Carlos Domínguez-Morano

The Falling Phenomenon:

Gravity's Mysteries Louis Komzsis, 2012-02-11 Gravity is the most detectable physical phenomenon of the universe Nothing or nobody can escape its grasp even in very large astronomical distances It is manifested in many aspects of our lives Yet we are still not really sure what carries it The gradually increasing understanding of gravity throughout history and its observed effects in various physical fields are the subjects of this book This is an enlightening read about one of the most mysterious phenomena of our lives that is still far from being fully understood presenting a historical journey through several millennia of encountering and understanding gravity's mysteries **The Falling Phenomenon** Theodore Elliott Dobson, 1986 , **The Myth of Desire** Carlos Domínguez-Morano, 2020-10-16 In *The Myth of Desire* Sexuality Love and the Self Carlos Domínguez Morano draws on psychoanalysis to explore the broad and complex reality of the affective sexual realm encompassed by the term desire a concept that propels individual aspirations pursuits and life endeavors Domínguez Morano takes a global perspective in order to introduce a methodology examine the present sociocultural determinations affecting desire review the main stages in the evolution of desire and reflect on affective maturity Domínguez Morano further explores the five basic expressions of desire falling in love and being a couple homosexuality narcissism and self esteem friendship and the derivative of desire by way of sublimation Scholars of psychology philosophy and sociology will find this book particularly useful *Studies in Melody* Walter Van Dyke Bingham, 1910 Monograph supplements Whole no 50

Xinguo Zhang, 2019-06-08 This book is a compilation of peer reviewed papers from the 2018 Asia Pacific International Symposium on Aerospace Technology APISAT 2018 The symposium is a common endeavour between the four national aerospace societies in China Australia Korea and Japan namely the Chinese Society of Aeronautics and Astronautics CSAA Royal Aeronautical Society Australian Division RAeS Australian Division the Korean Society for Aeronautical and Space Sciences KSAS and the Japan Society for Aeronautical and Space Sciences JSASS APISAT is an annual event initiated in 2009 to provide an opportunity for researchers and engineers from Asia Pacific countries to discuss current and future advanced topics in aeronautical and space engineering **Rest** Siang-Yang Tan, 2003 Come to Me all you who labor and are heavy laden and I will give you rest Bringing a distinctly Christian perspective to the subject of finding true rest in the midst of daily pressures Siang Yang Tan diagnoses what ails us and provides thoroughly practical steps to help us respond to Jesus invitation In this book Siang Yang Tan draws from a richness of experience to write with warmth and compassion Since he himself knows the difficulty of slowing down in these hyperactive times he is able to give practical guidelines to others drawn from a wealth of information found in the Scriptures empirical research and psychological reports If rest is not easy for you to put into practice learn from an author who is growing at a healthy pace and willing to bring others along on the journey from the Foreword by Dr Gary R Collins SIANG YANG TAN is professor of psychology at Fuller Theological Seminary He also

serves as Senior Pastor of First Evangelical Church in Glendale California He has authored or co authored eight previous books including *Disciplines of the Holy Spirit* and *Understanding Depression* He is an associate editor of *The Journal of Psychology and Christianity* **Days of Delusion** Clara Endicott Sears,1924 On the great religious excitement of 1843 the year that William Miller predicted the end of the world **Transcendental Idealism and Metaphysics** Daniele De Santis,2023-10-19 The book offers a systematic reconstruction of the disagreement between Husserl and Heidegger from the former s perspective but without falling into any form of Husserlian apologetics The main thesis is that Husserl s critique of Heidegger s existential analytics as a form of philosophical anthropology entails a deeper fundamental thesis namely that Heidegger confuses the object of first philosophy the transcendental determination of the subject with metaphysics in the Husserlian sense of the expression Addressing the Husserl Heidegger confrontation this text provides the first systematic reconstruction of Husserl s conception of the system of philosophy from the perspective of his later works with a special focus on the Cartesian Meditations At stake in Husserl s critique of Heidegger s philosophy in *Being and Time* is the refusal to transcendentalize the irrational aspects and nature of our human existence This first volume addresses Husserl s doctrine of transcendental idealism with the aim of elucidating the distinction between first philosophy second philosophies and what Husserl calls last philosophy This volume appeals to students and researchers Elementary science.
