Amy Oxley Wilkinson was a well known missionary in both China and the West in the early twentieth century Initially setting up a mission station in a remote area of Fujian Province she became aware of the way blind children were neglected hidden or abandoned in China at the time After finding a blind boy left to die in a ditch she established an innovative Blind Boys School in Fuzhou Meanwhile her husband Dr George Wilkinson set up the city s first hospital and introduced a program to address the pervasive curse of opium addiction Amy s holistic and vocational approach to disability education brought her national and later international recognition In 1920 the president of the new Chinese republic awarded her the Order of the Golden Grain the highest honor a foreigner could receive Two years later Amy and the school s brass band toured England and performed before Queen Mary Amy s story highlights the significance of contributions by women missionaries to the development of early modern China and is a challenge to anyone committed to making their life count for others Her Blind School remains a major institution in Fuzhou to this day

**The Face You Were Afraid to See** Amit Bhaduri,2009 Economists talk of prices rising or falling in response to excess of demand or supply in the market but are at a loss to explain who sets the price in a market of many players where no one has the power to dictate price They then have to invent the invisible hand of a mythical god called price mechanism to create the image of the market operating as a self regulating system While unregulated free trade amounts to groping in the dark the

situation is far worse when the prices and other rules of the market are set by the state on behalf of large corporations as has happened in globalizing India in the name of economic development Large corporations aided and abetted by the land acquisition policies of the central and state governments are indulging in massive land grabbing We witness the perversity of development in the destruction of livelihoods and displacement of the poor in the name of industrialization in the construction of big dams for power generation and irrigation in the corporatization of agriculture despite farmers suicides and in the modernization and beautification of our cities by the demolition of slums One of India's foremost theoretical economists Amit Bhaduri contends that we have abjectly surrendered to the conventional wisdom of our time that there is no alternative to corporations and the type of globalization that they lead The result he warns will not be a freer market and more freedom but a disastrous and deepening chasm between the India of privilege and the India of crushing poverty The Face You were Afraid to See is a collection of compellingly argued essays that draws attention to the other India that we turn away from Fiercely critical of financial liberalization corporate led globalization and neoliberalism that celebrate unregulated free trade the essays together make for a forceful critique of India's economic policies Women in the Face of Change Annie Phizacklea, Hilary Pilkington, Shirin Rai, 2013-10-08 The years 1989 and 1990 will probably be best remembered for the speed and breadth of political and economic change which swept through what used to be referred to as the Communist Bloc With the disintegration of this bloc there has been no shortage of western advice on how to democratize economy and polity in these societies However little thought has been given to what this change means for the millions of women who have toiled for decades alongside men in the factories and fields as well as performing their womanly mission in the home This collection from women in Eastern and Western Europe and covering both Europe and China poses many questions about the impact of change It contributes to the debate that seeks to combat inertia and ethnocentrism within western feminism and also to the separate and the critical women's voice which is re-emerging in the Soviet Union Eastern Europe and China Treasures of the Yenching Harvard-Yenching Library, Mikael S. Adolphson, 2003 **Seeing China's Belt and Road** Edward Schatz, Professor of Political Science and the Director of the Centre for the European Russian and Eurasian Studies Edward Schatz, Professor of Geography & Planning and Richard Charles Lee Director of the Asian Institute Rachel Silvey, Rachel Silvey, 2024 In Seeing China's Belt and Road editors Edward Schatz and Rachel Silvey assemble the ground level fieldwork of leading scholars to examine the Belt and Road Initiative BRI from different downstream contexts ranging from Central and Southeast Asia to Europe and Africa Crucially this book uncovers views of the BRI from Chinese authorities local businesses state bureaucrats expatriated migrants ordinary citizens and environmental activists Through these case studies the book offers a timely analysis of the dynamic complexity of changes in the world order **The Face of China as Seen by Photographers & Travelers, 1860-1912**, 1978 The Face of China is devoted to the works of such largely unsung photographers as Felice A. Beato John Thomson E. H. Wilson the White Brothers and Thomas Childs Most tended to focus on

the rarefied and exotic Who could resist the staggering architecture the Great Wall the magnificent battlements of Peking or the rococo retreats of the mandarins Or the mandarins themselves prosperous gentlemen whose tiny footed wives wore embroidered silk coveted by the soigne of Paris and London BOOK JACKET A few photographers saw more than the elevated society and resplendent architecture and ventured in search of the less visible China Felice Beatro traveled with the Anglo French armies to depict the conquest of Tientsin and the sacking of the Imperial summer Palace With a documentarian s eye John Thomson directed his lens at both the imperial family and its subjects His prints contrast the great distance between ruler and ruled warning of more upheaval in a country already torn and equally important fixing forever subtle attitudes and mores Using cumbersome equipment Donald Mennie and the White Brothers photographed the dreamlike and harmonious panoramas so beloved by great Chinese landscape artists BOOK JACKET

**China's Digital Nationalism** Florian Schneider,2018-08-16 Nationalism in China as much as elsewhere is today adopted filtered transformed enhanced and accelerated through digital networks And as we have increasingly seen nationalism in digital spheres interacts in complicated ways with nationalism on the ground If we are to understand the social and political complexities of the twenty first century we need to ask what happens to nationalism when it goes digital In China s Digital Nationalism Florian Schneider explores the issue by looking at digital China first hand exploring what search engines online encyclopedias websites hyperlink networks and social media can tell us about the way that different actors construct and manage a crucial topic in contemporary Chinese politics the protracted historical relationship with neighbouring Japan Using two cases the infamous Nanjing Massacre of 1937 and the ongoing disputes over islands in the East China Sea Schneider shows how various stakeholders in China construct networks and deploy power to shape nationalism for their own ends These dynamics provide crucial lessons on how nation states adapt to the shifting terrain of the digital age and highlight how digital nationalism is today an emergent property of complex communication networks *Greening China's New Silk Roads*

