Six Theosophic Points and the Clavis Jacob Boehme, 2014-03-30 This Is A New Release Of The Original 1850 Edition

On Behalf of the Mystical Fool John P. Dourley, 2009-09-30 Jung's explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion On Behalf of the Mystical Fool examines Jung's critique of traditional western religion demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today's culture The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience

Mysticism Evelyn Underhill, 2018-11-01 Mysticism is one of most celebrated books on the subject The spirit of the book is romantic engaged and theoretical rather than historical or scientific Underhill has little use for theoretical explanations and the traditional religious experience formal classifications or analysis She dismisses William James pioneering study *The Varieties of Religious Experience* 1902 and his four marks of the mystic state ineffability noetic quality transcendence and passivity Excerpt All men at one time or another have fallen in love with the veiled Isis whom they call Truth With most this has been a passing passion they have early seen its hopelessness and turned to more practical things But others remain all their lives the devout lovers of reality though the manner of their love the vision which they make to themselves of the beloved object varies enormously Some see Truth as Dante saw Beatrice an adorable yet intangible figure found in this world yet revealing the next

Jung and his Mystics John P. Dourley, 2014-04-03 Jung's psychology describes the origin of the Gods and their religions in terms of the impact of archetypal powers on consciousness For Jung this impact is the basis of the numinous the experience of the divine in nature and in human nature His psychology while possessed of a certain claim to science is based on depths of subjective experience which transcends psychology and science as ordinarily understood Jung and his Mystics In the end it all comes to nothing examines the mythic nature of Jung's psychology and thought and demonstrates the influence of mysticism and certain religious thinkers in formulating his own work John P Dourley explores the influence of Mechthild of Magdeburg and fellow mystics Beguines and traces the mystic impulse and its expression through Meister Eckhart and Jacob Boehme to Hegel in the nineteenth century All of these mystics were of the apophatic school and understood the culmination of their experience to lie in an identity with divinity in a nothingness beyond all form formal expression or immediate activity Dourley shows how this is still of relevance in our lives today The book concludes that Jung's understanding of mysticism

could greatly alleviate the conflict between faiths religious or political by drawing attention to their common origin in the depths of the human Jung and his Mystics In the end it all comes to nothing is aimed at scholars and senior research students in Jungian Studies including religionists theologians and philosophers of religion especially those with an interest in mysticism It will also be essential reading for those interested in the connection between religious and psychological experience

Paul Tillich, Carl Jung and the Recovery of Religion John P. Dourley, 2008-06-30 Is religion a positive reality in your life If not have you lost anything by forfeiting this dimension of your humanity This book compares the theology of Tillich with the psychology of Jung arguing that they were both concerned with the recovery of a valid religious sense for contemporary culture Paul Tillich Carl Jung and the Recovery of Religion explores in detail the diminution of the human spirit through the loss of its contact with its native religious depths a problem on which both spent much of their working lives and energies Both Tillich and Jung work with a naturalism that grounds all religion on processes native to the human being Tillich does this in his efforts to recover that point at which divinity and humanity coincide and from which they differentiate Jung does this by identifying the archetypal unconscious as the source of all religions now working toward a religious sentiment of more universal sympathy This book identifies the dependence of both on German mysticism as a common ancestry and concludes with a reflection on how their joint perspective might affect religious education and the relation of religion to science and technology Throughout the book John Dourley looks back to the roots of both men s ideas about mediaeval theology and Christian mysticism making it ideal reading for analysts and academics in the fields of Jungian and religious studies
