The Fall of Joseph Estrada Amando Doronila, 2001

Checking Executive Power Jody C. Baumgartner, Naoko

Kada, 2003-10-30 Baumgartner Kada and thier contributors examine presidential impeachment in such varied settings as the United States Russia Colombia Brazil Venezuela the Philippines and Madagascar In all of these countries there has been a serious impeachment attempt within the past decade or so The results of each impeachment attempt vary from unsuccessful attempts to those which were successful in the latter case some resulted in presidents remaining in office others in removal of the president and in one case the forced resignation of a president The common framework of each analysis includes a discussion of the historical and constitutional bases of the presidency the institutional balance of power provisions for impeachment and the structure of party politics in each country in addition the role that public opinion plays in the process is discussed While broad the framework permits comparison between the cases and some general conclusions about all phases of the impeachment process and executive accountability can be drawn One of the most important conclusions is that contrary to popular wisdom impeachment is most definitively not a strictly legal process but rather one that is highly political from start to finish As the volume makes clear it is most useful to view impeachment by way of examining the intersection of executive legislative relations partisan political conflict and public opinion

Policing America's Empire Alfred W.

McCoy, 2009-10-15 At the dawn of the twentieth century the U S Army swiftly occupied Manila and then plunged into a decade long pacification campaign with striking parallels to today s war in Iraq Armed with cutting edge technology from America s first information revolution the U S colonial regime created the most modern police and intelligence units anywhere under the American flag In *Policing America s Empire* Alfred W McCoy shows how this imperial panopticon slowly crushed the Filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information Even after Washington freed its colony and won global power in 1945 it would intervene in the Philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression In trying to create a democracy in the Philippines the United States unleashed profoundly undemocratic forces that persist to the present day But security techniques bred in the tropical hothouse of colonial rule were not contained McCoy shows at this remote periphery of American power Migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during World War I Once established under the pressures of wartime mobilization this distinctively American system of public private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed U S society with active informers secretive civilian organizations and government counterintelligence agencies In each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during World War I to the mass incarceration of Japanese Americans during World War II all the way to the secret blacklisting of suspected

communists during the Cold War The Patchwork City Marco Z. Garrido, 2019-08-05 In contemporary Manila slums and squatter settlements are peppered throughout the city often pushing right up against the walled enclaves of the privileged creating the complex geopolitical pattern of Marco Z Garrido's patchwork city Garrido documents the fragmentation of Manila into a range of spaces defined by class particularly slums and upper and middle class enclaves He then looks beyond urban fragmentation to delineate its effects on class relations and politics arguing that the proliferation of these slums and enclaves and their subsequent proximity have intensified class relations For enclave residents the proximity of slums is a source of insecurity compelling them to impose spatial boundaries on slum residents For slum residents the regular imposition of these boundaries creates a pervasive sense of discrimination Class boundaries then sharpen along the housing divide and the urban poor and middle class emerge not as labor and capital but as squatters and villagers Manila's name for subdivision residents Garrido further examines the politicization of this divide with the case of the populist president Joseph Estrada finding the two sides drawn into contention over not just the right to the city but the nature of democracy itself The Patchwork City illuminates how segregation class relations and democracy are all intensely connected It makes clear ultimately that class as a social structure is as indispensable to the study of Manila and of many other cities of the Global South as race is to the study of American cities **State and Society in the Philippines** Patricio N.

Abinales, Donna J. Amoroso, 2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country's recurring dilemma on the one hand is the state's persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book's historical sweep starts with the politics of the pre colonial era and continues through the first year of Rodrigo Duterte's controversial presidency **Corruption and Good Governance in Asia**