Ferguson, R. J.,2021-12-07 This timely book offers a critical account of key governance challenges of the Belt and Road Initiative BRI Illustrating China s efforts to expand its idea of a sustainable eco civilization thereby greening the BRI it explores the disputes that have emerged from this process and subsequent complications resulting from geopolitical competition **Conflict and Cooperation in Sino-US Relations** Jean-Marc F. Blanchard,Simon Shen,2015-02-20

Numerous crosswinds are buffeting the more than 40 year old People s Republic of China American relationship yet only once since Nixon s historic trip to China in 1972 has a major conflagration seemed a real possibility Anchoring the relationship throughout multiple storms are the two countries broad areas of collaboration such as deep links in culture economics and education However for some observers the conflictual aspects of the relationship seem to be gaining prominence Conflict and Cooperation in Sino US Relations offers a timely and current look at one of the world s weightiest bilateral relationships It goes beyond detailing the conflict and cooperation that have been integral facets of China US

interactions since 1972 to gauging the relationship's evolution and future trends examining its nuances regarding diverse issues such as the Asia Pacific leadership structure the South China Sea and the Korean peninsula The book further delves into the causes of conflict and cooperation offers diverse solutions for tempering frictions between Beijing and Washington and considers the efficacy of some of the mechanisms e.g. military to military exchanges that China and the US currently employ to manage their relationship The chapters suggest that extreme anxieties about China-US relations may be misplaced but that there nonetheless are some worrisome signs even in areas like economics and the environment that are perceived as naturally cooperative While the book does not offer any silver bullets various contributors contend that successful management of Sino-American relations may require greater American accommodation of China's interests This book will be of great interest to students and scholars of Chinese politics American politics international relations and Asian studies as well as to policy makers working in the field     Brush & Shutter Jeffrey W. Cody, Frances Terpak, 2011 Accompanies an exhibition held at the J Paul Getty Museum 8 February 1 May 2011     China's Engine of Environmental Collapse Richard Smith, 2020-07-20 As the world hurtles towards environmental oblivion China is leading the charge The nation's CO2 emissions are more than twice those of the US with a GDP just two thirds as large China leads the world in renewable energy yet it is building new coal-fired power plants faster than renewables The country's lakes rivers and farmlands are severely polluted yet China's police state can't suppress pollution even from its own industries This is the first book to explain these contradictions Richard Smith explains how the country's bureaucratic rulers are driven by nationalist industrialist tendencies that are even more powerful than the drive for profit under normal capitalism In their race to overtake the US they must prioritise hyper growth over the environment even if this ends in climate collapse and eco suicide Smith contends that nothing short of drastic shutdowns and the scaling back of polluting industries especially in China and the US will suffice to slash greenhouse gas emissions enough to prevent climate catastrophe     The Chambers Dictionary Allied Chambers, 1998

**China's Embedded Activism** Peter Ho, Richard Edmonds, 2007-10-19 In recent years China has been remarkable in achieving extraordinary economic transformation yet without fundamental political change To many observers this would seem to imply a weakness in Chinese civil society However though the idea of democracy as multitudes of citizens taking to the streets may be attractive it is simultaneously misleading as it disregards the nature of political change taking place in China today a gradual shift towards a polity adapted to a pluralist society At the same time one may wonder what the limited political space implies for the development of a social movement in China This book explores this question by focusing on one of the most active areas of Chinese civil society the environment China's Embedded Activism argues that China's semi-authoritarian limitations on the freedom of association and speech coupled with increased social spaces for civic action has created a milieu in which activism occurs in an embedded fashion The semi-authoritarian atmosphere is restrictive of but paradoxically also conducive to nationwide collective action with less risk of social instability and repression at the hand of

the governing elite Rich in case studies about environmental civic organizations in China and written by a team of international experts on social movements NGOs democratization and civil society this book addresses a wide readership of students scholars and professionals interested in development geography and environment political change and contemporary Chinese society      **Sexuality and the Rise of China** Travis S. K. Kong,2023-05-15 In *Sexuality and the Rise of China* Travis S K Kong examines the changing meanings of same sex identities communities and cultures for young Chinese gay men in contemporary Hong Kong Taiwan and mainland China Drawing on ninety life stories Kong s transnational queer sociological approach shows the complex interplay between personal biography and the dramatically changing social institutions in these three societies Kong conceptualizes coming out as relational politics and the queer tongzhi community and commons as an affective imaginative means of connecting governed by homonormative masculinity He shows how monogamy is a form of cruel optimism and envisions state and sexuality intertwining in different versions of homonationalism in each location Tracing the alternately diverging and converging paths of being young Chinese gay and male Kong reveals how both Western and emerging inter and intra Asian queer cultures shape queer tongzhi experiences Most significantly at this historical juncture characterized by the rise of China Kong criticizes the globalization of sexuality by emphasizing inter Asia modeling referencing and solidarities and debunks the essentializing myth of Chineseness thereby decolonizing Western sexual knowledge and demonstrating the differential meanings of Chineseness queerness across the Sinophone world
