric Boat Shipyard, Groton, Conn* United States.