an extremely valuable contribution to our understanding of corruption and how to tackle the problem *Development, Democracy, and Welfare States* Stephan Haggard, Robert R. Kaufman, 2020-06-16 This is the first book to compare the distinctive welfare states of Latin America East Asia and Eastern Europe Stephan Haggard and Robert Kaufman trace the historical origins of social policy in these regions to crucial political changes in the mid twentieth century and show how the legacies of these early choices are influencing welfare reform following democratization and globalization After World War II communist regimes in Eastern Europe adopted wide ranging socialist entitlements while conservative dictatorships in East Asia sharply limited social security but invested in education In Latin America where welfare systems were instituted earlier unequal social security systems favored formal sector workers and the middle class Haggard and Kaufman compare the different welfare paths of the countries in these regions following democratization and the move toward more open economies Although these transformations generated pressure to reform existing welfare systems economic performance and welfare legacies exerted a more profound influence The authors show how exclusionary welfare systems and economic crisis in Latin America created incentives to adopt liberal social policy reforms while social entitlements from the communist era limited the scope of liberal reforms in the new democracies of Eastern Europe In East Asia high growth and permissive fiscal conditions provided opportunities to broaden social entitlements in the new democracies This book highlights the importance of placing the contemporary effects of democratization and globalization into a broader historical context **Introduction to Politics** Robert Garner, Peter Ferdinand, Stephanie Lawson, 2016 Combining theory comparative politics and international relations Introduction to Politics provides a perfect introduction to the subject for students embarking on university level study As the only introductory text to cover both comparative politics and international relations and contextualise this material with a wide range of international examples it is the most comprehensive authoritative and global introductory politics textbook on the market Written by three experts in the field this book takes a balanced approach to the subject serving as a strong foundation for further study The material is explored in an accessible way for introductory study but takes an analytical approach which encourages more critical study and debate helping students to develop the vital skills they need for a politics degree An Online Resource Centre accompanies this text and includes a range of resources for both students and lecturers For students Learn more about the people behind the theory with the Key Thinkers resource Test your understanding of the chapter content and receive instant feedback with self marking multiple choice questions Revise key terms and concepts with an online flashcard glossary For registered lecturers Encourage students to think critically with political scenario exercises Reinforce key themes from each chapter with suggested discussion questions for use in seminars Use the adaptable PowerPoint slides as the basis for a lecture presentation or as hand outs in class Save time preparing assessments and seminars with a fully updated test bank of questions *Moral Politics in the Philippines* Wataru Kusaka, 2017-02-17 The people famously ousted Ferdinand Marcos from power in the Philippines in 1986 After

democratization though a fault line appeared that split the people into citizens and the masses The former were members of the middle class who engaged in civic action against the restored elite dominated democracy and viewed themselves as moral citizens in contrast with the masses who were poor engaged in illicit activities and backed flawed leaders The masses supported emerging populist counter elites who promised to combat inequality and saw themselves as morally upright in contrast to the arrogant and oppressive actions of the wealthy in arrogating resources to themselves In 2001 the middle class toppled the populist president Joseph Estrada through an extra constitutional movement that the masses denounced as illegitimate Fearing a populist uprising the middle class supported action against informal settlements and street vendors and violent clashes erupted between state forces and the poor Although solidarity of the people re emerged in opposition to the corrupt presidency of Gloria Macapagal Arroyo and propelled Benigno Aquino III to victory in 2010 inequality and elite rule continue to bedevil Philippine society Each group considers the other as a threat to democracy and the prevailing moral antagonism makes it difficult to overcome structural causes of inequality

Shaw, 2007-11-28 This book examines the role of faith based organizations in managing international aid providing services defending human rights and protecting democracy It argues that greater engagement with faith communities and organizations is needed and questions traditional secularism that has underpinned development policy and practice in the North

Political Change, Democratic Transitions and Security in Southeast Asia Mely Caballero-Anthony, 2009-12-16 The fragility of democracy in Southeast Asia is a subject of increasing concern While there has been significant movement in the direction of democratisation the authoritarian tendencies of popularly elected leaders and the challenges posed by emerging security threats have given rise to a shared concern about the return of military rule in the region This book examines the nature of political transitions in Southeast Asia and why political transitions towards political liberalisation and democracy have often failed to take off It considers political systems in Southeast Asia that have gone through significant periods of transition but continue to face serious challenges toward democratic consolidation Some key questions that the book focuses on are Are emerging democracies in the region threatened by weak failed or authoritarian leadership Are political institutions that are supposed to support political changes toward democratisation weak or strong How can democratic systems be made more resilient and What are the prospects of democracy becoming the defining political landscape in Southeast Asia

Catalyst contains assessments of these changes both ephemeral and permanent by a wide range of specialists in Asian economics and politics The crisis as the contributors to this volume show catalyzed changes across political corporate and social arenas both in the countries hit hard by the crisis and in others throughout the region The authors of Crisis as Catalyst examine what has changed as well as what has not changed in East Asia since the crisis explain these variations and reflect on the long term significance of these developments

Fishing for Fairness Michael Fabinyi, 2012-01-01 FISHING FOR FAIRNESS develops an explicitly cultural perspective on environmental politics in the Philippines by analysing the responses of fishers to marine resource regulations In the resource frontier of the Calamianes Islands fishing conservation and tourism provide the context where competing visions of how to engage with marine resources are played out The book draws on data from ethnographic fieldwork with fishers government and NGO officials fish traders and tourism operators to show how the strategic responses of fishers to management initiatives are couched within particular cultural idioms Tapping into broader notions of morality in the Philippines fishers express a discourse that emphasises their poverty and the obligations of the wealthy to treat them with fairness By deploying this discourse fishers are able to reframe what are on the surface questions of environmental management into issues about poverty within particular social relationships By using a cultural political ecology framework to analyse fishers responses to regulation the book emphasises the distinctive ways in which marginalised people in the Philippines resist and reframe resource management initiatives FISHING FOR FAIRNESS will appeal to both academics and policy makers interested in marine resource management political ecology anthropology and development studies particularly throughout the Asia Pacific
