Everman, 1988 Who or what gives the text its authority Everman offers three main sources of authority the author the discourse and the reader His first section examines the authority of the author by studying the works of contemporary American writers An essay on docufiction focuses on the paradox of using the techniques of fiction to discover reality The probability of writers revealing truths about themselves is exemplified by Raymond Federman's quasi autobiographical novels The second part discusses the authority of discourse challenging writers with the possibility that literary form not the author is the major force in creating works The final section explores the authority of the reader Italo Calvino's *If on a winter's night a traveler* makes the reader the main character of the novel and implicates him in its creation *The Executioner's Song* Norman Mailer, 1981 [The Executioner's Song](#) D. Norman Mailer Andrew Wilson, 2008 This book is a comprehensive study of the work of the American author Norman Mailer charting his response to critical events in his country's development since 1945 Focusing on Mailer's descriptions of World War II 1960s counter culture the Vietnam War the Apollo 11 mission and the execution of Gary Gilmore in Utah in 1977 the book analyses the native vernaculars in ten of his most critically acclaimed works Moving beyond politically orientated scholarship the author outlines Mailer's New York American GI Mid West and Southern styles contextualising his prose against earlier American authors including Henry Adams Ernest Hemingway and John Dos Passos and positioning his writing alongside contemporary notables such as Joan Didion William Burroughs and Truman Capote Incorporating over forty years of scholarship in the form of articles reviews and interviews this book pinpoints the American attributes in Mailer's writing with a view to identifying trends in post war American literary movements the Beat Generation New Journalism and Pop Art among others

The Spectacle of Death Kristin Boudreau, 2006-04-04 In 1787 Benjamin Rush cautioned that public punishments were dangerous to the social and legal authority of the new nation For Rush irrepressible human sentiments all but guaranteed that public punishments would turn spectators against the institutions responsible for the punishments Although public executions of criminals ended early in the 19th century debate over the morality of capital punishment has continued to this day In this unique and fascinating glimpse into public reactions to prominent executions from colonial times to the 1990s Kristin Boudreau focuses on the central role of populist often ephemeral literary forms in shaping attitudes toward capital punishment Surveying popular poems ballads plays and novels she shows that at key times of social unrest in American history many Americans have felt excluded by the political and legal processes and have turned instead to inexpensive literary forms of expression in an attempt to change the course of history Among the significant capital cases that the author discusses are the Haymarket anarchist trial of 1886 the lynching of Leo Frank in 1914 the murder of Emmett Till in 1955 and its effects on the Civil Rights movement Norman Mailer's treatment of the Gary Gilmore case in the 1979 novel *The Executioner's Song* and the 1998 execution of Karla Faye Tucker a convicted murderer who became a born again Christian on death row In the concluding chapter Boudreau examines contemporary writers musicians actors and other artists who are using their artistic media to influence official policies of

