## **The Executioners War:**

**The Executioner's War Book** Don Pendleton, 1977      **The Executioners Bible** Steve Fielding, 2008-11-12 The Executioner's Bible tells the story of these working class men who carried out this gruesome profession until its abolition in the late 1960s. Despite often being unassuming and quiet professionals, men like Albert Pierrepoint, William Billington, and many other Chief and Assistant executioners made a name for themselves in a world hungry for salacious and gruesome news. Read about the bungling hangmen sacked for incompetence, drunken executioners dismissed for brawling, one hangman driven to suicide, and another who got out just in time to be the last man to pull the lever at the height of the swinging sixties. They were the last of their kind, the hangmen of the 20th Century. And this is their fascinating, sometimes repugnant, always enthralling story. The secrets of over six controversial decades of capital punishment are finally revealed.      **The Anthropology of War** Keith F. Otterbein, 2009-03-24 Keith Otterbein, a long-time authority on anthropological studies of warfare, provides a rich synthesis of theory, literature, and findings developed by anthropologists and scholars from other disciplines. This in-depth yet concise look at warfare opens with two well-known ethnographic examples of warring peoples: the Dani and the Yanomamö. The origins and evolution of war, types of warfare, weapons and tactics, military organizations, and the social bases of war structure are discussed within the text. Analyses of historical events and case studies inform readers of different perspectives about why people go to war, how societies can be identified as having war, the elements necessary for war, and how war might be avoided. Otterbein concludes the text by presenting the concept of Positive Peace, promoting peace as a goal of human existence as a way for humans to eliminate the fatal consequences of war.      **Faulkner and War** Noel Polk, Ann J. Abadie, 2004 A critical exploration of the effects and influence of America's wars upon the works of the Nobel Prize laureate.      *A World History of War Crimes* Michael S. Bryant, 2021-01-28 The greatly expanded and enhanced 2nd edition of *A World History of War Crimes* provides an authoritative and accessible introduction to the global history of war crimes and the laws of war. Tracing human efforts to limit warfare from codes of war in antiquity designed to maintain a religiously conceived cosmic order to the gradual use in the modern age of the criminal trial as a means of enforcing universal humanitarian norms, Michael S. Bryant's book is a masterful one-volume account of the subject. This new edition includes for the first time two chapters providing extensive coverage of the Americas, Africa, and the Middle East. Strengthened chronological boundaries, a new chapter on the Incas, Aztecs, Mayan, and North American Indian tribes, as well as more material across all regions in ancient times, discussion of contemporary war crimes committed in Afghanistan, Iraq, Myanmar, and Syria, a historiographical essay to broaden your understanding of the field, an added final chapter focusing on the social, cultural, and psychological aspects of the subject. *A World History of War Crimes* is vital reading for anyone needing to understand the history of war in one of its most significant contexts.      **The Terrible Children of Modernity** Peter Sloterdijk, 2025-06-10 Peter Sloterdijk is among the most acclaimed and widely read philosophers of the past half-century.

Called Germany's most controversial thinker by the New Yorker he has challenged and provoked readers worldwide with extraordinarily ambitious and wide ranging works of philosophical and cultural critique In *The Terrible Children of Modernity* Sloterdijk offers a magisterial and profound investigation into the vicissitudes of historical change and the nature of modernity For Sloterdijk modernity is defined by its need to break with the past Moderns are perpetual rebels who seek to sever the ties of tradition and forms of inheritance that bind generations and eras together With deep philosophical historical and literary range he traces this antigenealogical experiment from the French Revolution onward from Madame de Pompadour and Napoleon through Nietzsche Marx Wagner the Dadaists and Deleuze Acutely aware of the destructive potential of cultural discontinuities Sloterdijk is no less critical of the fathers who condemn change than the terrible children who seek a drastic rupture with their predecessors Equally concerned with the grand sweep of history and our current predicaments he instead calls for new ways to live together in the intersubjectivity of the human condition Incisive and daring breathtaking in its scope this account of youthful rebellion against tradition asks us to reimagine the ethics of genealogy

