The Fall Of Shanghai:

The Fall of Shanghai Noel Barber, 1979 **The Fall of Shanghai** Noel Barber, 1979 *Shanghai* Stella Dong, 2001-05-22 Transformed from a swampland wilderness into a dazzling modern day Babylon the Shanghai that predated Mao's cultural revolution was a city like no other redolent with opium and underworld crime booming with foreign trade blessed with untold wealth and marred by abject squalor Journalist Stella Dong captures all the exoticism extremes and excitement of this legendary city as if it were a larger than life character in a fantastic novel **Global Shanghai, 1850-2010** Jeffrey N Wasserstrom, 2008-11-25 This book explores the play of international forces and international ideas about Shanghai looking backward as far as its transformation into a subdivided treaty port in the 1840s and looking forward to its upcoming hosting of China's first World's Fair the 2010 Expo As such *Global Shanghai* is a lively and informative read for students and scholars of Chinese studies and urban studies and anyone interested in the history of Shanghai *Chinese Capitalists in Japan's New Order* Parks Coble, 2003-04-01 In this probing and original study Parks M Coble examines the devastating impact of Japan's invasion and occupation of the lower Yangzi on China's emerging modern business community Arguing that the war gravely weakened Chinese capitalists Coble demonstrates that in occupied areas the activities of businessmen were closer to collaboration than to heroic resistance He shows how the war left an important imprint on the structure and culture of Chinese business enterprise by encouraging those traits that had allowed it to survive in uncertain and dangerous times Although historical memory emphasizes the entrepreneurs who followed the Nationalists armies to the interior most Chinese businessmen remained in the lower Yangzi area If they wished to retain any ownership of their enterprises they were forced to collaborate with the Japanese and the Wang Jingwei regime in Nanjing Characteristics of business in the decades prior to the war including a preference for family firms and reluctance to become public corporations distrust of government opaqueness of business practices and reliance of personal connections *guanxi* were critical to the survival of enterprises during the war and were reinforced by the war experience Through consideration of the broader implications of the many responses to this complex era *Chinese Capitalists in Japan's New Order* makes a substantial contribution to larger discussions of the dynamics of World War II and of Chinese business culture *Miscellaneous Series*, 1919 **Miscellaneous Series** United States. Bureau of Foreign and Domestic Commerce, 1919 **Commercial Handbook of China ...** United States. Bureau of Foreign and Domestic Commerce, 1919 *The Rape of Nanking* Zhang Sheng, 2021-11-08 The Massacre of Nanking took place in 1937 during the War of the Japanese Invasion of China 75 years after the event we are finally able to analyze and study what happened in Nanking on three levels as an historical event as a legal case and as an object in the Chinese people's collective consciousness *Democratization in China, Korea and Southeast Asia?* Kate Xiao Zhou, Shelley Rigger, Lynn T. White III, 2014-01-21 Rapid economic pluralization in East Asia has empowered local and medial groups and with this change comes the need to rethink usual notions regarding ways in which

democracies emerge or citizens gain more power Careful examination of current developments in China Korea and Southeast Asia show a need for expansion of our understandings of democracy and democratization This book challenges traditional ways in which political regimes in local as well as national polities are conceived and labeled It shows from Asian experiences that democracy and its precursors come in more forms than most liberals have yet imagined In reviewing recent experiences of countries across East Asia these chapters show that actual democracies and ostensible democratizations there are less like those in the West than the surprisingly consensual and standard political science of democratization suggests This book first examines the extreme variation of democracy s meaning in many Asian states that hold contested elections South Korea Taiwan Indonesia Malaysia the Philippines and Thailand Then it focuses on China It analyzes a range of grassroots forces driving political change in the People s Republic and it finds both accelerators and brakes in China s political reform process The contributors show that models for China s political future exist both within and outside the PRC including in other East Asian states in localities and sectors that already are pushing the limits of the powerful but no longer all powerful Chinese party state With contributions from leading academics in the field Democratization in China Korea and Southeast Asia will be of interest to students and scholars of Asian politics comparative politics and democratization more broadly