states that permit capital punishment By examining these neglected texts Boudreau brings to light a compelling story about ordinary Americans fighting an entrenched legal system at times of great national crisis The Theory and Practice of American Literary Naturalism Donald Pizer,1993 In his first book devoted exclusively to naturalism Donald Pizer brings together thirteen essays and four reviews written over a thirty year period that in their entirety constitute a full scale interpretation of the basic character and historical shape of naturalism in America The essays fall into three groups Some deal with the full range of American naturalism from the 1590s to the late twentieth century and some are confined either to the 1890s or to the twentieth century In addition to the essays an introduction in which Pizer recounts the development of his interest in American naturalism reviews of recent studies of naturalism and a selected bibliography contribute to an understanding of Pizer s interpretation of the movement One of the recurrent themes in the essays is that the interpretation of American naturalism has been hindered by the common view that the movement is characterized by a commitment to Emile Zola s deterministic beliefs and that naturalistic novels are thus inevitably crude and simplistic both in theme and method Rather than accept this notion Pizer insists that naturalistic novels be read closely not for their success or failure in rendering obvious deterministic beliefs but rather for what actually does occur within the dynamic play of theme and form within the work Adopting this method Pizer finds that naturalistic fiction often reveals a complex and suggestive mix of older humanistic faiths and more recent doubts about human volition and that it renders this vital thematic ambivalence in increasingly sophisticated forms as the movement matures In addition Pizer demonstrates that American naturalism cannot be viewed monolithically as a school with a common body of belief and value Rather each generation of American naturalists as well as major figures within each generation has responded to threads within the naturalistic impulse in strikingly distinctive ways And it is indeed this absence of a rigid doctrinal core and the openness of the movement to individual variation that are responsible for the remarkable vitality and longevity of the movement Because the essays have their origin in efforts to describe the general characteristics of American naturalism rather than in a desire to cover the field fully some authors and works are discussed several times though from different angles and some referred to only briefly or not at all But the essays as a collection are complete in the sense that they comprise an interpretation of American naturalism both in its various phases and as a whole Those authors whose works receive substantial discussion include Stephen Crane Frank Norris Theodore Dreiser Edith Wharton James T Farrell Norman Mailer Joyce Carol Oates and William Kennedy Of special interest is Pizer s essay on *Ironweed* which appears here for the first time **The American Biographical Novel** Michael Lackey,2016-04-07 Before the 1970s there were only a few acclaimed biographical novels But starting in the 1980s there was a veritable explosion of this genre of fiction leading to the publication of spectacular biographical novels about figures as varied as Abraham Lincoln Ludwig Wittgenstein Friedrich Nietzsche Emily Dickinson Virginia Woolf Henry James and Marilyn Monroe just to mention a notable few This publication frenzy culminated in 1999 when two biographical novels

Michael Cunningham's *The Hours* and Russell Banks' *Cloudsplitter* were nominated for the Pulitzer Prize and Cunningham's novel won the award. In *The American Biographical Novel*, Michael Lackey charts the shifts in intellectual history that made the biographical novel acceptable to the literary establishment and popular with the general reading public. More specifically, Lackey clarifies the origin and evolution of this genre of fiction, specifies the kind of truth it communicates, provides a framework for identifying how this genre uniquely engages the political and demonstrates how it gives readers new access to history.

New York Magazine, 1982-11-08 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.

Norman Mailer in Context Maggie McKinley, 2021-08-26 This volume offers new insight into the breadth of contexts that inform Norman Mailer's body of work. It examines important literary, critical, theoretical, cultural, and historical frameworks for Mailer's writing, highlighting the ways his work reflects the concerns of twentieth and twenty-first century America. This book traces Mailer's literary influences, his contributions to a variety of literary genres, his participation in the American political sphere, the philosophical, religious, and gendered contexts that shape his work, and the iconic American figures he profiled. The book concludes with reflections on Mailer's literary and cultural legacy, emphasizing his advocacy for literary freedom and the contemporary resonance of his work.

The Cambridge History of the American Novel Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field.

The Oxford Guide to Contemporary World Literature John Sturrock, 1997 In this opinion, the Guide offers a discriminating and sometimes controversial view of a broad range of contemporary literatures.

Murder, in Fact Lana A. Whited, 2020-11-24 With the 1965 publication of *In Cold Blood*, Truman Capote declared he broke new literary ground. But Capote's nonfiction novel belongs to a long Naturalist tradition originating in the work of 19th-century French novelist Emile Zola. Naturalism offers a particular response to the increasing problem of violence in American life and its sociological implications. This book traces the origins of the fact-based homicide novel that emerged in the mainstream of American literature, with works such as Frank Norris's *McTeague* and flourished in the twentieth century with works such as Theodore Dreiser's *An American Tragedy* and Richard Wright's *Native Son*. At their heart is a young man isolated from community who acts out in desperate circumstances against someone who reflects his isolation. A tension develops between how society views this killer and the way he is viewed by the novelist. The crimes central to these narratives epitomize the vast gap between those who can aspire to the so-called American dream and those with no realistic chance of achieving it.

Epic Voices Robert Arlett, 1996 The path of the modern novel has been marked by a dialectic of seemingly rival impulses while certain novelists have sought to deal with wide-scale social and political dimensions of modern existence, others have concerned

themselves primarily with interior sensibility
