**Identity and Experience at the India-Bangladesh Border** Debdatta Chowdhury, 2018-06-28 The effects of the partition of India in 1947 have been more far reaching and complex than the existing partition narratives of violence and separation reveal The immediacy of the movement of refugees between India and the newly formed state of Pakistan overshadowed the actual effect of the drawing of the border between the two states The book is an empirical study of border narratives across the India Bangladesh border

specifically the West Bengal part of India's border with Bangladesh. It tries to move away from the perpetrator state victim civilian framework usually used in the studies of marginal people and looks at the kind of agencies that the border people avail themselves of. Instead of looking at the border as the periphery, the book looks at it as the line of convergence and negotiations, the centre of the people who survive it every day. It shows that various social, political and economic identities converge at the borderland and are modified in unique ways by the spatial specificity of the border, thus forming a border identity and a border consciousness. Common sense of the civilians and the state machinery embodied in the border guards collide, cooperate and effect each other at the borderlands to form this unique spatial consciousness. It is the everyday survival strategies of the border people which aptly reflects this consciousness rather than any universal border theory or state-centric discourses about the borders. A bottom-up approach is of utmost importance in order to understand how a spatially unique area binds diverse other identities into a larger spatial identity of a border people. The book's relevance lies in its attempt to explore such everyday narratives across the Bengal border while avoiding any major theorising project so as not to choke the potential of such experience-centred insights into the lives of a unique community of people. In that it contributes towards a study of borders globally, providing potential approaches to understand border people worldwide. Based on detailed field research, this book brings a fresh approach to the study of this border. It will be of interest to researchers in the field of South Asian studies, citizenship, development, governance and border studies.

The contributors highlight the potential as well as the environmental, economic, bureaucratic and cultural difficulties of peripheral tourism. This innovative and thought-provoking approach, with its wealth of detail, makes *Tourism in Frontier Areas* essential reading for scholars in tourist development, regional development and economic geography.

***Statemaking and Territory in South Asia*** Bernardo A. Michael, 2014-10-01. *Statemaking and Territory in South Asia: Lessons from the Anglo-Gorkha War 1814-1816* seeks to understand how European colonization transformed the organization of territory in South Asia through an examination of the territorial disputes that underlay the Anglo-Gorkha War of 1814-1816 and subsequent efforts of the colonial state to reorder its territories. The volume argues that these disputes arose out of older tribute, taxation and property relationships that left their territories perpetually intermixed and with ill-defined boundaries. It also seeks to describe the long drawn-out process of territorial reordering undertaken by the British in the nineteenth and twentieth centuries that set the stage for the creation of a clearly defined geographical template for the modern state in South Asia.

Kaliningrad: the European Amber Region Pertti Joenniemi,Jan Prawitz,2018-12-20 First published in 1998 this book reflects a concern for Kaliningrad Too little is known about the region developments in recent years have not been sufficiently covered and it is rarely integrated in terms of analysis with the way post Cold War Europe is viewed more generally

Russia's European Agenda and the Baltic States Janina Šleivyte,2009-12-16 Russian foreign policy has become an increasing concern in 21st century together with Russia s relations with its former Soviet neighbours but its relations with the Baltic States are particularly sensitive given the Baltic

membership of NATO and the EU and Russia's increasingly fractious relations with those institutions. This book discusses the development of Russia's approach to the new security architecture in Europe and assesses the prospects for a more active engagement of Russia in the Baltic Sea region and Europe as a whole. The book considers the full range of issues affecting security including energy economic relations the special position of Russia's Kaliningrad enclave and Russia's special interest in the Russian minorities in the former Soviet Baltic states. The evolution of Russian Baltic relations from 1990-2008 is set in the more general context of Russia's European agenda looking into the role and place of the Baltic States in this agenda. It provides a comparative analysis of the European agenda in of Russia's foreign policy under Boris Yeltsin Vladimir Putin and Dmitry Medvedev and concludes that despite the replacement of the former Cold War stand off with a more positive climate and a complicated array of bilateral and multilateral contacts much more still needs to be done to engage Russia fully with the new Europe.

**Understanding the Baltic States** Charles Clarke, 2023-02-16 This book addresses a crucial question the contribution of Estonia Latvia and Lithuania to the historic dissolution of the USSR in 1991 which in turn led to regained independence for the Baltic States in that year. This is an important history relating to the interplay between divisions and tensions at the heart of the USSR and the growing Baltic independence movements. It also has great contemporary significance as a result of Russia's February 2022 invasion of the Ukraine. To justify this act Vladimir Putin has explicitly promoted a Greater Russian version of history including a dangerously inaccurate narrative of what occurred in the Baltics in 1991. He also continues to threaten military action against the Baltic states all of which are members of NATO. The contributors who include Brendan Simms Vladislav Zubok Andrew Wilson Mart Kuldkepp Bridget Kendall Kristina Spohr Kaarel Piirimäe and Neil Taylor analyse the struggles of Estonia Latvia and Lithuania to secure their independence and set out how Moscow is propagating fake history as well as engaging in destabilising measures and cyber attacks to undermine these countries hard won freedom. This indispensable volume addresses head on the biggest geopolitical challenge facing the world today responding to Russian military adventurism.

**The Kaliningrad Question** Richard J. Krickus, 2002 The only comprehensive English language study of Kaliningrad this invaluable book explores the history and uncertain fate of the former East Prussia. Once touted as a future Hong Kong Russia's western most oblast has become a black hole of social and economic decay. Often overlooked in the West this exclave is a potential flashpoint in an already unstable region. Richard Krickus a leading expert on Kaliningrad fills a crucial gap by tracing its long history of unstable possession critiquing Russian and Western policy and mapping out possible futures for the oblast.
