

Finally, when an elder's funds and property are improperly or illegally used, it is called financial exploitation (NCEA, n.d.). As one can see, elder abuse gains various forms, which require individual approaches to combat the problem.

## Ethical Dilemmas of Euthanasia, Suicide, and Assisted Suicide

Euthanasia and suicide, including assisted, ignite fierce discussions because euthanasia is legally prohibited across many countries, and assisted suicide does not fit into the ethical code of nurses. The central similarity between the three notions is a person's voluntary and intentional desire to end their life. The ethical dilemma around these phenomena is difficult because the nature of the problems is multifaceted. There are two opposing groups in the question of euthanasia and suicide, including assisted. One category views life as the undoubted value which should be saved in any case. The other part asserts that an individual must have a choice concerning their life continuation. Marsh et al. (2022) claim resolving corresponding ethical problems requires abandoning a dichotomy of pro-life and pro-choice positions. Moreover, whether seeking a solution should rest upon specific committees is unclear. For instance, in Belgium, where euthanasia is permitted, the Federal Control and Evaluation Committee handles the relevant issues (Mehlum et al., 2020). However, the people involved in the decision-making often have a scarce understanding of the issue and how to address it beneficially. Therefore, it is difficult to identify clear approaches to resolve ethical dilemmas because they have multiple and critical components.

## Conclusion

At last, elder abuse, euthanasia, and suicide, including assisted represent hardly resolvable ethical challenges. While the types of elder abuse are currently defined, the methods of fighting it are still unknown. Resolving ethical dilemmas and considerations regarding euthanasia and suicide represents a complicated task. There are two positions concerning this issue, namely pro-life and pro-choice. However, both can be ineffective in finding a common ethical solution. Furthermore, the involvement of professional committees does not guarantee good outcomes due to the poor understanding of the discussed challenges.
