#### The Ethical Demand Revisions:

A call for a revision of the Book of Common Prayer John Nash Griffin,1871 The Ethical World .1911 The Ethical Demand Knud Ejler Løgstrup, 1997-02-15 Knud Ejler L gstrup s The Ethical Demand is the most original influential Danish contribution to moral philosophy in this century This is the first time that the complete text has been available in English translation Originally published in 1956 it has again become the subject of widespread interest in Europe now read in the context of the whole of L gstrup s work The Ethical Demand marks a break not only with utilitarianism and with Kantianism but also with Kierkegaard's Christian existentialism and with all forms of subjectivism Yet L gstrup's project is not destructive Rather it is a presentation of an alternative understanding of interpersonal life The ethical demand presupposes that all interaction between human beings involves a basic trust Its content cannot be derived from any rule For L gstrup there is not Christian morality and secular morality There is only human morality Relativism, Alternate History, and the Forgetful Reader Derek Thiess, 2014-11-25 The writer of alternate history asks what if What if one historical event were different what would the world look like today In a similar way the postmodern philosopher of history suggests that history is literature or that if we read certain historical details differently we would get a distinctly different interpretation of past events While the science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past Efforts and Models in Interpreting and Translation Research Gyde Hansen, Andrew Chesterman, Heidrun Gerzymisch-Arbogast, 2008 This volume covers a wide range of topics in Interpreting and Translation Research Some deal with scientometrics and the history of Interpreting Studies arguments about conceptual analysis meta language and interpreters risk taking strategies Other papers are on research skills like career management writing communicative abstracts and the practicalities of survey research Several contributions address empirical issues such as expertise in Simultaneous Interpreting the cognitive load imposed on interpreters by a non native accent the impact of intonation on interpreting quality linguistic interference in Simultaneous Interpreting similarities between translation and interpreting and the relation between translation competence and revision competence. The collection is a tribute to Daniel Gile in appreciation of his creativity and his commitment to interpreting and translation research All the contributions in some way show his influence or are related to the models and research he has shaped The Evacuation of the **Rhineland ...** Mildred Salz Wertheimer,1930 Ethical Subjectivism and Expressivism Neil Sinclair, 2020-09-10 Ethical
