The Europeans:

The Europeans Robert C. Ostergren, Mathias Le Bossé, 2011-06-15 This leading text offers a comprehensive richly nuanced and authoritative introduction to European geography Coverage encompasses the entire region its physical setting and environment population and migration languages and religions and political organization Particular attention is given to historic and contemporary features of the diverse urban environments in which most Europeans live work and play Combining vivid description essential information and cogent analysis the text is illustrated with more than 200 photographs and 64 maps New to This Edition Fully updated to reflect ongoing changes in this dynamic region Expanded coverage of timely topics such as emissions and energy policy aging of the population migration religiosity and secularization ethnonationalism health care popular culture and the future of the European Union Engaging vignettes in every chapter on European places cultural issues and daily life Over 45 new photographs and maps *The Europeans* Luigi Gioglio Barzini, 1983 An examination of European culture and history and of the nations that must be the base of a unified Europe backs up the eminent scholar journalist s call for a Europe with one will one voice and a unified foreign policy *Turbulent Era, the Year of Europe in Retrospect, Florence, 1974* Benjamin S. Rosenthal, Donald MacKay Fraser, 1974 *The Europeans* Henry James, 2025-07-22 Reprint of the original first published in 1879 The Antigonus publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **The Europeans** HardPress, Henry James, Jr., 2013-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Why Did Europe Conquer the World?** Philip T. Hoffman, 2017-01-24 The startling economic and political answers behind Europe s historical dominance Between 1492 and 1914 Europeans conquered 84 percent of the globe But why did Europe establish global dominance when for centuries the Chinese Japanese Ottomans and South Asians were far more advanced In *Why Did Europe Conquer the World* Philip Hoffman demonstrates that conventional explanations such as geography epidemic disease and the Industrial Revolution fail to provide answers Arguing instead for the pivotal role of economic and political history Hoffman shows that if certain variables had been different Europe would have been eclipsed and another power could have become master of the world Hoffman sheds light on the two millennia of economic political and historical changes that set European states on a distinctive path of development military rivalry and war This resulted in astonishingly rapid growth in Europe s military sector and produced an insurmountable lead in gunpowder technology The consequences determined which states established colonial empires or ran the slave trade and even which economies were the first to industrialize

Debunking traditional arguments Why Did Europe Conquer the World reveals the startling reasons behind Europe's historic global supremacy

The Europeans Henry James, 1883 Eugenia an expatriated American is the morganatic wife of a German prince who is about to reject her in favor of a state marriage With her artist brother Felix Young she travels to Boston to visit relatives she has never before seen in hopes of making a wealthy marriage The men of Boston soon realize her deceitfulness and she returns to Europe feeling that her fortune hunting scheme is impractical in unsusceptible America Its wit gaiety and what Rebecca West calls its clear sunlit charm have made this masterly short novel the most popular of James's novels

The European Union and the People Mette Elise Jolly, 2007-05-24 The European Union is frequently accused of having a democratic deficit Many commentators argue that this could be remedied by increasing the powers of the European Parliament relative to those of the Council and the Commission The fact that the European Parliament is the only EU institution whose members are directly elected leads to the assumption that it is also the most legitimate The author argues that this position is based on the flawed assumption that the nature of the European citizenry is similar to those of the member states In other words the position assumes that the union has a demos or a people who are prepared to accept majority outcomes even when finding themselves in the minority In this book the author argues that this is not the case and that the most severe dimension of the democracy problem is not procedural but socio psychological The fact that the EU does not have a people means that establishing an EU wide democracy based on analogies to domestic political systems is likely to lead to a further loss of democratic legitimacy The EU can rely on output legitimacy in policy areas which do not require pan European solidarity and identity and in which policy making at EU level increases efficiency and thereby benefits all citizens However policy areas which require high levels of solidarity or a common identity should either remain fully within the nation states or be subject to intergovernmental rather than supranational decision making at EU level

The Elgar Companion to the European Union Samuel B.H. Faure, Christian Lequesne, 2023-01-20 Constituting a major contribution to literature on the EU this comprehensive Companion analyses the structure and value of the EU capturing the normality of its politics alongside crises and political breakdown

The European Council Mary Johnston, 2019-07-11 This book presents the history of the transformation of the summit into the European Council EC It considers the political organizational and legal preparations for the increased involvement of heads of government in a more influential EC international and regional role

The European Environmental Conscience in EU Politics Thomas Hoerber, Gabriel Weber, 2021-12-06 Based on empirical studies of European energy and environmental policies this book suggests that in combination these two policy fields form a consensus in the EU which might also become the basis for a new European ideology namely European sustainability It asks why an environmental conscience has grown since the late 1960s in the industrialised world and shows that whilst there is undeniable environmental degradation during this time and that a European environmental conscience has mainly developed through successive steps of European integration in energy policy In this connection between energy and the environmental

we find one driver for European integration and indeed European identity If sustainabilism should become a European ideology it will substantially influence the way future Europeans will live This book will be of key interest to scholars and students of European Studies International Relations Political Science History Economics Sustainability Studies Environmental and Energy Policies in Europe

framework for analysing practical reasoning in political discourses and applies it in the analysis of national free movement debates contextualised in respective migration histories In addition to results related to political discourses the study unearths wider problems related to free movement including the diversified and variegated approaches towards different groups of movers as well as the exclusive attitudes apparent in both discourses and policies The History and Politics of Free Movement within the European Union is of interest to anyone studying national and European politics and ideologies contemporary history migration policies and political argumentation The future of the European Union Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2013-06-11 Incorporating HC 115 i iv from session 2012 13