**Peace Advocacy in the Shadow of War** Francis Shor, 2024-01-05 For peace advocates a corollary to Clausewitz's dictum that war is politics by other means might be that other politics could prevent war By highlighting both individual peace advocates and antiwar peace organizations from World War I through the wars of the 21st century the chapters will provide insights into how these individuals and organizations articulated their opposition to and mobilized against specific wars and international regional conflicts Organized roughly in chronological order each chapter will illuminate the socio historical conditions under which such peace advocacy contested state aggression and armed combat at the national and or transnational levels Beyond understanding the specific socio historical circumstances within which these antiwar and peace advocates and organizations operated and their resultant achievements and failures the book as a whole will examine the kind of politics that perpetuate war and those that offer a challenge to that perpetuation Scholars students and the general public interested in the history of modern and contemporary wars peace and conflict studies and ethical political perspectives in the 20th and 21st centuries should find much to reflect upon in this book

Piekalkiewicz,2019-11-15 More than seventy five years have passed since the Holocaust and the terrors visited by German Nazis on occupied Europe Yet this history continues to be the subject of research debate and controversy One particularly delicate issue is the question of whether non Jews did all they could to help Jews during the war In this book Jaroslaw Piekalkiewicz examines this issue in detail as it relates to Poland the country that experienced the harshest German occupation and was slated for permanent incorporation into the German Reich He examines all the different factors influencing the capacity and willingness of Poles to save Jews and documents the efforts made to save them despite these impediments Unlike other books on the subject Piekalkiewicz chooses to start with a chapter on the thousand year long history of Jews in Poland This allows readers to understand why one third of the world s Jews lived in Poland before WWII and to learn about their rich and diverse culture Equally clear are the dark clouds that gathered before the war in the form of fascism and antisemitism expanding in Poland and elsewhere in Europe Piekalkiewicz is a political scientist who participated in the Polish Resistance as a teenager along with other members of his family This combination of academic rigor and personal experience gives readers a more realistic understanding than usually available of resistance under German occupation and amid the Holocaust He provides a detailed understanding of German occupation of Poland and the operations of the Polish Underground and goes on to describe efforts by Poles from many walks of life to save Jews The text is interspersed with his vivid personal testimonies of surviving and fighting in occupied Poland At the same time the author does not shrink from revealing the dark side of the German occupation fear envy greed demoralization and collaboration with the Germans to betray Jews the Poles who hid them resistance members and even personal enemies This book provides readers with the basic elements to understand Polish Jewish relations during WWII as well as what is probably the last testimony that will ever be published of a former resistance fighter      *Memory Wars in the Low Countries, 1566-1700* Jasper

van der Steen,2015-07-28 The Revolt in the Netherlands erupted in 1566 and tore apart the Low Countries In *Memory Wars in the Low Countries 1566 1700* Jasper van der Steen explains how public memories of the Revolt in the Habsburg Netherlands in the South and the Dutch Republic in the North diverged and became the objects of fierce contestation in domestic political struggles on both sides of the border and throughout the seventeenth century Against widespread assumptions about the supposed modernity of cultural memory *Memory Wars* argues that early modern public memory did

not require the presence of state actors nationalism and modern mass media in order to play a role of political importance in both North and South      Hitler's Executioner Helmut Ortner, 2018-11-30 The biography of the infamous judge who oversaw Nazi justice for the Third Reich as president of the People's Court Though little known the name of the judge Roland Freisler is inextricably linked to the judiciary in Nazi Germany As well as serving as the State Secretary of the Reich Ministry of Justice he was the notorious president of the People's Court a man directly responsible for more than 2 200 death sentences with almost no exceptions cases in the People's Court had predetermined guilty verdicts It was Freisler for example who tried three activists of the White Rose resistance movement in February 1943 He found them guilty of treason and sentenced the trio to death by beheading a sentence carried out the same day by guillotine In August 1944 Freisler played a central role in the show trials that followed the failed attempt to assassinate Adolf Hitler on 20 July that year a plot known more commonly as Operation Valkyrie Many of the ringleaders were tried by Freisler in the People's Court Nearly all of those found guilty were sentenced to death by hanging the sentences being carried out within two hours of the verdicts being passed Roland Freisler's mastery of legal texts and dramatic courtroom verbal dexterity made him the most feared judge in the Third Reich In this in depth examination Helmut Ortner not only investigates the development and judgments of the Nazi tribunal but the career of Freisler a man who was killed in February 1945 during an Allied air raid      *The History of the Wars which Arose Out of the French Revolution* Alexander Stephens, 1803
