P. White,2002 Subject Guide to Books in Print ,1997 The Art of Living Alexander Nehamas,1998-09-01 For much of its history philosophy was not merely a theoretical discipline but a way of life an art of living This practical aspect of philosophy has been much less dominant in modernity than it was in ancient Greece and Rome when philosophers of all stripes kept returning to Socrates as a model for living The idea of philosophy as an art of living has survived in the works of such major modern authors as Montaigne Nietzsche and Foucault Each of these writers has used philosophical discussion as a means of establishing what a person is and how a worthwhile life is to be lived In this wide ranging brilliantly written account Alexander Nehamas provides an incisive reevaluation of Socrates' place in the Western philosophical tradition and shows the importance of Socrates for Montaigne Nietzsche and Foucault Why does each of these philosophers each fundamentally concerned with his own originality return to Socrates as a model The answer lies in the irony that characterizes the Socrates we know from the Platonic dialogues Socratic irony creates a mask that prevents a view of what lies behind How Socrates led the life he did what enabled or inspired him is never made evident No tenets are proposed Socrates remains a silent and ambiguous character forcing readers to come to their own conclusions about the art of life This Nehamas shows is what allowed Montaigne Nietzsche and Foucault to return to Socrates as a model without thereby compelling them to imitate him This highly readable erudite study argues for the importance of the tradition within Western philosophy that is best described as the art of living and casts Montaigne Nietzsche and Foucault as the three major modern representatives of this tradition Full of original ideas and challenging associations this work will offer new ways of thinking about the philosophers Nehamas discusses and about the discipline of philosophy itself John Stuart Mill K. N. Demetriou,A. Loizides,2013-05-07 This edited collection highlights the inquisitive and synthetic aspects of John Stuart Mill's mode of philosophising while exploring various aspects of Mill's thought intellectual development and influence The contributors to this volume discuss a number of Mill's ideas including those on political participation democracy liberty and justice **Studies in Ancient Greek Philosophy** D. M. Spitzer,2023-03-24 Spanning a wide range of texts figures and traditions from the ancient Mediterranean world this volume gathers far reaching interdisciplinary papers on Greek philosophy from an international group of scholars The book's 16 chapters address an array of topics and themes extending

from the formation of philosophy from its first stirrings in archaic Greek as well as Egyptian Persian Mesopotamian and Indian sources through central concepts in ancient Greek philosophy and literatures of the classical period and into the Hellenistic age Studies in Ancient Greek Philosophy offers both in depth rigorous attentive investigations of canonical texts in Western philosophy such as Plato's *Phaedo* *Gorgias* *Republic* *Phaedrus* *Protagoras* and the *Metaphysics* *De Caelo* *Nicomachean Ethics* *Generation and Corruption* of Aristotle's corpus as well as inquiries that reach back into the rich archives of the Mediterranean Basin and forward into the traditions of classical philosophy beyond the ancient world Studies in Ancient Greek Philosophy is of interest to students and scholars working on different aspects of ancient Greek philosophy as well as ancient philosophy more broadly *The Sustainable Learning Community* John D. Aber, Tom Kelly, Bruce L. Mallory, 2009 Case studies from the University of New Hampshire explore all the dimensions of sustainability in campus life combining frugality and creativity **Art, Self and Knowledge** Keith Lehrer, 2012 This book argues that a special value of art is the way in which it uses conscious experience the exemplars of aesthetic experience to autonomously reconfigure how we conceive of our world and ourselves ourselves in our world and our world in ourselves Exemplar representation ties art and science mind and body self and world together in a dynamic loop reconfiguring them all as it reconfigures itself
