

Review of Criticism

- ✦ Paul O'Prey: "It is an irony that the 'failures' of Marlow and Kurtz are paralleled by a corresponding failure of Conrad's technique—brilliant though it is—as the vast abstract darkness he imagines exceeds his capacity to analyze and dramatize it, and the very inability to portray the story's central subject, the 'unimaginable,' the 'impenetratable' (evil, emptiness, mystery or whatever) becomes a central theme."
- ✦ James Guetti complains that Marlow "never gets below the surface," and is "denied the final self-knowledge that Kurtz had."

The Failures Of Criticism:

The Failures of Criticism Henri Peyre, 1967 The Failures of Criticism Henri Peyre, 1967 **The Failure of the "higher Criticism" of the Bible** Emil Reich, 1905 The Failure of Criticism. (2. Print.) - Cambridge, Mass. [usw.]: Harvard Univ. Press. (1980). 203 S. 8° Eugene Goodheart, 1980 **The Failure of Poetry, the Promise of Language** Laura (Riding) Jackson, 2007 Brings together four decades of largely unpublished work by Jackson exploring the rationale for her renunciation of poetry in 1941 after two decades as a poet The Concepts of Criticism L. Aschenbrenner, 2012-12-06 This inquiry may be thought of as a sequel to *The Concepts of Value* and as an extension of the brief core vocabulary of aesthetic concepts found in one of the appendices to it In terms of sheer numbers most of the value concepts of our language are to be found in the area of human relations and of the aesthetic There are also other value vocabularies shorter but equally important for example the cognitive and logical These and other objects of philosophical study for example the question of other minds deserve the kind of empirical survey that has been made of moral and aesthetic notions if only to test a priori approaches to them In the present study an even more determined empirical approach than that adopted for the first has been found necessary Once the moral or human value vocabulary has been identified sentential contexts for the use of the terms readily come to mind In a study of the language of criticism however the vocabulary has first to be sought in the utterances of critics themselves and quoted in sufficient context to make their critical intentions clear The outcome is that the present study is of great length about half of it being quotations from critics The rule adopted for arriving at this length go on collecting quotations as long as new types of appraisal came was to to light *Modern North American Criticism and Theory* Julian Wolfreys, 2006-04-21 *Modern North American Criticism and Theory* presents the reader with a comprehensive and critical introduction to the development and institutionalization of literary and cultural studies throughout the twentieth century and at the beginning of the twenty first Focusing on the growth and expansion of critical trends and methodologies with particular essays addressing key figures in their historical and cultural contexts the book offers a narrative of change transformation and the continuous quest for and affirmation of multiple cultural voices and identities From semiotics and the New Criticism to the identity politics of whiteness studies and the cultural study of masculinity this book provides an overview of literary and cultural study in North America as a history of questioning debate and exploration **Modern Criticism** Walter E. Sutton, 1963 *Rhetorical Criticism* Jim A. Kuypers, 2021-07-19 Covering a broad range of rhetorical perspectives *Rhetorical Criticism Perspectives in Action* third edition presents a well grounded introduction to the basics of rhetorical criticism and theory in an accessible manner for advanced undergraduate courses and introductory graduate courses Throughout the text sample essays written by noted experts in the field provide students with models for writing their own criticisms In addition to covering traditional modes of rhetorical criticism the book introduces less commonly discussed rhetorical perspectives as well as orientations toward performing criticisms including close textual analysis critical

approaches and analysis of visual and digital rhetoric The third edition includes the following features New chapters on visual rhetoric and digital rhetoric Potentials and Pitfalls sections analyzing individual perspectives Activities and discussion questions in each chapter Glossary of important terms

The Failures of Criticism Henri Peyre, **Samuel Beckett's Lyric Failure** Mantra Mukim, 2025-03-06 Providing one of the first book length accounts of Samuel Beckett's poetry this work illustrates how Beckett's poetry and its failures reconfigure the lyric form Reading Beckett alongside nineteenth and twentieth century European poets such as Hölderlin Mallarmé Rimbaud Montale and Apollinaire the book situates failure in the triangulation of the lyric impulse subjectivity and the human voice Beckett in his poems employs lyric tactics that range from deixis parataxis and caesura to specific kinds of timbre resonances and punctuations These tactics situate the poetic voice in the liminal points between life and death event and non event beginning and ending and more broadly between expression and failure The book frames these liminalities under the rubric of lyric failure Moving beyond the usual comparisons with his prose and drama the study highlights failure as a generative force that structures Beckett's anti expressive poetics

'Relations Stop Nowhere' Hugh Ridley, 2007 This book attempts for the first time a comparative literary history of Germany and the USA in the nineteenth and twentieth centuries Its material does not come from the familiar overlaps of individual German and American writers but from the work of the literary historians of the two countries after 1815 when American intellectuals took Germany as a model for their project to create an American national literature The first part of the book examines fundamental structural affinities between the two literary histories and the common problems these caused especially in questions of canon realism aesthetics and in the marginalization of popular and women's writing In the second part significant figures whose work straddle the two literatures from Sealsfield and Melville Whitman and Thomas Mann to Nietzsche Emerson and Bellow are discussed in detail and the arguments of the first part are shown in their relevance to understanding major writers This book is not merely comparative in scope it shows that only international comparison can explain the course of American literary history in the nineteenth and twentieth century As recent developments in American Studies explore the multi cultural and hybrid nature of the American tradition this book offers evidence of the dependencies which linked American and German national literary history

Cold War Criticism and the Politics of Skepticism Tobin Siebers, 1993-04-29 In Cold War Criticism and the Politics of Skepticism Tobin Siebers claims that modern criticism is a Cold War criticism Postwar literary theory has absorbed the skepticism suspicion and paranoia of the Cold War mentality and it plays them out in debates about the divided self linguistic indeterminacy the metaphysics of presence multiculturalism canon formation power cultural literacy and the politics of literature The major critical movements of the postwar age Siebers argues belong to three dominant phases of the Cold War era The age of charismatic leadership characterized by Churchill FDR Stalin and Hitler lies behind the preoccupation with intention affect and impersonality found in the New Criticism The age of propaganda motivates the fascination with the guiles of language undecidability and

deconstruction The age of superpowers provides the dominant metaphor in the new historicism s analysis of the technology of power All three ages of criticism reflect the skepticism of the Cold War mentality and this skepticism Siebers posits has impaired the ability of literary theorists to talk about the politics of criticism in an effective way A trenchant analysis of postwar theory Siebers s work presents a new view of the politics of criticism and a surprising vision of what theory must do if it is to enter the post Cold War era successfully
