surprising meanings Friedman examines the various reshaping s of the myth from the Hellenistic age through the late Middle Ages He presents primarily a literary study but draws as well upon art and iconography indicating how literary characterizations of Orpheus gave rise to new iconographical details for his portrayals in art which in turn led to different portrayals in literature He first outlines the figure of Orpheus in antiquity He continues with an examination of the significant conceptual changes in the Orpheus myth In the religious and philosophical writings of Hellenistic Jews and later Christians Orpheus appears as a monotheist He emerges as a Good Shepherd figure in late antique art and eventually is identified with Christ as a guide of men s souls to the afterlife In the Middle Ages Orpheus relationship with Eurydice gains importance The pair first serve a didactic and moralizing purpose coming together as in Boethius Consolation of Philosophy more as the abstractions of reason and passion than as tragic lovers In the later Middle Ages however they appear as a secular couple who illustrate the power of the god Amor over the human heart Orpheus becomes a courtly knight and the writer of elegant love lyrics The blending of these two medieval traditions is seen in Robert Henryson s Orpheus and Eurydice Friedman pays special attention to this work as well as to the romance Sir Orfeo Thus the propagation of religious belief one of the primary concerns of the early Middle Ages was reflected in the early conceptions of Orpheus Later with the growth of the courtly love tradition Orpheus and Eurydice became significant as lovers This book illustrates the vitality and flexibility that a myth must possess as it adapts to different eras and embodies the interests and concerns of each

Nonverbal Communication Across Disciplines: Narrative literature, theater, cinema, translation Fernando Poyatos, 2002 In a progressive and systematic approach to communication and always through an interdisciplinary and cross cultural perspective this first volume presents culture as an intricate grid of sensible and intelligible sign systems in space and time identifying the semiotic and interactive problems inherent in intercultural and subcultural communication according to verbal nonverbal cultural fluency The author lays out fascinating complexity of our direct and synesthesisal sensory perception of people and artifactual and environmental elements and its audible and visual manifestations through our speaking face to then acknowledge the triple reality of discourse as verbal language paralinguistic kinesics which is applied through two realistic models a for a verbal nonverbal comprehensive transcription of interactive speech and b for the implementation of nonverbal communication in foreign language teaching The author presents his exhaustive model of nonverbal categories for a detailed analysis of normal or pathological behaviors in any interactive or noninteractive manifestation and based on all the previous material his equally exhaustive structural model for the study of conversational encounters which suggests many applications in different fields such as the intercultural and multisystem communication situation developed in simultaneous or consecutive interpreting 956 literary quotations from 103 authors and 194 works illustrate all the points discussed

Boundaries in Medieval Romance Neil Cartlidge, 2008 Medieval romance frequently and perhaps characteristically capitalises on the dramatic and suggestive possibilities implicit in boundaries not only the geographical political and cultural frontiers that medieval

romances imagine and imply but also more metaphorical demarcations It is these boundaries as they appear in insular romances circulating in English and French which the essays in this volume address They include the boundary between reality and fictionality boundaries between different literary traditions modes and cultures and boundaries between different kinds of experience or perception especially the altered states associated with sickness magic the supernatural or the divine

Living on the Edge Delfi I. Nieto-Isabel, Laura Miquel Milian, 2022-09-20 This volume addresses the widespread medieval phenomenon of transgression as both a result of and the cause for the exclusion and persecution of those who were considered different It is widely accepted that the essence of a manuscript cannot be fully grasped without studying its marginalia Glosses sit on the margins of the text and clarify it adding a whole new dimension to it and becoming an inextricable part of its content Similarly no society can be fully understood without knowledge of what lies on its margins for the outliers of any given culture provide us with just as much information as its alleged foundational principles In a time when the Western world ponders building walls up against perceived threats and frightening differences this multidisciplinary collection of essays based on original and innovative pieces of research shows that it was mostly through tearing down walls that we learned our way forward
