**Fun, Taste, & Games** John Sharp,David Thomas,2019-03-12 Reclaiming fun as a meaningful concept for understanding games and play Fun is somewhat ambiguous If something is fun is it pleasant Entertaining Silly A way to trick students into learning Fun also has baggage it seems inconsequential embarrassing child s play In Fun Taste the seminal but underinfluential game *Myst* and how tastes change over time the shattering of the gamer community in Gamergate and an aesthetics of play that goes beyond games      *Chess: its poetry and its prose, a treatise on composing and solving chess problems. Also elementary instructions for beginners* Arthur Ford Mackenzie,1887      *Pleasure and Leisure in the Middle Ages and Early Modern Age* Albrecht Classen,2019-08-05 Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre modern civilization Recent research has begun to acknowledge the fundamental importance of these aspects in cultural religious philosophical and literary terms This volume expands on the traditional approach still very much focused on the materiality of game toys cards dice falcons dolls etc and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune Whether considering blessings or horse fighting falconry or card games playing with dice or dolls we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time The contributions examine a wide gamut of approaches to pleasure considering health issues eroticism tournaments playing music reading and listening drinking alcohol gambling and throwing dice This large issue was also relevant of course in non Christian societies and constitutes a critical concern both for the past and the present because we are all *homines ludentes*      *The Art Instinct* Denis Dutton,2009 The Dinka have a connoisseur s appreciation of the patterns and colours of the markings on their cattle The Japanese tea ceremony is regarded as a performance art Some cultures produce carving but no drawing others specialize in poetry Yet despite the rich variety of artistic expression to be found across many cultures we all share a deep sense of aesthetic pleasure The need to create art of some form is found in every human society In *The Art Instinct* Denis Dutton explores the idea that this need has an evolutionary basis how the feelings that we all share when we see a wonderful landscape or a beautiful sunset evolved as a useful adaptation in our hunter gather ancestors and have been passed on to us today manifest in our artistic natures Why do

people indulge in displaying their artistic skills How can we understand artistic genius Why do we value art and what is it for These questions have long been asked by scholars in the humanities and in literature but this is the first book to consider the biological basis of this deep human need This sparking and intelligent book looks at these deep and fundamental questions and combines the science of evolutionary psychology with aesthetics to shed new light on longstanding questions about the nature of art
